Early Globalization and the Economic Development of the United States and Brazil 2002-01-30 placing the controversial globalization process in historical context dewitt brings this increasingly important topic to life through the experiences of the two most populous states of the western hemisphere brazil and the united states comparing their development processes from the colonial era to 1900 he highlights the dramatically different consequences that are incorporated into the world economy for these two states sharing similar experiences during the colonial era the countries internal differences and differing relationships with great britain the economic superpower of the 19th century led to very different development paths by 1900 the united states had become a member of the economic core while brazil remained mired in the semi periphery pointing out the similarities and differences in the economic development of the united states and brazil dewitt emphasizes that the manner of incorporation into the world economy greatly affected one becoming a superpower and the other remaining a developing nation this book offers unique insights into globalization economic development and the histories of the united states and brazil

The Fruits of the Early Globalization 2021-06-02 this book presents an unusual view on one of the most influential periods in world economic history the early globalization by this term the notion that a process of genuine globalization took place in the early modern era is defended the authors propose that the canonical globalization that of the nineteenth and early twentieth centuries was preceded by a century long increasing economic integration between continents that were non existent before 1492 the economic aspects of the early globalization like market integration price co movements and international silver circulation were very important notwithstanding other dimensions of human life which were affected by unprecedented intercontinental contacts including free and forced migrations changes in tastes and consumption etc the fruits of globalisation deals with some of the most important issues among the former and the latter the book combines approaches from different disciplines including quantitative and non quantitative economic history econometrics international trade and demography overall the vision of the early globalisation offered in this book is less pessimistic than in mainstream literature on the period

Transitions to Capitalism in Early Modern Europe 2019-09-26 revised updated and expanded this second edition analyzes the structures and practices of european economies within a global context

The Origins of Globalization 2018-09-20 for better or for worse in recent times the rapid growth of international economic exchange has changed our lives but when did this process of globalization begin and what effects did it have on economies and societies pim de zwart and jan luiten van zanden argue that the networks of trade established after the voyages of columbus and da gama of the late fifteenth century had transformative effects inaugurating the first era of globalization the global flows of ships people money and commodities between 1500 and 1800 were substantial and the re alignment of production and distribution resulting from these connections had important consequences for demography well being state formation and the long term economic growth prospects of the societies involved in the newly created global economy whether early globalization had benign or malignant effects differed by region but the world economy as we now know it originated in these changes in the early modern period

Iberian World Empires and the Globalization of Europe 1415–1668 2019-03-13 this open access book analyses iberian expansion by using knowledge accumulated in recent years to test some of the most important theories regarding europe s economic development adopting a comparative perspective it considers the impact of early globalization on iberian and western european institutions social development and political economies in spite of globalization s minor importance from the commercial perspective before 1750 this book finds its impact decisive for institutional development political economies and processes of state building in iberia and europe the book engages current historiographies and revindicates the need to take the concept of composite monarchies as a point of departure in order to understand the period s economic and social developments analysing the institutions and

societies resulting from contact with iberian peoples in america and asia the outcome is a study that nuances and contests an excessively negative yet prevalent image of the iberian societies explores the difficult relationship between empires and globalization and opens paths for comparisons to other imperial formations

Globalisation in the Early Modern Period 2004 academics politicians and activists have taken up the study of globalisation in recent years but the exchange of goods services and ideas the formation of military and political relationships and the migrations of people that are the hallmarks of the contemporary idea of what defines globalisation is hardly new phenomenon in fact the process of globalisation is evident throughout history particularly in the early modern period the early modern period was a time of discovery expansion and innovation europeans asians africans and americans established lasting contacts through trade labour and cultural exchanges one of the best case studies of this process of historical globalisation is comparative port history in the early modern period cátia antunes reconstructs the interplay of globalizing agents in amsterdam and lisbon these two ports were engaged in local regional and intercontinental trade credit investment and labour networks antunes argues that business and diplomacy were key early modern activities and vital for a dynamic socio economic relationship between the two ports she further contends that merchants economic agents representatives and diplomats were the true agents of expansive globalisation in the early modern period antunes provides a cogent model for the understanding of this fascinating historical period

