**Properties and Performance of Natural-Fibre Composites** 2008-06-23 concern about global warming has led to renewed interest in the more sustainable use of natural fibres in composite materials this important book reviews the wealth of recent research into improving the mechanical properties of natural fibre thermoplastic composites so that they can be more widely used the first part of the book provides an overview of the main types of natural fibres used in composites how they are processed and in particular the way the fibre matrix interface can be engineered to improve performance part two discusses the increasing use of natural fibre composites in such areas as automotive and structural engineering packaging and the energy sector the final part of the book discusses ways of assessing the mechanical performance of natural fibre composites with its distinguished editor and team of contributors properties and performance of natural fibre composites is a valuable reference for all those using these important materials in such areas as automotive and structural engineering provides an overview of the types of natural fibres used in composites discusses fibre matrix interface and how it can be engineered to improve performance examines the increasing use of natural fibre composites in automotive and structural engineering and the packaging and energy sector

**Movement and Performance in Berlin School Cinema** 2019-02-08 a rich and welcome addition to the surge of scholarly interest in the berlin school studies in european cinema through a study of the contemporary german film movement the berlin school olivia landry examines how narrative film has responded to our highly digitalized and mediatized age not with a focus on stasis and realism but by turning back to movement spectacle and performance she argues that a preoccupation with presence liveness and affect all of which are viewed as critical components of live performance can be found in many of the films of the berlin school challenging the perception that the berlin school is a sheer adherent of slow cinema landry closely analyzes the use of movement dynamism presence and speed in a broad selection of films to show how filmmakers such as christian petzold angela schanelec thomas arslan and christoph hochhäusler invoke the pulse of the kinesthetic and the tangibly affective her analysis draws on an array of film theories from early materialism to body theories phenomenology and contemporary affect theories arguing that these theories readily and energetically forge a path from film to performance landry traces a trajectory between the two through which live experience presence spectacle intersubjectivity and the body in motion emerge and powerfully intersect ultimately movement and performance in berlin school cinema expands the methodological and disciplinary boundaries of film studies by offering new ways of articulating and understanding movement in cinema

*An Evaluation of Pay and Performance - A Case Study of Mauritius* 2021-03-22 theatre and performance in east africa looks at indigenous performances to unearth the aesthetic principles sensibilities and critical framework that underpin african performance and theatre the book develops new paradigms for thinking about african performance in general through the construction of a critical framework that addresses questions concerning performance particularities and coherences challenging previous understandings to this end it establishes a common critical and theoretical framework for indigenous performance using case studies from east africa that are also reflected elsewhere in the continent this book will be of great interest to students and scholars of theatre and performance especially those with an interest in the close relationship between theatre and performance with culture

**Theatre and Performance in East Africa** 2018-09-15 this advanced level core textbook examines the role that hr managers play in developing processes and practices for high performance organisations it is built around a unique conceptual framework that provides a clear and coherent structure for the book underpinned by recent research in the field and the author s academic expertise the book provides an historical overview of the development of strategic hr as a field of study before bringing the discussion up to date by examining contemporary topics such as sustainable hr and high performance work systems the book extends the focus beyond the firm to include discussions about the role of multiple stakeholders such as trade unions and governments to encourage a deeper understanding of the role of national institutional and cultural issues as well as other external influences this is an essential text for postgraduate and mba students studying modules on strategic hr advanced hr or hr and performance management it is also an ideal companion for final year undergraduate modules on specialist hr degree programmes
