one continuous experience learn more resource added for the business management program 101023 law and society today is a problem oriented survey of sociolegal studies with a unique emphasis on recent historical and political developments whereas other texts focus heavily on criminal procedure this book foregrounds the significant changes of the 2000s and 2010s including neoliberalism migration multiculturalism and the large influence of law and economics in law teaching policy debates and judicial decision making each chapter presents key concepts real world applications and hypothetical problems that allow students to test comprehension with an integrated approach to theory and practice and written in an accessible tone this text helps students recognize the dynamic forces that shape the way the law is constructed and implemented particularly how law drives social inequality the principle objective of competition law is to protect the competitive process it prohibits activities such as collusive agreements to fix prices or outputs abuse of dominance or monopolization and anti competitive mergers around the world as an increasing number of countries move toward economic liberalization there is renewed interest in adopting or modernizing competition laws India too has taken significant steps away from its post independence system of governmental controls and protective regimes the competition act 2002 is on the statute books and is likely to be fully operational within a short period this unparalleled volume with contributions from eminent international as well as Indian specialists offers a comprehensive survey and analysis of key concepts and issues in competition law equally importantly it contains the essence of the experience of the law in practice in major developed and developing countries experts from the respective jurisdictions have written on competition law in Australia the European Community Germany the UK the USA Korea Mexico and South Africa this book is particularly relevant for countries such as India which may be said to have a weak competition culture and where the need to build a knowledge base is indisputable the final part of the book is devoted to the evolution of competition law in India particularly the provisions of the 2002 statute throughout the book highlights the economic context of this law the role of economic analysis in determining competition cases readers discover the excitement of cutting edge business law as business law today comprehensive 11e immerses learners in a wide selection of intriguing new cases and thorough coverage that reflects the latest developments in the field this successful edition makes the study of business law appealing and relevant without sacrificing the legal credibility and comprehensive coverage each chapter's visually engaging time tested learning tools illustrate how law is applied to real world business problems excerpted cases in the language of the court familiarize readers with legal language while emphasizing the relevance of case decisions readers see how landmark cases statutes and other laws significantly impact the way businesses today operate both within the United States and across the globe important notice media content referenced within the product description or the product text may not be available in the ebook version this book discusses the relation between morality and politics and morality and law a field that has been studied for more than two thousand years the law is a part of human culture and this touches upon a dynamic reality that is connected to the relation between nature and freedom nature and culture if such relations are not clearly understood as is the case today the relation between morality and law cannot be properly comprehended either the relationship between morality and criminal law must constantly evolve to meet the needs of changing times and circumstances social changes and new situations require new answers and since the relationship involves criminal law legal philosophy and legal history interdisciplinary approaches are always needed featuring fifteen original contributions by legal scholars from various European and American universities the book does not pretend to solve the complexity of the relation between morality and criminal law but instead expresses criticism offers some proposals and stimulates further thought the book tackles the topic from an interdisciplinary perspective criminal law constitutional law legal philosophy and legal history among others as such it appeals not only to scholars and students but also to lawyers policymakers historians theologians philosophers and general readers who are interested in the legal social political and philosophical issues of our time this study guide provides a chapter by chapter review of business law today the chapter by chapter review offers the following for each chapter of the text key point covered in each chapter brief chapter introduction chapter outline true false questions fill in questions multiple choice questions short essay problems issue spotters answers to all of the questions and issue spotters are found in a separate appendix at the end of the study guide a section entitled uniform CPA business law examination information political and military leaders invariably seek the advice of their own international law experts as they engage in foreign policy interactions and bargaining over vital issues of international concern such as nuclear proliferation bringing war criminals to justice the use of torture the war on terrorism human rights global warming environmental degradation and the future of the nation state itself these are among the headline topics explored in international law today the essays in this handbook offer a window onto the world of international discourse they are written by scholar practitioners of international law who were selected not only for their acclaimed expertise but also for the clarity and accessibility of their writing written generations years ago but highly relevant today the Bramble Bush remains one of the books most recommended for students to read

