Travels Through England, Wales, & Scotland, in the Year 1816

1820

the transition of british secondary schools from predominantly selective to predominantly comprehensive was meant to transform a highly stratified system into a more equal one however this study shows that the new system was in fact highly diverse and retained features of the selective system

The Prehistoric Chamber Tombs of England and Wales

2013-03-28

this book sets out to study the behaviour and influence of one of the most important social groups in early modern england and wales the gentry although their power and wealth has been the subject of lively historiographical debate for the last fifty years there has been no sustained attempt to integrate and evaluate the available evidence on this section of the elite lawrence stone s magisterial the crisis of the aristocracy 1558 1641 published in 1965 offered a full analysis of the titled nobility of those non nobles most closely tied to the aristocracy by blood and wealth the present book moves further down the social scale considering those whom contemporaries sometimes called the lesser nobility the landed classes without claim to title and those below them who struggled to establish a right to be called gentlemen it is possible to attempt some quantitative analysis of the size of the gentry group and even of its aggregate wealth and landholding issues to which the rise of the gentry debate accorded much attention but the present volume adopts instead an ethnographic approach in order to understand what it was to be a gentleman in early modern england what contemporaries believed to be the essence of gentility and what mode of life had to be adopted in order to justify claims to status and power wealth and political influence are given full attention but so are attitudes to family and lineage to education learning and social behaviour and also since the period 1500 1700 was one of religious upheaval to belief and relations with the church case studies and artefacts are used as essential texts to explicate social values and action

An Outline of Local Government and Local Taxation in England and Wales (excluding London)

1894

in this chronological selection of 32 of the most notable houses in england and wales hugh montgomery massingberd and christopher simon sykes present a stunning visual history of the evolution of the great house including castle howard chatsworth and highclere castle familiar to television viewers as downton abbey it is also a history of great families seen as part of the houses they created where their descendants in many cases still live today full of memorable characters and anecdotal insight this book is a glorious tribute to what evelyn waugh called our chief national artistic achievement the original photographs show the unexpected as well as the familiar the private rooms and the servants quarters as well as the grand exteriors and state rooms the gardens and noble landscapes they include some of the most splendid examples of english art and architecture illustrating the work of inigo jones john vanbrugh thomas chippendale robert adam and lancelet capability brown