Globalization in World History 2023-11-03 in this fully revised fourth edition this book treats globalization from several vantage points showing how these help grasp the nature of globalization both in the past and today the revisions include greater attention to the complications of racism after 1500 and nationalism after 1850 further analysis of reactions against globalization after world war i and in the 21st century more discussion of student exchanges and fuller treatment of developments since 2008 including the role of the covid 19 pandemic in contemporary globalization four major chronological phases are explored in the centuries after 1000 ce after 1500 after 1850 and since the mid 20th century discussion of each phase includes relevant debates over the nature and extent of the innovations involved particularly in terms of transportation communications technologies and trade patterns the phase approach also facilitates analysis of the range of interactions enmeshed in globalization beyond trade and migration including disease exchange impacts on culture and consumer tastes and for the modern periods policy coordination and international organizations finally the book deals with different regional positions and reactions in each of the major phases this includes not only imbalances of power and economic benefit but also regional styles in dealing with the range of global relationships this volume is essential reading for undergraduate and postgraduate students of world history economic history and political economy

Young Workers, Globalization and the Labor Market 2008-11-28 underpinned by the fact that the globalization process and the subsequent increased level of market uncertainty have paved the way for employment flexibility in modern societies this book examines the labor market chances of young adults in the us and in ten european societies over the past three decades as young adults represent a very vulnerable labor market group flexible and insecure employment tends to be pronounced especially at labor market entry the contributors therefore explore which groups of young adults are especially affected by increasing employment insecurities

Iberian World Empires and the Globalization of Europe 1415-1668 2020-10-08 this open access book analyses iberian expansion by using knowledge accumulated in recent years to test some of the most important theories regarding europe s economic development adopting a comparative perspective it considers the impact of early globalization on iberian and western european institutions social development and political economies in spite of globalization s minor importance from the commercial perspective before 1750 this book finds its impact decisive for institutional development political economies and processes of state building in iberia and europe the book engages

current historiographies and revindicates the need to take the concept of composite monarchies as a point of departure in order to understand the period's economic and social developments analysing the institutions and societies resulting from contact with iberian peoples in america and asia the outcome is a study that nuances and contests an excessively negative yet prevalent image of the iberian societies explores the difficult relationship between empires and globalization and opens paths for comparisons to other imperial formations this work was published by saint philip street press pursuant to a creative commons license permitting commercial use all rights not granted by the work's license are retained by the author or authors

Making Worlds 2022 taking into account the destructive powers of globalization making worlds considers the interconnectedness of the world in the early modern period this collection examines the interdisciplinary phenomenon of making worlds with essays from scholars of history literary studies theatre and performance art history and anthropology the volume advances questions about the history of globalization by focusing on how the expansion of global transit offered possibilities for interactions that included the testing of local identities through inventive experimentation with new and various forms of culture case studies show how the imposition of european economic religious political and military models on other parts of the world unleashed unprecedented forces of invention as institutionalized powers came up against the creativity of peoples cultural practices materials and techniques of making in doing so making worlds offers an important rethinking of how early globalization inconsistently generated ongoing dynamics of making unmaking and remaking worlds

Transitions to Capitalism in Early Modern Europe 2019-09-26 between the end of the middle ages and the early nineteenth century the long established structures and practices of european trade agriculture and industry were disparately but profoundly transformed revised updated and expanded this second edition of transitions to capitalism in early modern europe narrates and analyses the diverse trends that greatly enlarged european commerce permanently modified rural and urban production gave birth to new social classes remade consumer habits and altered global economic geographies culminating in capitalist industrial revolution broad in chronological and geographical scope and explicitly comparative robert s duplessis book introduces readers to a wealth of information drawn from throughout eastern western and mediterranean europe as well as to classic interpretations current debates new scholarship and suggestions for further reading

