Lettere d'amore 2001 this book explores the tangled relationship between literary production and epistemological foundation as exemplified in one of the masterpieces of italian literature filippo andrei argues that giovanni boccaccio s decameron has a significant though concealed engagement with philosophy and that the philosophical implications of its narratives can be understood through an epistemological approach to the text he analyzes the influence of dante petrarch thomas aquinas aristotle and other classical and medieval thinkers on boccaccio s attitudes towards ethics and knowledge seeking beyond providing an

epistemological reading of the decameron this book also evaluates how a theoretical reflection on the nature of rhetoric and poetic imagination can ultimately elicit a theory of knowledge

**Concordance of the Divina Commedia** 1888 the present study addresses problems of an epistemological nature which hinge on the question of how to define jewish thought it will take its start in an ancient question that of the relationship between jewish culture greek philosophy and then greco roman and christian thought in connection with the query into the history and genealogy of wisdom and knowledge our journey into the history of the denomination jewish philosophy will include a leg that will lead us to certain declarations of political moral and scientific principles and then on to the birth of what is called philosophia perennis or in christian circles prisca theologia our subject of inquiry will thus be the birth of the concept of jewish philosophy jewish theology and jewish philosophy of religion a special emphasis will fall on the topic treated in the last part of this study jewish scepticism a theme that involves a

philosophical attitude founded on dialectical enquiry as the etymology of the greek word skepsis properly means

**Versi d'amore e perle di vita** 2024-04-22 this book provides the first scholarly history of the viola d amore a popular bowed string instrument of the baroque era with a unique tone produced by a set of metal sympathetic strings composers like bach made use of the viola d amore for its particular sound but the instrument subsequently fell out of fashion amid orchestral standardisation only to see a revival as interest in early music and historical performance grew drawing on literary accounts iconography and surviving instruments this study examines the origins and development of this eye catching string instrument in the seventeenth and eighteenth centuries it explores the rich variation of designs displayed in extant viola d amore specimens both as originally constructed and as a result of conversion and repair the viola d amore is then set into the wider context of elizabethan england s

development of instruments with wire strings and its legacy in the form of the baryton which emerged in the early seventeenth century followed by a look at the viola d amore s own nomenclatorial and organological influence the book closes with a discussion of the viola d amore s revival and its use and manufacture today offering insights for organological research and historical performance practice this study enhances our knowledge of both the viola d amore and its wider family of instruments

Catalogue of Printed Books 1883 Êamongst the apparent enigmas of life amongst the seemingly most radical and abiding of interior antinomies and conflicts experienced by the human race and by individuals there is one which everything tends to make us feel and see with an ever increasing keenness and clearness more and more we want a strong and interior a lasting yet voluntary bond of union between our own successive states of mind and between what is abiding in ourselves and what is permanent within our fellow men and more and more we seem to see that mere reasoning logic abstraction Ñall that appears as the necessary

*Watching Pages, Reading Pictures* 2008-12-18 imagining the woman reader in the age of  
dante brings to light a new character in medieval literature that of the woman reader and  
interlocutor it does so by establishing a dialogue between literary studies gender studies the  
history of literacy and the material culture of the book in medieval times from guittone d  
arezzo s piercing critic the villainous woman to the mysterious lady who bids guido cavalcanti  
to write his grand philosophical song to dante s female co editors in the vita nova and his  
great characters of female readers such as francesca and beatrice in the comedy all the way  
to boccaccio s overtly female audience this particular interlocutor appears to be central to the  
construct of textuality and the construction of literary authority this volume explores the figure  
of the woman reader by contextualizing her within the history of female literacy the material  
culture of the book and the ways in which writers and poets of earlier traditions imagined her

it argues that these figures are not mere veneers between a male author and a real male readership but that although fictional they bring several advantages to their vernacular authors such as orality the mother tongue the recollection of the delights of early education literacy freedom in interpretation absence of teleology the beauties of ornamentation and amplification a reduced preoccupation with the fixity of the text the pleasure of making mistakes dialogue with the other the extension of desire original simplicity and new and more flexible forms of authority
