born in mallorca pere joan riera known professionally as pere joan thrived in the underground comics world beginning in the mid

1970s with the self published collections *baladas urbanas* and *muñardago* both of which were released almost immediately after the death of the dictator francisco franco and spain s transition to democracy the first monograph in english on a comics artist from the spain the art of pere joan takes a topographical approach to reading comics applying theories of cultural and urban geography to pere joan s treatment of space and landscape in his singular body of work balancing this goal with an exploration of specific works by pere joan benjamin fraser demonstrates that looking at the thematic structural and aesthetic originality of the artist s landscape driven work can help us begin to newly understand the representational properties of comics as a spatial medium this in depth examination reveals the resonance between the cultural landscapes of mallorca and pere joan s metaphorical approach to both rural and urban environments in comics that weave emotional ecological and artistic strands in revolutionary ways

### ***Science in Latin America 2009-06-03***

science in latin america has roots that reach back to the information gathering and recording practices of the maya aztec and inca civilizations spanish and portuguese conquerors and colonists introduced european scientific practices to the continent where they hybridized with local traditions to form the beginnings of a truly latin american science as countries achieved their independence in the nineteenth century they turned to science as a vehicle for modernizing education and forwarding progress in the twentieth century science and technology became as omnipresent in latin america as in the united states and europe yet despite a history that stretches across five centuries science in latin america has traditionally been viewed as derivative of and peripheral to euro american science to correct that mistaken view this book provides the first comprehensive overview of the history of science in latin america from the sixteenth century to the present eleven leading latin american historians assess the part that science played in latin american society during the colonial independence national and modern eras investigating science s role in such areas as

natural history medicine and public health the eighteenth century enlightenment politics and nation building educational reform and contemporary academic research the comparative approach of the essays creates a continent spanning picture of latin american science that clearly establishes its autonomous history and its right to be studied within a latin american context

## **The Power of Huacas 2008**

the role of the religious specialist in andean cultures of the sixteenth seventeenth and eighteenth centuries was a complicated one balanced between local traditions and the culture of the spanish in the power of huacas claudia brosseder reconstructs the dynamic interaction between religious specialists and the colonial world that unfolded around them considering how the discourse about religion shifted on both sides of the spanish and andean relationship in complex and unexpected ways in the power of huacas brosseder examines evidence of transcultural exchange through religious history anthropology and cultural studies taking

andean religious specialists or hechizeros sorcerers in colonial spanish terminology as a starting point she considers the different ways in which andeans and spaniards thought about key cultural and religious concepts unlike previous studies this important book fully outlines both sides of the colonial relationship brossecker uses extensive archival research in bolivia chile ecuador peru spain italy and the united states as well as careful analysis of archaeological and art historical objects to present the andean religious worldview of the period on equal footing with that of the spanish throughout the colonial period she argues andean religious specialists retained their own unique logic which encompassed specific ideas about holiness nature sickness and social harmony the power of huacas deepens our understanding of the complexities of assimilation showing that within the maelstrom of transcultural exchange in the spanish americas european paradigms ultimately changed more than andean ones

## **Mexican Travel Writing *2020-06-12***

this book is a detailed study of salient examples of mexican travel writing from the nineteenth and twentieth centuries while scholars have often explored the close relationship between european or north american travel writing and the discourse of imperialism little has been written on how postcolonial subjects might relate to the genre this study first traces the development of a travel writing tradition based closely on european imperialist models in mid nineteenth century mexico it then goes on to analyse how the narrative techniques of postmodernism and the political agenda of postcolonialism might combine to help challenge the genre s imperialist tendencies in late twentieth century works of travel writing focusing in particular on works by writers juan villoro h ctor perea and fernando solana olivares

## **Magical Realism and the History of the Emotions in Latin America *2003***

iconoclastic in spirit magical realism and the history of the emotions in latinamerica is the first study of affect and emotion in magical realist literature against the grain of a vast body of scholarship it argues that magical realism is neither exotic commodity nor postcolonial resistance but an art form fueled by a search for spaces of wonder in a disenchanted world linking the rise and fall of magical realism and kindred narrative forms to the shifting value of wonder as an emotional experience this thought

provoking study proposes a radical new approach to canonical novels such as *One Hundred Years of Solitude* received as one of the most convincing manifestations of the turn to affect in contemporary Latin American critical thought. *Magical Realism and the History of the Emotions* draws on affect theory, the history of emotions, and new materialism to reframe key questions in Latin American literature and culture.