Tend the Olive, Water the Vine 2006-08-01 current international development wisdom promotes the inclusion of non governmental organizations ngos in national level policy making in the interest of strengthening state civil society relationships supporting locally driven culturally sensitive development and contributing to program and policy innovation however critics of increased state ngo donor collaboration argue that it actually dilutes the power of ngos to act in the interest of the local populations they were established to serve this tension between the local and the global is connected to broader debates about the nature and role of contemporary educational development should education aim primarily at preparing citizens for participation in the global economy thereby encouraging the integration of nation states into a world economic system driven by the industrialized north or and should it endeavor to develop in students and in communities north and south the ability to critique resist and transform that world system ultimately this is a question of who owns development international agencies and institutions or the communities being developed this book examines the complexities of these negotiations in a particularly complicated and volatile context palestine and a particularly hot development field early childhood development the international community's efforts to support early childhood programming in the developing world fall more broadly within the empowerment camp than do other development efforts and in this case in particular serve as a source of important lessons about the dynamics of donor state ngo relationships suggestions for improved development policy and insights into forms of education which promote justice and equity in an increasingly interdependent world

Globalization, Transformation, and Cultures in Early Childhood Education and Care 2019-09-16 this edited volume provides a critical discussion of globalization and transformation considering the cultural contexts of early childhood education systems as discourses as well as concrete phenomena and lived experience the book focuses on theoretical explorations and critical discourses at the level of education policy macro the level of institutions meso and the level of social interactions micro the chapters offer a wide range of interpretative contextualized perspectives on early childhood education as a cultural construct

Trade Policy of Developing Countries and Emerging Economies in the Course of Globalization 2013-07 scholarly essay from the year 2012 in the subject economics international economic relations grade management und marketing language english abstract the current global economy is characterized by extensive globalization of the markets the accompanying international trade affects industrial nations and developing countries in differing degrees the analysis of trade policy in developing countries can in the process be analyzed using the same tools as those for developed countries namely industrial nations earlier development stages of trade policy amongst developing countries were characterized by protectionism and an orientation towards a domestic market which consequently led to a weak internationalization of these countries it was not possible to decrease the distance between the classical industrial states since the industrial states themselves in the context of the first phase of globalization were able to significantly advance on a global scale as a result of the rejection of protectionism by means of changing political structures and the accompanying liberalization it was therefore possible in the early phases of globalization whose origins lie in the end of the 19th and the start of the 20th century for several developing countries to successfully advance in the wake of the general dynamic of internationalization the share in the world goods market the volumes in direct investments and the inflows of portfolio capital were able to increase amongst these groups of countries albeit not for all countries to the same extent as a result the majority of developing countries today are tightly embedded in world trade moreover these countries were capable of registering export quotas of 20 and 30 the gap between the so called oecd countries could be largely made up for in the course of early globalization the oecd countries also dynamically developed with the consequence that many developing countries were in turn

The Scandinavian Early Modern World 2020-05 the scandinavian early modern world explores the early modern colonialism globalization and modernity in scandinavia along with its colonies and its role in the shaping of the modern world scandinavians played an active role in early modern globalization and were present as traders as colonialists and as consumers in competition and collaboration with indigenous agents and other colonial actors in america africa india this story is rarely told the joint study of history historical landscape and material culture from a scandinavian vantage point provides for a comprehensive and original interpretation of the birth of globalization and modernity new perspectives and data are presented deepening and challenging our knowledge of the long seventeenth century in depth analysis of case studies encompassing four continents and their material entanglement makes this book a unique contribution to historical archaeology the scandinavian early modern world aims at students and scholars of anthropology archaeology and history alike taking interest in the global connections of the long seventeenth century and the role of scandinavia in that process

Making Worlds 2023-01-15 making worlds explores how early globalization fostered new ways of knowing and shaping the world

Globalization and Armed Conflict 2003-06-11 globalization and armed conflict addresses one of the most important and controversial issues of our time does global economic integration foster or suppress violent disputes within and between states here cutting edge research by leading figures in international relations shows that expanding commercial ties between states pacifies some but not necessarily all political relationships the authors demonstrate that the pacific effect of economic integration hinges on democratic structures the size of the global system the

nature of the trade goods and a reduced influence of the military on political decisions in sum this book demonstrates how important the still fragile capitalist peace is

Globalization and Politics 2006 this invaluable highly readable new text brings together vision and imaginative insight to the analysis of the evolution of inter state politics to produce a clear comprehensive and coherent sense of globalization and exactly what is at stake in the globalization debate

