layout an electric vehicle ev is one that is powered by an electric motor rather than an internal combustion engine that burns
a mixture of gasoline and gases to generate power as a result such a vehicle is being considered as a potential replacement
for current generation automobiles in order to solve issues such as a growing pollution b global warming c natural resource
depletion and so on despite the fact that the concept of electric vehicles has been around for a long time it has garnered a lot
of attention in the last decade as a result of the rising carbon footprint and other environmental implications of gasoline
powered vehicles the global electric vehicle market is expected to increase at a cagr of 21 7 percent increased government
investments in the development of electric vehicle charging stations and hydrogen fuelling stations as well as buyer
incentives will provide chances for oems to increase their revenue stream and regional footprint the ev market in asia pacific
is expected to develop steadily due to increasing demand for low cost low emission vehicles whereas the market in north
america and europe is expected to rise quickly due to government initiatives and the growing high performance passenger
vehicle segment india s flagship plan for boosting electric mobility is fame or faster adoption and manufacturing of hybrid
and electric vehicles fame scheme has been authorized by the government with 86 percent of overall budgetary support has