when considering law school just before beginning its study or early in the first semester its first edition began as a collection from a series of introductory lectures given by legal legend karl llewellyn to new law students at columbia university it still speaks to law legal reasoning and exam taking skills in a way that makes it a classic for each new generation the quid pro legal legends edition includes an extensive modern introduction by stewart macaulay senior law professor at the university of wisconsin madison macaulay updates the current reader on the book s continued relevance and application offers a practical perspective to new law students and places the original edition in its historical context simply put macaulay writes this is a book that anyone interested in law schools or law should read the quid pro books edition of the classic work also includes several unobtrusive annotations to update the reader on legal terms and cultural references made in the original that may not be clear to today s reader moreover this is a carefully proofread and presented edition lacking the errors and scanning mistakes of other presses editions in print it is also available in ebook and paperback formats from quid pro including the annotations and modern introduction by prof macaulay this new 2021 hardback presentation is the highest quality and newest edition available perfect for libraries and college graduation gifting

essay from the year 2017 in the subject law philosophy history and sociology of law grade a atlantic international university school of business and economics course international relations language english abstract this essay takes a closer look on the relationship between law and society law and society emerge from the belief that legal regulations and decisions must be understood in its context both law and society have a common understanding they are never autonomous in their context in other words law is deeply embedded within a society it therefore implies that law is socially and historically constructed in order to become legally recognized procedures and institutions and besides that law needs a society for its effectiveness and usefulness this essay is meant to focus on the history of law and society on the relationship of law and society and on the different branches of law in the society together with its associates which leads to highlight the key characteristics of law and society perspectives with reference to other research contributions of the same field that hold promise for scholars of law and politics excerpt from legal history law and social change the nonprofessional study of law as a basic element in both liberal and business or technical education is today the subject of keen interest and a focal point of widening intellectual horizons the fact that our legal institutions open avenues to the deeper understanding of our culture our history our polity and our economy is increasingly appreciated while it remains generally accepted that basic analysis of the methods and substance of the common law is an essential element in technical training for business the foundations of law in a business society series offers a one foot shelf of short convenient inexpensive and authoritative books written by scholars eminent in their respective fields systematically covering the subjects of primary interest to all nonprofessional students of the law both in the liberal and in the technical fields many of the titles will be useful also to law students professional administrators and general readers from the teacher s viewpoint the essence of the series is flexibility and freedom of choice no longer must courses be built around the limited content or restricted approach of a single text no longer must subjects be presented in fixed order no longer must the experimentally minded teacher struggle to develop course materials from scattered sources now it is practical and convenient to offer a course specifically designed for given interests and aptitudes without loss of the unity and scope of a conventional textbook various teaching methods and conceptual orientations are provided for both text and case materials are included and the latest doctrinal developments and statutory codifications are fully reflected in the several titles each of which is complete in itself yet an integral part of a carefully planned structure the foundations of law in a business society series covers the legal process the history and philosophy of law and the major areas of public and private law emphasizing always the role of law in contemporary society and mankind s eternal quest for justice about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works the british constitution used to be the envy of the world now there is hardly any element of it which has not come under attack in exploring why this has happened this book explains how the british constitution works today

the book analyses the founding years of consumer law and consumer policy in europe it combines two dimensions the making of national consumer law and the making of european consumer law and how both are intertwined the chapters on germany italy the nordic countries and the united kingdom serve to explain the economic and the political background which led to different legal and policy approaches in the then old member states from the 1960s onwards the chapter on poland adds a different layer the one of a former socialist country with its own consumer law and how joining the eu affected consumer law at the national level the making of european consumer law started in the 1970s rather cautiously but gradually the european commission took an ever stronger position in promoting not only european consumer law but also in supporting the building of the european consumer organisation beuc the umbrella organisation of the national consumer bodies the book unites the early protagonists who were involved in the making of consumer law in europe guido alpa ludwig krämer ewa letowska hans w micklitz klaus tonner iain ramsay and thomas wilhelmsson supported by the younger generation aneta wiewiórowska domagalska mateusz grochowski and koen docter who reconstructs the history of beuc niklas olsen and thomas roethe analyse the construction of this policy field from a historical and sociological perspective this book offers a unique opportunity to understand a legal and political field that of consumer law and policy which plays a fundamental role in our contemporary societies

