Historical Dictionary of Australian Aborigines 2019-11-05 the aboriginal australians first arrived on the continent at least 60 000 years ago occupying and adapting to a range of environmental conditions from tropical estuarine habitats densely forested regions open plains and arid desert country to cold mountainous and often wet and snowy high country cultures adapted according to the different conditions and adapted again to environmental changes brought about by rising sea levels at the end of the last ice age european colonization of the island continent in 1788 not only introduced diseases to which aborigines had no immunity but also began an enduring and at times violent conflict over land and resources reconciliation between aborigines and the settler population remains unresolved this second edition of the historical dictionary of australian aborigines contains a chronology an introduction an extensive bibliography and more than 300 cross referenced entries on the politics economy foreign relations religion and culture of the aborigines this book is an excellent resource for students researchers and anyone wanting to know more about the indigenous people of australia

The Oxford Guide to Library Research 2015-02-27 the information world has undergone drastic changes since the publication of the 3rd edition of the oxford guide to library research in 2005 and thomas mann a veteran reference librarian at the library of congress has extensively revised his text to reflect those changes this book will answer two basic questions first what is the extent of the significant research resources you will miss if you confine your research entirely or even primarily to sources available on the open internet second if you are trying to get a reasonably good overview of the literature on a particular topic rather than just something quickly on it what are the several alternative methods of subject searching which are not available on the that are usually much more efficient for that purpose than typing keywords into a blank search box with the results displayed by relevance ranking computer algorithms this book shows researchers how to do comprehensive research on any topic it explains the variety of search mechanisms available so that the researcher can have the reasonable confidence that s he has not overlooked something important this includes not just lists of resources but discussions of the ways to search within them how to find the best search terms how to combine the terms and how to make the databases and other sources show relevant material even when you don t know how to specify the best search terms in advance the book s overall structuring by nine methods of searching that are applicable in any subject area rather than by subjects or by types of literature is unique among guides to research also unique is the range and variety of concrete examples of what to do and of what not to do the book is not about the internet it is about the best alternatives to the internet the sources that are not on the open to begin with that can be found only through research libraries and that are more than ever necessary for any kind of substantive scholarly research more than any other research guide available this book directly addresses and provides solutions to the serious problems outlined in recent studies documenting the profound lack of research skills possessed by today s digital natives

Shell Shocked 2009-12-03 as the world picks itself off the mat and begins to grow again a bull market in all things canadian is about to wash up on our shores a wave of unprecedented prosperity is about to occur one that will transform the fortunes of canadian investors who understand how the world has dramatically shifted and why canada will be the biggest beneficiary high technology companies banking residential real estate and of course our much maligned resource sector will all be front and centre in this rising wave of prosperity driven not by america but by asia shell shocked turns the conventional investment wisdom on its head by providing compelling evidence that buying all things canadian is a savvy bet not a foolhardy gamble best yet the global economic collapse has offered canadian investors a once in a lifetime opportunity to prosper while investing right here at home rich in detailed fact based analysis shell shocked explains what to buy and when to buy it the world has changed and so has investing shell shocked is your blueprint for investing success written by bay street veteran john stephenson shell shocked pinpoints the links that have brought the world to the brink of economic collapse and describes how canadians stand to prosper after the crisis

Taxing Global Digital Commerce 2019-11-07 digital commerce the use of computer networks to facilitate transactions involving the

production distribution sale and delivery of goods and services has grown from merely streamlining relations between consumer and business to a much more robust phenomenon embracing efficient business processes within a firm and between firms inevitably the related taxation issues have grown as well this latest edition of the preeminent text on the taxation of digital transactions revises updates and expands the book's coverage it includes a detailed and up to date analysis of income tax and vat developments regarding digital commerce under the oecd and g20 base erosion and profit shifting beps reforms it explores the implications of digital commerce for us state sales and use tax regimes resulting from the 2018 us supreme court decision in wayfair it discusses cross border tax in the united states while continuing to focus on tax developments throughout the world analysing the practical tax consequences of digital commerce from a multijurisdictional perspective and using examples to illustrate the application of different taxes to digital commerce transactions the book offers in depth treatment of such topics as the following how tax rules governing cross border digital commerce are increasingly applied to all cross border activities how tax rules and institutional processes have evolved to confront challenges posed by digital commerce how an emerging tax war is developing whereby different countries are unilaterally imposing new tax rules on cross border digital commerce how technology enhances tax and cross border tax information exchanges how technology reduces both compliance and enforcement costs cross border consumption tax issues raised by cloud computing and different approaches to the legal design of vat place of taxation rules the authors offer insightful views on the likely development of new approaches to taxing cross border digital commerce this edition while building on the analysis of the relationship between traditional tax laws and the internet in the first edition and its predecessors contains a more explicit and systematic consideration of digital commerce issues and the ongoing policy responses to them tax professionals and academics everywhere will welcome the important contribution it makes towards the design of cross border tax rules that are both conceptually sound and practical in application a tour de force much larger and richer than its predecessors a massive contribution to the growing literature on the taxation of e commerce rita de la feria british tax review provides important understandings for ongoing policy discussions i would warmly recommend p rendahl world journal of vat gst law

Critical Legal Education as a Subversive Activity 2015-10-16 in an age when everyone aspires to teach critical thinking skills in the classroom what does it mean to be a subversive law teacher who or what might a subversive law teacher seek to subvert the authority of the law the university their own authority as teachers perhaps are law students ripe for subversion agents of or impediments to subversion do they learn to ask critical questions responding to the provocation in the classic book teaching as a subversive activity by postman and weingartner the idea that teaching could or even should be subversive still holds true today and its premise is particularly relevant in the context of legal education we therefore draw on this classic book to discuss in the present volume the consideration of research into legal education as lifetime learning as creating meaning as transformative and as developing world changing thinking within the legal context the volume offers research into classroom experiences and theoretical and historical interrogations of what it means to teach law subversively primarily aimed at legal educators and doctoral students in law planning careers as academics its insights speak directly to tensions in higher education more broadly
