commercial stations often a prelude to larger success four guitars more or less is part memoir and part exposition of the modern handmade acoustic guitar like so many baby boomers the author took up playing the guitar again after several decades only to discover the instrument all over again but with a deeper and richer appreciation than in his youth this book chronicles the relearning to play music but really discovering the guitar for the first time in searching for the variations in guitars caused by different combinations of musical woods the author embarks on a series of guitar tastings among guitar players that reveal more than expected the lessons learned go beyond the melody and tempo lessons to more subtle appreciation of the relationships between players and their instruments the beauty and character of hand crafted instruments and the luthiers that build them in the end the book is an appreciation of the guitar in general and the relationship with four guitars more or less in particular mammalian vocal duets and turn taking exchanges long coordinated acoustic signals exchanged between two individuals are primarily found in family living pair bonded mammals with a socially monogamous lifestyle some rodents some lemurs tarsiers titi monkeys a mentawai langur gibbons and siamangs duetting and turn taking patterns combine visual chemical tactile and auditory cues to produce some of the most exuberant displays in the realm of animal communication how and why such phenotypes evolved independently across main lineages are fundamental questions at the core of the nature nurture debate duetting styles ranging from antiphonal non overlapping to simultaneous overlapping emissions have now been documented in various taxa some of which are quite reminiscent of turn taking rules in human conversation nonetheless much remains to be learned about this complex motor skill and at all four

levels of analysis namely 1 developmental processes 2 causal mechanisms 3 functional properties and 4 evolutionary history given the strong link between this form of coordinated singing and pair bonding gaining a deeper understanding of this kind of cooperative behavior will likely shed more light on the deep evolutionary roots of human culture language and music from the concert stage to the