this book provides an ideal starting point for students of philosophy and law setting it clearly against the historical background the author leads readers into the heart of the philosophical questions that dominate philosophy of law today and provides an overview of the contending theories that have sought to resolve these problems the book is structured in three parts around the key issues and themes in philosophy of law what is the law the major legal theories addressing the question of what we mean by law including natural law legal positivism and legal realism the reach of the law the various legal theories on the nature and extent of the law s authority with regard to obligation and civil disobedience rights liberty and privacy and criminal law responsibility and mens rea intention recklessness and murder legal defences insanity and philosophies of punishment revisions include a more detailed analysis of natural law new chapters on common law and the development of positivism a reassessment of the austin hart dispute in the light of recent criticism of hart a new chapter on the natural law positivist controversy over nazi law and legality and new chapters on criminal law extending the analysis of the dispute over the viability of the defences of necessity and duress the book explores a variety of problems connected to philosophy and philosophy of law it discusses the problem of monism pluralism in philosophy and philosophy of law criticizes philosophy of post positivism and postmodernism and investigates dialectics as a universal global methodological basis of scientific cognition and philosophy of law the volume also pays particular attention to contemporary legal education offering potential solutions to problems in this field the book is the result of a range of sociological studies conducted both in russia and abroad concerning the legal process and legal consciousness just how tough are the country s most prestigious law schools most alumni would answer with stories of humiliating socratic dialogue failures in the classroom and all night caffeine fueled cram sessions until now the traditional concept of the law school experience was the one presented in scott turow s one l published in 1977 a dark description of his first year at harvard law school twenty four years later