Early Globalization and the Economic Development of the United States and Brazil 2002-01-30 placing the globalization process in historical context this work studies this topic through the experiences of the two most populous states of the western hemisphere brazil and the usa it highlights the different consequences that are incorporated into the world economy for these states

Globalization/Glocalization: Developments in Theory and Application 2021-11-29 in the immense literature on globalization the work of roland robertson stands out in particular his insistence that globalization manifests itself primarily as glocalization the simultaneity of the global and the local of homogenization and heterogenization continues to influence how a wide variety of observers understand the process including those who contest it in honour of robertson s lifetime contributions this volume brings together a set of essays that demonstrate the cogency of his approach point out directions in which it can be further developed and illustrate the insight it can provide in topics as varied as religion football wine morality and ufos contributors include peter beyer john boli didem buhari gulmez rebecca catto richard giulianotti ulf hannerz david inglis paul james habibul haque khondker anne sophie krossa frank lechner kristian naglo john h simpson manfred b steger and george m thomas

The Media and Globalization 2004-12-01 this is a necessary and very original book that really does address the lack of attention to media in previous discussions about globalization james lull san jose state university there is practically no globalization without media and communications yet this relationship is so obvious it is often overlooked rantanen challenges conventional ways of thinking about globalization and shows it cannot be understood without studying the role of the media this book offers a clear and accessible overview of globalization and the pivotal role of the media an introduction to the concepts and theories of globalization empirical data on the production and consumption of media a methodology for relating individual local experiences to the global picture rantanen has made this complex and huge subject very accessible by using personal histories and pictures to engage the reader it will be invaluable to students in international media cultural studies communications and international relations

Exports, Trade Policy and Economic Growth in Eras of Globalization 2018-06-13 this book provides an excellent resource for understanding the forces in international trade liberalization over two centuries that have brought us to this point where the successes setbacks and the countervailing forces now vie for the public s mind and support the outcome of which will determine the future progress of increased globalization or lack thereof the book also examines whether trade policy has indeed promoted exports in the vast number of countries which increasingly look to trade agreements to gain a competitive edge and to what extent export driven growth has been an important force in advancing economic development around the world in doing so the book examines one of the most controversial issues in economic development the promotion and significance of export led growth

The Globalization of Corporate Governance 2016-03-09 the process of economic globalization as product and capital markets have become increasingly integrated since wwii has placed huge and it is argued by some irresistible pressures on the world s insider stakeholder oriented corporate governance systems insider corporate governance systems in countries such as germany so the argument goes should converge or be transformed by global product and capital market pressures to the superior shareholder oriented outsider corporate governance model prevalent in the uk and the us what these pressures from globalization are how they manifest themselves whether they are likely

to cause such a convergence transformation and whether these pressures will continue lie at the heart of the exploration in this volume the globalization of corporate governance provides a detailed analysis of the evolution of the key corporate governance systems in the uk the us and germany from the perspective of the development of economic globalization as such it is a valuable resource for those interested in how economic and legal reforms interact to produce change within corporate governance systems

Globalization and Culture 2009 now fully revised and updated this seminal text asks if there is cultural life after the clash of civilizations and global mcdonaldization jan nederveen pieterse argues that what is taking place is a global culture of hybridization in a new chapter the author explores east west hybridities the idea that globalization is a process of braiding rather than simply a diffusion from developed to developing countries his historically deep and geographically wide approach to globalization is essential reading as we face the spread of conflicts bred by cultural misunderstanding

Globalization as Evolutionary Process 2007-12-20 the term globalization has gained widespread popularity yet most treatments are either descriptive and or focused on changes in economic interconnectivity in this volume the concept is seen in broader terms as leading international experts from a range of disciplines develop a long term analysis to address the problems of globalization the editors and contributors develop a framework for understanding the origins and trajectory of contemporary world trends constructing testable and verifiable models of globalization they demonstrate how the evolutionary approach allows us to view globalization as an enterprise of the human species as a whole focusing on the analytical problem of global change and the rules governing those changes the emphasis is not on broad based accounts of the course of world affairs but selectively on processes that reshape the social of the human species the making of world opinion and the innovations that animate these developments chapters are clustered into four foci one emphasizes the interpretation of globalization as an explicitly evolutionary process a second looks at historical sequences of such phenomena as population growth or imperial rise and decline as processes that can be modeled and not purely described the third cluster examines ongoing changes in economic processes especially information technology a final cluster takes on some of the challenges associated with forecasting and simulating the complexities of globalization processes this innovative and important volume will be of interest to students and scholars across the social sciences concerned with the phenomenon of globalization

