Report on the Activity of the Committee on Commerce for the One Hundred Sixth Congress 1976 □ 100□ □

Intelligence Activities--Senate Resolution 21 2001-03-01 the first five minutes of a classroom experience are critical the tone set in a session s opening minutes can significantly impact and influence in both positive and negative ways the quality and nature of the subsequent learning experience how students spend that time can also have a positive impact on their learning in both the short and long term when the opening minutes of a class are approached as an opportunity to build student connections collaboration and community all learners benefit as more and more learning experiences occur in synchronous and asynchronous online learning environments strategies that both welcome students to online sessions and support student learning are increasingly important traditional ice breakers while typically shared with a goal of building community and student engagement can sometimes have unintended or even negative consequences on students this text shares a collection of powerful opening activities that are designed to simultaneously engage students build safe and connected classroom communities and support student learning all strategies are easily adapted and personalized to fit individual course and content needs including face to face synchronous online and asynchronous online learning contexts shared activities are aligned with associated learning science research and incorporate strategies that have been shown to support student engagement and learning such as retrieval practice active recall spaced practice and interleaving

among other evidence based instructional strategies

101 Math Activities for Calculating Kids 2013-04-01 incite 4th grade students enthusiasm to learn using technology in the curriculum youll enhance learning and encourage high order thinking by incorporating a technology project for every week of the school year students will develop key technology skills in word processing spreadsheets multimedia presentations and using the internet while you teach regular classroom content lessons are divided among content areas and the flexible projects are great for computer centers labs or one computer classrooms the easy to follow teacher instructions and step by step student directions make this resource a hit in the classroom the included teacher resource cd contains sample projects templates and assessment rubrics 160pp