things have definitely changed turow s book became the accepted primer and warning for aspiring law students giving them a glimpse of what awaited grueling nonstop study brutally competitive classes endless research and unfathomable terminology it described a draconian prison and endless work in the company of equally obsessive desperate fellow students yet sidestepping terror and intimidation law students and new authors robert byrnes and jaimé marquart entered highly prestigious law schools did things their own way earned law degrees and were hired by a los angeles law firm turning turow s vision upside down in their parallel narratives two twisted hilarious blighted and glorious coming of age stories byrnes and marquart explain how they managed to graduate while spending most of their time in the pursuit of pleasure byrnes went to stanford to reinvent himself after a false start in politics he wanted to explore the life of the mind it took him virtually no time to discover that the law was neither particularly intriguing nor particularly challenging he could play around the clock when byrnes wasn t biking he was getting drunk and smoking crack finding himself when he discovered the right woman byrnes finally moved to los angeles during his third year and flew upstate only to take final exams born and raised in a small town in texas marquart had never lived outside the state before arriving at harvard amazed at his own good luck he approached school with all due diligence disenchantment followed shortly thereafter and marquart learned he needn t be intimidated by his classmates and teachers with a mysterious and bizarre companion another student called the kankooos jaimé took up traveling but devoted most of his energy and considerable money to gambling counting cards in casinos around the country irreverent funny and downright shocking brush with the law will inspire undergraduates to bone up for the entrance exam while outraging lawyers and the admissions officers of their beloved alma maters upon realizing how easy it was to get good grades jaimé relates i approached my second year with one goal take classes that required the least amount of work and the least amount of attendance to accomplish my goal i devised the system a short instruction manual on the principles behind selecting and ditching law school classes the system s goal was to screw off as much as possible with few if any consequences from brush with the law this collection of essays is based upon the presentations given at a symposium on the occasion of the 65th birthday of professor rüdiger wolfrum in december 2006 the contributions cover a wide range of contemporary issues of international law including state responsibility crisis management unity of law deep sea genetic resources liability for environmental damage in antarctica human rights and intellectual property and the protection of minorities from ancient mesopotamia to today the epic story of how humans have used laws to forge civilizations rulers throughout history have used laws to impose order but laws were not simply instruments of power and social control they also offered ordinary people a way to express their diverse visions for a better world in the rule of laws oxford scholar fernanda pirie traces the rise and fall of the sophisticated legal systems underpinning ancient empires and religious traditions while also showing how common people tribal assemblies merchants farmers called on laws to define their communities regulate trade and build civilizations although legal principles originating in western europe now seem to dominate the globe the variety of the world s laws has long been almost as great as the variety of its societies what truly unites human beings pirie argues is our very faith that laws can produce justice combat oppression and create order from chaos interesting clear and applied business law today standard edition is the ideal guide to the law and what it means in the business world from contracts and secured transactions to warranties and government regulations easy to understand with an engaging writing style that is matched by vibrant visuals business law today includes coverage of contemporary topics that impact not only the business world but your life from the financial crisis and its impact on business law to identity theft immigration law and diversity issues important notice media content referenced within the product description or the product text may not be available in the ebook version until now there has been no summary or overview of the wide range of work contributing to critical legal studies the movement that has aroused such a furor in the communities of law and political philosophy this book outlines and evaluates the principal strands of critical legal studies and achieves much more as well a good deal of the writing in critical legal studies has been devoted to laying bare the contradictions in liberal thought there have been attacks and counterattacks on the liberal position and on the more conservative law and economics position now mark kelman demonstrates that any critique of law and economics is inextricably tied to a broader critique of liberalism there are three central contradictions in liberal thought between a commitment to mechanically applicable rules and to standards that fluctuate with situations between intrinsic individual values and the objective knowledge of ethical truths and between free will and determinism kelman shows us the pervasiveness of these contradictions in legal doctrine their connection to broader political theory and to visions of human nature and finally the degree to which mainstream thought tends to privilege certain of these commitments over others the author also analyzes two of the most significant components of jurisprudence today the law and economics discipline and the legal process school he concludes with a lively discussion of the role of law generally and of cognitive legitimation or the ways in which legal thought can make the unnecessary the contingent and the unjust seem natural inevitable and fair law and ethics for today s journalist offers aspiring and working journalists the practical understanding of law and ethics they must have to succeed at their craft instead of covering every nuance of media law for diverse communications majors mathewson focuses exclusively on what s relevant for journalists even though media law and media ethics are closely linked together in daily journalistic practice they are usually covered in separate volumes mathewson brings them together in a clear and colourful way that practicing journalists will find more useful everything a journalist needs to know about legal protections limitations and risks inherent in workaday reporting is illustrated with highlights from major court opinions mathewson advises journalists who must often make ethical decisions on the spot with no time for the elaborate multi faceted analysis the book assigns to journalists the hard decisions on ethical questions such as whether to go undercover or otherwise misrepresent themselves in order to get a big story the ethics chapter precedes the law chapters because ethical standards should underlie a journalist s work at all times there may be occasions when ethics and law are not parallel thus calling for the journalist to make a personal judgment law and ethics for today s journalist is user friendly written in clear direct understandable language on issues that really matter to a working journalist supplementary reading of the actual court cases is recommended and links to most cases are provided in the text the text includes a fine but purposely not exhaustive bibliography listing important and useful legal cases including instructive appellate and trial court opinions state as well as federal focus on the basics of business law principles with business law text and exercises 9e written in user friendly language each chapter concentrates on one important topic allowing readers to easily explore specific points of law and concepts the authors have taken special care to provide straightforward descriptions everyday examples and varied exercises to help readers apply what they are reading and learning to real life situations developed to provide a business law overview this edition s short concise chapters are punctuated with illustrative and timely features including highlighting the point and real case summaries each chapter s learning tools clarify contemporary legal principles in a practical presentation that ensures readers gain a solid understanding of business law important notice media content referenced within the product description or the product text may not be available in the ebook version an extensive and substantial revision nineteen new readings fresh contributions new perspectives the most widely respected philosophy of law reader in print today joel feinberg s leading anthology now featuring new co author jules coleman presents legal cases and essays written by many of the best scholars in legal philosophy effectively invigorating traditional philosophy of law themes by relating them to the real concerns of modern society this best selling collection continues to grown in popularity feinberg and coleman include an exceptional selection of relevant topics a balance of substantive positions on controversial questions and lightly edited classics while this sixth edition largely follows the fifth in its organization moving from issues of law and

