A View of the Evidences of Christianity at the Close of the Pretended Age of Reason

2019

comparative politics has undergone significant theoretical changes in recent decades particularly since the 1980s a new generation of scholars have revamped and rejuvenated the study of the subject mehran kamrava examines current and past approaches to the study of comparative politics and proposes a new framework for analysis this is achieved through a comparative examination of state and social institutions the interactions that occur between them and the political cultures within which they operate the book also offers a concise and detailed synthesis of existing comparative frameworks that up to now at least have encountered analytical shortcomings on their own although analytically different in its arguments and emphasis from the current mainstream genre of literature on comparative politics the present study is a logical outgrowth of the scholarly works of the last decade or so it will be essential reading for all students of comparative politics

Federal Constitutional Law

1751

this book offers a critical and timely account of how labour law has become a means for protecting employers rather than workers the past few decades have witnessed something of a silent revolution in the traditional protective role that labour law has played in the lives of workers while this transformation has been overt in the realm of the market and at the level of the legislature the role of the judiciary in this process remains significantly understudied focussing on australia but drawing also on material from new zealand the uk and canada this book investigates how the common law has intervened to shape labour law in the image of commercial contract determining disputes and defining legal issues by ignoring the realities of working life under this new conception of labour law industrial relations between workers and employers are rarely reciprocal or relational rather they are determined by the legal meaning and purpose of the contract of employment drafted by lawyers for the benefit of employers and their human resources departments having demonstrated how approaches to contractual formalist legal reasoning have redefined labour law this book goes on to propose an array of innovative legal and policy strategies to restore the protective role of labour law to the employment relationship scholarly but also accessible to students this book will appeal to those with interests in labour law contract law and sociolegal studies

A short view of the whole Scripture history

1832

friends lovers co workers and community analyzes how television narratives form the first decade of the twenty first century are powerful socializing agents which both define and limit the types of acceptable interpersonal relationships between co workers friends romantic partners family members communities and nations this book is written by a diverse group of scholars who used a variety of methodological and theoretical approaches to interrogate the ways through which television molds our vision of ourselves as individuals ourselves as in relationships with others and ourselves as a part of the world this book will appeal to scholars of communication studies cultural studies media studies and popular culture studies
