*O jeito Peter Lynch de investir* 1999-03-19 october 28 1997 the dow drops 500  
points investors the world over receive a startling reminder that what goes  
up must come down it is a profoundly unsettling experience for those of us  
who have either forgotten or have never known the experience of a bear market  
half of the money invested in u s stocks in this century entered the market  
from 1991 1996 making the dark days of october memorable for their  
bloodletting overall this was just a scratch and despite the optimism of so  
many investors history has shown that the bear attacks time and time again  
john rothchild critically acclaimed author of the bestselling *a fool and his  
money* isn't even afraid to face a full fledged bear market in his topical and  
timely new book rothchild reveals how to prepare psychologically and  
tactically for the looming debacle breaking from the pack of investment books  
which tacitly assume a bull market the bear book focuses on protecting assets  
and minimizing losses during a bear market and on taking advantage of unique  
opportunities for profit with customary flair and style rothchild chronicles  
the long history of bear markets exploring in detail exactly what constitutes  
a bear market and how it affects us along with his own expertise the author  
draws on respected and knowledgeable names such as jim rogers jim grant and  
martin zweig among a host of prominent investment advisors strategists and  
fund managers the result is a comprehensive chronicle that deftly and  
definitively fills the bearish information gap john rothchild's masterful  
penchant for blending wit good storytelling and sound investment analysis  
makes the bear book both informative and vastly entertaining he distinguishes  
the characteristics of past bear markets examining what triggered them how  
long they lasted and why he probes the unique psychology of bearish investing  
concentrating on which types of investments generally do well during a  
downturn in the market his often surprising answers to some straightforward  
no nonsense questions clarify among other key issues what can happen to  
mutual funds in a bear market and exactly what the dangers are of selling  
short of critical importance is rothchild's overview of the alternatives to  
stocks including gold bonds and money market funds as well as tips on what  
stocks to buy when the market starts to turn bullish again for historical  
perspective the bear book also includes a unique and eye opening account of  
the crash of 29 and its survivors profiles of prominent bearish investors roy  
neuberger and philip carret among them contain illuminating long term  
perspectives on the ups and downs of the stock market over the past fifty to  
seventy five years a bracing tonic for investors at all levels of experience  
the bear book offers a veritable blueprint of the various stages of a typical  
bear market it will prove invaluable to those of us who wish to protect our  
savings and peace of mind whenever the market drops

**The Book of Investing Wisdom** 1995 historically tested long term strategies  
that always outperform the market o shaughnessy's conclusion that some  
strategies do produce consistently strong results while others underperform  
could shake up the investment business barron's what works on wall street is  
indisputably a major contribution to empirical research on the behavior of  
common stocks in the united states conceivably the influence of what works on  
wall street will prove immense the financial analysts journal o shaughnessy's  
latest what works on wall street is a serious inquiry into the investment

strategies that stand up under long term scrutiny and is refreshing research for every investor stocks and commodities a bible for investment strategies seeking alpha about the book recent history has witnessed one of the worst stock market beatings ever as a result abysmal returns are being called the new normal financial experts are ringing the death knell of buy and hold and investors faith in equities has hit an all time low you have two choices you can abandon the stock market based on what is happening today or you can invest today based on what will happen in the future containing all new data what works on wall street fourth edition is the only investing guide that lets you see today s market in its proper context as part of the historical ebb and flow of the stock market and when you see the data you ll see there is no argument stocks work now in its second decade of helping investors succeed with stocks what works on wall street continues to provide the most effective investing strategies presenting incontrovertible data on what works and what doesn t updated with current statistics and brand new features what works on wall street offers data on almost 90 years of market performance including stocks ranked by market capitalization price to earnings ratios ebitda to enterprise value price to cash flow sales and book ratios dividend buyback and shareholder yields one year earnings per share percentage changes providing you with unparalleled insights into stock performance going back to 1926 what works on wall street is a refreshingly calming objective view of a subject that is usually wrapped in drama hyperbole and opinions that are plain wrong this comprehensive guide provides the objective facts and winning strategies you need all you have to do is make the decision to ignore the so called market experts and rely on the long proven approach that has made what works on wall street an investing classic