liberty to justice responsibility and punishment there are many important enhancements nineteen of the book s 79 selections are new to this edition new selections include works by brian bix jules coleman and arthur ripstein susan dimock ronald dworkin joel feinstein leslie green mark kelman anthony t kronman david luban toni m massaro stephen perry plato russ shafer landau and ernest j weinrib revised section introductions enrich understanding of the readings unedited summary from book cover an account of the lawyers who helped over centuries to develop and protect civil liberties human rights and the rule of law also discusses breaches of the rule of law in modern cases and in response to terrorism in dissenting judgments in the law a team of expert contributors reassess nineteen landmark cases from different areas of the law each of which had the potential for the law to have developed in a markedly different direction the cases have been selected on account of their continued relevance to the law today or the controversial nature of the majority s decision a key feature of each case was a dissenting opinion from a judge who thought that the law should develop in a different direction the aim of the contributors is to re evaluate important cases such as yl v birmingham city council 2007 ukhl 27 scruttons ltd v midland silicones ltd 1962 ac 446 and r v hinks 2000 ukhl 53 by assessing the merits of the judgements given before deciding whether the law would in fact have been better served by following the dissenting opinion rather than that of the majority of judges in the case the judicial reasoning in each case is explored in depth and is contrasted with differing approaches in other jurisdictions where relevant a comparative analysis is employed in order to show how the law by not following the dissenting opinion has developed out of step with other common law jurisdictions each contributor then sets out what impact the dissenting judgment might have had on the law if it had decided the case and assess where the law in that particular field would be today a highly stimulating book from the foreword by lord nicholls of birkenhead a highly thought provoking book which will reach out to the law student the practitioner and the jurist for the excellence of the controversies set out phillip taylor richmond green chambers

Legal History

2015-06-02

this book provides an ideal starting point for students of philosophy and law setting it clearly against the historical background the author leads readers into the heart of the philosophical questions that dominate philosophy of law today and provides an overview of the contending theories that have sought to resolve these problems the book is structured in three parts around the key issues and themes in philosophy of law what is the law the major legal theories addressing the question of what we mean by law including natural law legal positivism and legal realism the reach of the law the various legal theories on the nature and extent of the law s authority with regard to obligation and civil disobedience rights liberty and privacy and criminal law responsibility and mens rea intention recklessness and murder legal defences insanity and philosophies of punishment revisions include a more detailed analysis of natural law new chapters on common law and the development of positivism a reassessment of the austin hart dispute in the light of recent criticism of hart a new chapter on the natural law positivist controversy over nazi law and legality and new chapters on criminal law extending the analysis of the dispute over the viability of the defences of necessity and duress

Understanding Public Law

1994

the book explores a variety of problems connected to philosophy and philosophy of law it discusses the problem of monism pluralism in philosophy and philosophy of law criticizes philosophy of post positivism and postmodernism and investigates dialectics as a universal global methodological basis of scientific cognition and philosophy of law the volume also pays particular attention to contemporary legal education offering potential solutions to problems in this field the book is the result of a range of sociological studies conducted both in russia and abroad concerning the legal process and legal consciousness