## **Portuguese Merchants in the Manila Galleon System *2006-01-01***

Villamar examines the role of Portuguese merchants in the formation of the Manila Galleon as a system of trade founded at the end of the sixteenth century. The rise of Manila as a crucial transshipment port was not a spontaneous incident; instead, it came about through a complex combination of circumstances and interconnections that nurtured the establishment of the Manila Galleon system, a trading mechanism that lasted two and a half centuries from 1565 until 1815. Villamar analyses the establishment of the regulatory framework of the trade across the Pacific Ocean as a whole setting that provided legality to the transactions, predictability to the transportation, and security to the stakeholders. He looks both at the Spanish crown strategy in Asia and the emergence of a network of Portuguese merchants located in Manila and active in the long-distance trade. This informal community of merchants participated from the inception of the trading system across the Pacific with connections between Europe, ports in Asia, under the control of Portugal, the Spanish colonies in America, and the city of Manila from its inception, the newly founded capital of the

philippines became a hub of connections attracting part of the trade that already existed in asia surveying the portuguese commercial networks from the estado da Índia across the spanish lake this book sheds light on the early modern globalization from a truly comprehensive iberian perspective this is a valuable resource for scholars of pacific and iberian trade history and the maritime history of asia

## **From the Supernatural to the Uncanny 2014-09-18**

this volume is a collection of thirteen essays built around the question what is the supernatural and how and why has it changed over time it is divided into two complementary sections the first focussing on research on the discourse of the supernatural including the miraculous located in the medieval and early modern eras and the second consisting of a set of test cases involving research on the uncanny often articulated in a post freudian sense as expressed in modern literature film and art the eclectic and prismatic approach pursued via a variety of test cases of the supernatural in this book gives rise to a clear comparative and diachronic study of the main characteristics of the supernatural

## **De-Centring Cultural Studies 2017-04-24**

the academic resistance that cultural studies has encountered remains especially visible in eastern and southern european countries one such example is spain where cultural studies is seen at best as an emergent research field hence the interest of this volume conceived in spain by an all spanish editorial team and written by a diverse range of authors who prove that in spite of all difficulties cultural studies continues to bloom even in southern and eastern europe the different chapters offer interdisciplinary insights into a wide selection of cultural materials whose relevance goes well beyond purely aesthetic issues altogether the volume 1 provides interesting theoretical reflections on the subtle yet arbitrary borders between popular and canonical culture 2 explores how the popular culture of yesteryear has influenced and inspired later canonical cultural materials and 3 studies how the reception of and representation in popular culture can be accounted for from the crucially relevant perspectives of gender and age

this collection of essays studies and explores the connections between a wide range of materials including relevant examples of classic and contemporary literature arthuriana pop music and videos political and mainstream film newspaper advertising television and the phenomenon of the trans media star

## ***Ideas of 'Race' in the History of the Humanities 1996***

this volume is concerned with the hitherto neglected role of the humanities in the histories of the idea of race its aim is to begin to fill in this significant lacuna in the decades following world war ii and the holocaust years that witnessed european decolonization and the african american civil rights movement the concept of race slowly but surely lost its legitimacy as a cultural political and scientific category for much of the nineteenth and the first half of the twentieth century concepts of race enjoyed widespread currency in numerous fields of knowledge such as the history of art history musicology or philosophy bringing together some of the most distinguished scholars in their respective fields this is the first collective attempt to address the history of notions of race in the humanities as a whole

marvelous possessions is a study of the ways in which europeans of the late middle ages and the early modern period represented non european peoples and took possession of their lands in particular the new world in a series of innovative readings of travel narratives judicial documents and official reports stephen greenblatt shows that the experience of the marvelous central to both art and philosophy was cunningly yoked by columbus and others to the service of colonial appropriation he argues that the traditional symbolic actions and legal rituals through which european sovereignty was asserted were strained to the breaking point by the unprecedented nature of the discovery of the new world but the book also shows that the experience of the marvelous is not necessarily an agent of empire in writers as different as herodotus jean de léry and montaigne and notably in mandeville s travels the most popular travel book of the middle ages wonder is a sign of a remarkably tolerant recognition of cultural difference marvelous possession is not only a collection of the odd and exotic through which stephen greenblatt powerfully conveys a sense of the marvelous but also a highly original extension of his thinking on a subject that has occupied him throughout his career the book reaches back to the ancient greeks and forward to the present to ask how it is possible in a time of disorientation hatred of the other and possessiveness to keep the capacity for wonder from being poisoned a marvellous book it is also a compelling and a powerful one nothing so original has ever been written on european responses to the wonder of the new world anthony pagden times literary supplement by far the most intellectually gripping and penetrating discussion of the relationship between intruders and natives is provided by stephen greenblatt s marvelous possessions simon schama the new republic for the most engaging and illuminating perspective of all read marvelous possessions laura shapiro newsweek

## **A Light in the Darkness: The Music and Life of Joaquín Rodrigo 1955**

in the symbolic language of ballads a lady's costly dress tells of the beauty of the body beneath it or of the wearer's happiness a lost hawk or hound foreshadows the hunter's fate long before the plot reaches a turning point in her original and far-reaching study of such familiar narrative elements edith randam rogers adds much to our understanding of poetic expression in the ballad tradition in focusing on individual motifs as they appear in different ballads different languages and different periods rogers proves the existence of a reliable lingua franca of symbolism in european balladry lines or even whole stanzas that have defied interpretation often come to life when the reader is aware of the meaning of a particular motif in such an international vocabulary of images thus this book makes available important new critical tools sure to have significant results for ballad scholarship
