a culture and language learning program its purpose is to equip people to communicate fluently and at a deep level in cross cultural situations

Better Your Communication Skills 2024-06-01

the discipline of communication has grown in popularity from the time professors of journalism and speech decided in the mid 1960s that the term communication was an excellent general descriptor for the theory and research that each group aspired to create over time the two groups grew closer and recognized significant overlap in their theoretical and research interests but there were also differences in their traditions that kept them apart while both groups agreed that communication is a practical discipline journalism professors focused a great deal of their attention on the education of media professionals speech professors on the other hand often were more oriented to the liberal arts and valued the fact that communication could be approached from a variety of traditions including the arts humanities social sciences and even the sciences a key term in 21st century communication however is convergence not only are media and technology converging with each other to produce new means of communicating but individuals are increasingly using both new and existing communication tools to create new forms of communication this convergence forces the various camps within the communication discipline to draw upon each other s theories and research methods to keep up with explaining the rapidly changing communication environment this convergence of ideas and theories provides a space to challenge conventional ways of thinking about the communication discipline and that s the goal of the sage 21st century reference series volumes on communication general editor william f eadie has sought to honor the diversity of the study of communication but also integrate that diversity into a coherent form dividing communication study into four basic properties 1 processes 2 forms and types of communication 3 characteristics to

consider in creating messages and 4 relationships between communicators via 100 chapters this 2 volume set available in both print and electronic formats highlights the most important topics issues questions and debates any student obtaining a degree in the field of communication ought to have mastered for effectiveness in the 21st century the purpose is to provide undergraduate majors with an authoritative reference source that will serve their research needs going forward in this exciting field with more detailed information than encyclopedia entries but not as much jargon detail or density as a journal article or a research handbook chapter comprehensive coverage captures all the major themes and subfields within communication for instance volume 1 themes include the discipline of communication approaches to the study of communication key processes of communication forms and types of communication key characteristics of messages key communication relationships factors affecting communication and challenges and opportunities for communication themes in volume 2 are media as communication communication as a profession journalism public relations advertising and media management authoritative content is provided by a stellar casts of authors who bring diverse approaches diverse styles and different points of view curricular driven emphasis provides students with initial footholds on topics of interest in researching for term papers in preparing for gres in consulting to determine directions to take in pursuing a senior thesis graduate degree career etc uniform chapter structures make it easy for students to locate key information with a more or less common chapter format of introduction theory methods applications comparisons future directions summary bibliography suggestions for further reading and cross references availability in print and electronic formats provides students with convenient easy access

Constructing a Language 2009-06-30

this text explores the nature of language and the nature of the english language particularly its grammar and meaning the study of language is presented as an ongoing process of analysis and discovery to provide future teachers with the critical skills necessary for linguistic analysis the coverage of grammar synthesizes traditional grammar with modern linguistic approaches and insights and incorporates exercises throughout along with chapter outlines work examples and chapter summaries the text discusses linguistic variation and relates important issues raised concerning the values and attitudes associated with social ethnic and gender varieties to education it also covers both tree diagramming and reed kellogg systems

Becoming Equipped to Communicate 2015-07-02

Nonviolent Communication Companion Workbook 2003

lingua francas are languages used for communication between individuals for whom they are not the first language based on empirical work throughout the individual contributions to this volume address lingua franca communication from sociolinguistic as well as from conversation analytic perspectives or place this form of communication within the wider context of foreign language teaching the volume as a whole attempts to broaden the traditional view of lingua francas as languages employed by non native speakers to serve specific restricted communicative purposes only instead it is demonstrated that lingua francas have gained a number of varied functions and that they are employed by a heterogeneous group of speakers for whom they do not always have the same status of a second or foreign language the papers reveal intriguing similarities in form across different lingua francas but also point at significant differences as a result it is proposed that approaches to teach lingua francas as such need to be developed on the basis of empirical evidence contents c meierkord k knapp approaching lingua franca communication m meeuwiz the sociolinguistics of lingala as a diaspora lingua franca historical and language ideological aspects s fiedler on the main characteristics of esperanto communication m vollstedt english as a language for internal company communications c meierkord language stripped bare or linguistic masala culture in lingua franca communication p haegeman foreigner talk in lingua franca business telephone calls a lesznych from chaos to smallest common denominator topic management in english lingua franca communication j hee bae discourse strategies solving trouble in german lingua franca communication k knapp the fading out of the non native speaker native speaker dominance in lingua franca situations j house developing pragmatic competence in english as a lingua franca b seidlhofer the shape of things to come some basic question about english as a lingua franca

Pragmatics of Human Communication: A Study of Interactional Patterns, Pathologies and Paradoxes 2011-04-25

this offers a framework for thinking about technologies that allow online communication for example forums chats real time platforms as well as virtual worlds and mobile devices and the practical issues of using them the authors offer a thorough appraisal of the potential benefits and challenges of learning and teaching a language online

Lingua Franca Communication 2002-01

context is what contributes to interpret a communicative act beyond the spoken words it provides information essential to clarify the intentions of a speaker and thus to identify the actual meaning of an utterance a large amount of research in pragmatics has shown how wide ranging and multifaceted this concept can be context spans from the preceding words in a conversation to the general knowledge that the interlocutors supposedly share from the perceived environment to features and traits that the participants in a dialogue attribute to each other this last category is also very broad since it includes mental and emotional states together with culturally constructed knowledge such as the reciprocal identification of social roles and positions the assumption of a cognitive point of view brings to the foreground a number of new questions regarding how information about the context is organized in the mind and how this kind of knowledge is used in specific communicative situations a related very important question concerns the role played in this process by theory of mind abilities tom both in typical and atypical populations in this research topic we bring together articles that address different aspects of context analysis from theoretical and empirical perspectives integrating knowledge and methods derived from philosophy of language linguistics cognitive science cognitive neuroscience developmental and clinical psychology

Communication Skills 2021-01-01