Fundamentals of Business Law

2010

just how tough are the country s most prestigious law schools most alumni would answer with stories of humiliating socratic dialogue failures in the classroom and all night caffeine fueled cram sessions until now the traditional concept of the law school experience was the one presented in scott turow s one l published in 1977 a dark description of his first year at harvard law school twenty four years later things have definitely changed turow s book became the accepted primer and warning for aspiring law students giving them a glimpse of what awaited grueling nonstop study brutally competitive classes endless research and unfathomable terminology it described a draconian prison and endless work in the company of equally obsessive desperate fellow students yet sidestepping terror and intimidation law students and new authors robert byrnes and jaime marquart entered highly prestigious law schools did things their own way earned law degrees and were hired by a los angeles law firm turning turow s vision upside down in their parallel narratives two twisted hilarious blighted and glorious coming of age stories byrnes and marquart explain how they managed to graduate while spending most of their time in the pursuit of pleasure byrnes went to stanford to reinvent himself after a false start in politics he wanted to explore the life of the mind it took him virtually no time to discover that the law was neither particularly intriguing nor particularly challenging he could play around the clock when byrnes wasn t biking he was getting drunk and smoking crack finding himself when he discovered the right woman byrnes finally moved to los angeles during his third year and flew upstate only to take final exams born and raised in a small town in texas marquart had never lived outside the state before arriving at harvard amazed at his own good luck he approached school with all due diligence disenchantment followed shortly thereafter and marquart learned he needn t be intimidated by his classmates and teachers with a mysterious and bizarre companion another student called the kankoo jaime took up traveling but devoted most of his energy and considerable money to gambling counting cards in casinos around the country irreverent funny and downright shocking brush with the law will inspire undergraduates to bone up for the entrance exam while outraging lawyers and the admissions officers of their beloved alma maters upon realizing how easy it was to get good grades jaime relates i approached my second year with one goal take classes that required the least amount of work and the least amount of attendance to accomplish my goal i devised the system a short instruction manual on the principles behind selecting and ditching law school classes the system s goal was to screw off as much as possible with few if any consequences from brush with the law

Major Legal Systems in the World Today

1968

this collection of essays is based upon the presentations given at a symposium on the occasion of the 65th birthday of professor rüdiger wolfrum in december 2006 the contributions cover a wide range of contemporary issues of international law including state responsibility crisis management unity of law deep sea genetic resources liability for environmental damage in antarctica human rights and intellectual property and the protection of minorities

The Making of Consumer Law and Policy in Europe

2021-11-04

until now there has been no summary or overview of the wide range of work contributing to critical legal studies the movement that has aroused such a furor in the communities of law and political philosophy this book outlines and evaluates the principal strands of critical legal studies and achieves much more as well a good deal of the writing in critical legal studies has been devoted to laying bare the contradictions in liberal thought there have been attacks and counterattacks on the liberal position and on the more conservative law and economics position now mark kelman demonstrates that any critique of law and economics is inextricably tied to a broader critique of liberalism there are three central contradictions in liberal thought between a commitment to mechanically applicable rules and to standards that fluctuate with situations between intrinsic individual values and the objective knowledge of ethical truths and between free will and determinism kelman shows us the pervasiveness of these contradictions in legal doctrine their connection to broader political theory and to visions of human nature and finally the degree to which mainstream thought tends to privilege certain of these commitments over others the author also analyzes two of the most significant components of jurisprudence today the law and economics discipline and the legal process school he concludes with a lively discussion of the role of law generally and of cognitive legitimation or the ways in which legal thought can make the unnecessary the contingent and the unjust seem natural inevitable and fair