Japanese Education in an Era of Globalization 2013-06-17 education comparative

Myths, State Expansion, and the Birth of Globalization 2011-12-15 many of the present problems of globalization are mirrored in the historical expansion of the european state system this title is a structured comparative case study analysis of four regions and examines how these regions and their peoples were absorbed into the expanding european centered state system from roughly the 1400s through to 1800

Globalization 2013-08-01 globalization prospects and problems by joann chirico provides a comprehensive and enlightening overview of globalization issues and topics emphasizing the theory and methods that social scientists employ to study globalization the text reveals how macro globalization processes impact individual lives from the spread of scientific discourse to which jobs are more or less likely to be offshored the author presents a clear image of the big globalization picture by skillfully exploring piece by piece a myriad of globalization topics debates theories and empirical data compelling chapters on theory global civil society democracy cities religion institutions sports education and health care along with three chapters on global challenges help readers develop a broad understanding of key topics and issues throughout the text the author encourages readers to relate their personal experiences to globalization processes allowing for a more meaningful and relevant learning experience

Health and Globalization 2010-05-10 exploring the links between health and globalization this title considers important issues such as the global spread of pandemics such as swine flu and bird flu effects of migration and health care systems across the world

Globalization 2009-03-16 globalization lechner has drawn on his extensive work on and his deep knowledge of globalization to write a brief accessible and highly successful introduction to the field the early chapters on food sport and mass media should pique the student s interest and lure them into a deeper involvement with later chapters and the field in general george ritzer university of maryland frank lechner s text takes on key issues in the study of globalization with real clarity and critical power an authoritative account of the major issues theories and debates in the field aptly illustrated by diverse contemporary examples this text offers a clear analysis of a complex topic that will be an invaluable resource for students and scholars fran tonkiss london school of economics written in a lively and accessible style globalization the making of world society shows how globalization affects everyday experience creates new institutions and presents new challenges with many examples lechner describes how the process unfolds in a wide range of fields from sports and media to law and religion while sketching the outlines of a world society in the making the book also demonstrates that globalization is inherently diverse and contentious in this concise analysis of a complex subject lechner presents some of the best work in the social sciences in clear and readable fashion globalization the making of world society will serve as a stimulating state of the art text for any student of globalization beginner or advanced

Globalistics and globalization studies 2016-01-01 the present volume is the fifth in the series of yearbooks with the title globalistics and globalization studies the subtitle of the present volume is global transformations and global future we become more and more accustomed to think globally and to see global processes and our future can all means be global however is this statement justified indeed in recent years many have begun to claim that globalization has stalled that we are rather dealing with the process of anti globalization will not we find ourselves at some point again in an edifice spanning across the globe but divided into national apartments separated by walls of high tariffs and mutual suspicion of course some setbacks are always possible because the process of globalization cannot develop smoothly it is a process which is itself emerging from contradictions and is shaped by a new contradiction they often go much further than underlying systemic changes allow they break forward as the vanguard of a victorious army and then often meet resistance of various social and political forces and may suddenly start to roll back just at the moment when everyone expects their further offensive we believe that this is what is happening with globalization at present the yearbook will be interesting to a wide range of researchers teachers students and all those who are concerned about global issues

