wants as many of us as possible to arrive in heaven with a heart filled with love for god and one another and all of our sins forgiven this is as important a book on this subject as i recall ever having read houston smith brilliant schroeder s book demands the attention of anyone who wonders if god must be exiled from the modern enlightened mind david j wolpe author of why faith matters in his first book since 2002 s acclaimed the hidden face of god popular scientist gerald schroeder combines decades of scientific research and biblical study to present a groundbreaking new paradigm of how to understand god readers of jack miles god a biography francis collins s the language of god and richard friedman s who wrote the bible will find much to contemplate in god according to god this easy to read text is divided into four main areas of importance for student understanding the existence and nature of god god and science god and experience and god and language some of the brightest scientific minds of our time from albert einstein to stephen hawking have made incredible insights into the earliest origins of the universe but have failed to ultimately discover why there is something rather than nothing why we exist in a case for the existence of god dean l overman examines the latest theories about the origins of the universe and explains why even the most sophisticated science can only take us so far ultimately we must make a leap of faith to understand the world and overman argues that a leap into theism provides the most satisfying conclusions overman explores fundamental questions about why our world exists and how it functions using principles of logic physics and theology in a time when religion and science are often portrayed as diametrically opposed a case for the existence of god presents a refreshing view of the interplay between science and religion and makes a compelling case for the existence of god and his role in our world creation and the sovereignty of god brings fresh insight to a defense of god traditional theistic belief declared a perfect being who creates and sustains everything and who exercises sovereignty over all lately this idea has been contested but hugh j mccann maintains that god creates the best possible universe and is completely free to do so that god is responsible for human actions yet humans also have free will and ultimately that divine command must be reconciled with natural law with this distinctive approach to understanding god and the universe mccann brings new perspective to the evidential argument from evil how do you understand the dimensions power mind will and love of god when he is beyond definition dr j vernon mcgee unravels the mystery of who god is and offers a solid theological understanding for the layman thoroughly biblical who is god dos not attempt to put him in a box but instead examines the biblical revelation and affirms that though god cannot be measured by human standards he does reveal himself to us from learning about the trinity to discussing god s character dr mcgee gives both believer and nonbeliever wise counsel on who god is and how he makes himself known to us much has been written and debated concerning the details of the creation account in doing so that which is of most importance has been missed this is gods purpose for his creation which is seen in the way of his creation his actions and all he allowed to happen gods purpose and plan was not seen to begin with consequently a number of teachings resulted these teachings have become tradition and are addressed herein by the following questions that reveal his purpose what did god mean when he called his creation good and very good did god originally create adam and eve with immortal physical bodies were all animals and mankind originally created to be vegetarians why did god cast satan and his angels onto the earth and not elsewhere did eating of the tree of knowledge of good and evil which god called good include both physical and spiritual death what was the tree of life all about was an animal killed when god made clothes out of skin for adam and eve and if so was it the first animal to die what all was cursed when adam sinned what were the penalties because of adams sin understanding all of this sets the foundation for and enables us to see gods purpose for his creation from the beginning in genesis to the end in revelation this is god revealing the fullness of his nature and his loving mercy and grace which was never before seen or experienced in his heavenly kingdom this is specifically revealed through jesus christ god accused or defended tackles a prickly subject about whether or not god is responsible for allowing both natural evils and moral evils to exist in his creation the book is a theodicy that unravels some of the most tangled and knotted issues

involved in this paradox the biggest challenge is how to confront the various concepts held about god and what he is up to with humanity many theologians and philosophers have attempted to solve the apparent paradox by changing who or what god is in that process there have been four basic outcomes 1 god must be redefined 2 god cannot do anything about the situation 3 god will not do anything about it or 4 it s useless to think about so it is best to abandon the faith using his many years of experience in biblical studies the author resolves the paradox our god truth and order displays a simple view of god s pattern for mankind orderliness in a believer expresses a godly disciplined life god s creation articulates his intensions to have an everlasting communion with man the lord first introduces that he alone created the heavens and the earth before a man can understand himself he must first understand who is his creator can one understand the mysteries regarding god god revealed that he is truth and there is none like him he simply gave us some of his own qualities through which he can express himself to mankind order has one boundary truth when we stand on truth god is our witness this book captures key topics on the authority of god in relation to the first and the last adam the basic make up of man gives an overview of how universal sin transpired and perpetuated throughout mankind water and blood have a spiritual significance both physically and spiritually it solidifies the reconciliation by the infilling of the holy spirit an action that moves man closer to god and allows god to operate through man the spirit of the churches in revelation displays the position of the church age moving from order pentecost to disorder compromise the candid overview of the various churches will help you recognize if you are in order with god or in disarray finally the patterns are consistent with 1 truth from god 2 love to restore mankind through grace 3 faith being the response to god s grace 4 the outward manifestation of the infilling spirit 5 carrying out the work of god by charity love expression 6 producing fruit by applying the word of god in living it and 7 hope futuristically looking for jesus return we all yearn for greater contentment we try new planners new apps new jobs new diets and new relationships hoping that one more change will finally make our lives feel right but no matter what we do the peace we seek feels out of reach how can we find the meaning and purpose we long for fourth century philosopher and theologian st augustine asked the same question god above all compiled from st augustine s most influential works includes 90 devotions to learn the life altering love of god how to change your heart and desire god above all ancient writings made accessible and applicable for modern readers short excerpts from st augustine s works such as confessions and the city of god practical prompts to apply augustine s insights this 90 day devotional is a heartfelt gift for men and women who want to experience life with fresh eyes readers across all denominations and faith backgrounds anyone who longs to grow in faith but doesn t know where to start father s day birthdays christmas and for anyone interested in learning more about st augustine s teachings about making god the center of all whether you are seeking guidance in making god a priority in your relationships your work or your daily decisions god above all is the perfect book to inspire you to discover the delight of glorifying your creator in every moment of your life did you know that god sings there are many things god does that you may not have thought about ever before and the more we know the better we can respond to him god sees god winks god hears he cries he waits and he runs he is jealous and gets angry he smiles frowns and laughs reflecting on the attributes and activities of god is the best way to become like him in god laughs elmer towns and charles billingsley invite the reader to deeply consider god s character and qualities they contend that it s only as we get to know him that we can become more like him and it s only when we glimpse god for who he is that we can worship him in spirit and in truth readers are challenged to dig deeply into scripture where god reveals that he has a heart and a nose and that he whistles have you ever wondered why god in his state of perfect unity and completeness created the universe including you and me and why did god create man knowing he would sin and fall and bring suffering and death upon himself and god s creation this book examines based on the bible why god continues to allow evil to flourish and his christian children to suffer many christians spend their lives trying to act right think right and pray right based on what they ve heard god