law and ethics for today's journalist offers aspiring and working journalists the practical understanding of law and ethics they must have to succeed at their craft instead of covering every nuance of media law for diverse communications majors mathewson focuses exclusively on what's relevant for journalists even though media law and media ethics are closely linked together in daily journalistic practice they are usually covered in separate volumes mathewson brings them together in a clear and colourful way that practicing journalists will find more useful everything a journalist needs to know about legal protections limitations and risks inherent in workaday reporting is illustrated with highlights from major court opinions mathewson advises journalists who must often make ethical decisions on the spot with no time for the elaborate multi-faceted analysis the book assigns to journalists the hard decisions on ethical questions such as whether to go undercover or otherwise misrepresent themselves in order to get a big story the ethics chapter precedes the law chapters because ethical standards should underlie a journalist's work at all times there may be occasions when ethics and law are not parallel thus calling for the journalist to make a personal judgment law and ethics for today's journalist is user-friendly written in clear direct understandable language on issues that really matter to a working journalist supplementary reading of the actual court cases is recommended and links to most cases are provided in the text the text includes a fine but purposely not exhaustive bibliography listing important and useful legal cases including instructive appellate and trial court opinions state as well as federal

Philosophy of Law

2017-01-20

focus on the basics of business law principles with business law text and exercises 9e written in user-friendly language each chapter concentrates on one important topic allowing readers to easily explore specific points of law and concepts the authors have taken special care to provide straightforward descriptions everyday examples and varied exercises to help readers apply what they are reading and learning to real-life situations developed to provide a business law overview this edition's short concise chapters are punctuated with illustrative and timely features including highlighting the point and real case summaries each chapter's learning tools clarify contemporary legal principles in a practical presentation that ensures readers gain a solid understanding of business law important notice media content referenced within the product description or the product text may not be available in the ebook version

an extensive and substantial revision nineteen new readings fresh contributions new perspectives the most widely respected philosophy of law reader in print today joel feinberg's leading anthology now featuring new co-author jules coleman presents legal cases and essays written by many of the best scholars in legal philosophy effectively invigorating traditional philosophy of law themes by relating them to the real concerns of modern society this best-selling collection continues to grow in popularity feinberg and coleman include an exceptional selection of relevant topics a balance of substantive positions on controversial questions and lightly edited classics while this sixth edition largely follows the fifth in its organization moving from issues of law and liberty to justice responsibility and punishment there are many important enhancements nineteen of the book's 79 selections are new to this edition new selections include works by brian bix jules coleman and arthur ripstein susan dimock ronald dworkin joel feinberg leslie green mark kelman anthony t kronman david luban toni m massaro stephen perry plato russ shafer landau and ernest j weinrib revised section introductions enrich understanding of the readings unedited summary from book cover

The Philosophy of Law and Legal Science

2018-10-01

an account of the lawyers who helped over centuries to develop and protect civil liberties human rights and the rule of law also discusses breaches of the rule of law in modern cases and in response to terrorism

Brush with the Law

2002-01-12

in dissenting judgments in the law a team of expert contributors reassess nineteen landmark cases from different areas of the law each of which had the potential for the law to have developed in a markedly different direction the cases have been selected on account of their continued relevance to the law today or the controversial nature of the majority's decision a key feature of each case was a dissenting opinion from a judge who thought that the law should develop in a different direction the aim of the contributors is to re-evaluate important cases such as *yl v birmingham city council* 2007 ukhl 27 *scruttons ltd v midland silicones ltd* 1962 ac 446 and *r v hinks* 2000

ukhl 53 by assessing the merits of the judgements given before deciding whether the law would in fact have been better served by following the dissenting opinion rather than that of the majority of judges in the case the judicial reasoning in each case is explored in depth and is contrasted with differing approaches in other jurisdictions where relevant a comparative analysis is employed in order to show how the law by not following the dissenting opinion has developed out of step with other common law jurisdictions each contributor then sets out what impact the dissenting judgment might have had on the law if it had decided the case and assess where the law in that particular field would be today a highly stimulating book from the foreword by lord nicholls of birkenhead a highly thought provoking book which will reach out to the law student the practitioner and the jurispudent for the excellence of the controversies set out phillip taylor richmond green chambers