International Relations from the Global South 2020-05-21 this exciting new textbook challenges the implicit notions inherent in most existing international relations ir scholarship and instead presents the subject as seen from different vantage points in the global south divided into four sections 1 the ir discipline 2 key concepts and categories 3 global issues and 4 ir futures it examines the ways in which world politics have been addressed by traditional core approaches and explores the limitations of these treatments for understanding both southern and northern experiences of the international the book encourages readers to consider how key ideas have been developed in the discipline and through systematic interventions by contributors from around the globe aims at both transforming and enriching the dominant terms of scholarly debate this empowering critical and reflexive tool for thinking about the diversity of experiences of international relations and for placing them front and center in the classroom will help professors and students in both the global north and the global south envision the world differently in addition to general introductory ir courses at both the undergraduate and graduate levels it will appeal to courses on sociology and historiography of knowledge globalization neoliberalism security the state imperialism and international political

economy

Globalization: Perak's Rise, Relative Decline, and Regeneration 2024-03-21 written by sultan nazrin shah the author of the highly acclaimed works charting the economy and striving for inclusive development this book is a pioneering study of the many economic and social changes in the natural resource rich malaysian state of perak over the last two centuries when globalization first took hold and international trade networks broadened and deepened in the first half of the 19th century and a new capitalist world order emerged in the second perak was a key player its tin was in high demand in western industrializing countries and foreign capital labour and technology propelled it forward by 1900 perak accounted for almost half of malaya s tin output and a staggering quarter of world output with its prosperity making it the malay peninsula s commercial hub likewise during the global rubber boom that began in the early 20th century as cars were mass produced for the first time perak was the largest rubber producing state in the peninsula this book brings together a range of key sub themes economic geography the institutional legacy of colonialism increasing federal government centralization forces of economic agglomeration and human migration which drove perak s fortunes in sometimes dramatic economic cycles and ultimately led to the collapse of its tin and rubber industries and the migration of many of its young and skilled the book concludes by looking forward analysing perak s characteristics and extrapolating lessons from formerly wealthy industrial centres originally blessed with natural resources but subsequently left behind by new waves of globalization such as cornwall and sheffield in the united kingdom and pittsburgh and scranton in the united states with a new vision perak can regenerate itself and once again emerge triumphant against a tough global background covid 19 war and deglobalization

Globalization, 3rd Edition 2008-01-01 this fully revised textbook focuses on the major topics of globalization

Globalization and the Third World 2006-05-26 the impact of globalization on the world s developing economies is not conclusive studies show conflicting conclusions to the same problems in the context of globalization in developing countries it is this analytical inconclusiveness that is at the heart of this collection which makes a fresh attempt to study the real impact of globalization

Globalization and Internationalization in Higher Education 2012-11-06 universities all over the world are increasingly recognising the challenges of globalization and the pressures towards internationalization this collection draws together a wealth of international experience to explore the emerging patterns of strategy and practice in internationalizing higher education questions considered include how is the concept of globalization in the context of higher education understood by those who lead universities across the world what new challenges are being created as universities seek to become more international which forms of leadership are needed and will be needed in the future in these transforming institutions and how are they going about preparing for and achieving this

Globalization and Labour in the Asia Pacific Region 2000 this study looks at the challenges of globalization and deregulation and possible responses to them in a variety of ways

Youth Success and Adaptation in Times of Globalization and Economic Change 2012-10-26 today s youth is confronted not only with the developmental tasks of adolescence but also with substantial social and economic changes on the macro level originating from globalization and economic volatility presenting research on the implications of social and economic changes for today s youth this volume covers important topics adolescents future perspectives the competencies they need to prosper in specific cultures changes related to family and school gender differences in economic roles within changing societies the effects of technological progress on their lives the way in which they cope with biographical transitions in flexible markets issues of health and resilience the articles provide valuable suggestions about what is being done and can be done with regard to individuals or particular groups of youth especially concerning the application of research findings to interventions this is the 135th volume of new directions for youth development the jossey bass quarterly report series dedicated to bringing together everyone

concerned with helping young people including scholars practitioners and people from different disciplines and professions

Globalization and Competition 2009-12-21 globalization and competition explains why some middle income countries principally those in asia grow fast while others are not successful the author criticizes both old style developmentalism and the economics of the washington consensus he argues instead for a new developmentalism or third approach that builds on a national development strategy this approach differs from the neoliberal strategy that rich nations propose to emerging economies principally on macroeconomic grounds developing countries face a key obstacle to growth namely the tendency to overvalue foreign exchange instead of neutralizing it the policy that rich countries promote mistakenly seeks growth through foreign savings which causes additional appreciation of the national currency and often results in financial crises rather than genuine investment
