the 2018 edition of international migration outlook analyses recent developments in migration movements and policies in oecd countries and some non member countries and looks at the evolution of the labour market outcomes of immigrants in oecd countries with a focus on the migrants job the making of planning policy is a major political and legal issue and there is currently a considerable focus by the government in england wales and northern ireland on local plan policy making the current climate is characterised by government concern at the slow pace of local plan adoption in england the controversial introduction of neighbourhood planning new strategic planning tools with the planning wales act 2015 and local development plans in northern ireland planning policy is the only book dedicated to planning policy both national and local and includes coverage of the housing and planning act 2016 it covers the policy framework within which planning decisions are taken it addresses how national and local policy is formulated examined and challenged this book provides a comprehensive overview of the biosimilar regulatory framework the development process and clinical aspects for development of biosimilars the development path of a biosimilar is just as unique as a development path of a new drug tailored by the mechanism of action the quality of the molecule published information on the reference product the current competitive environment the target market and regulatory guidance and most importantly the emerging totality of evidence for the proposed biosimilar during development for the ease of readers the book comprises of six sections as follows section i business health economics and intellectual property landscape for biosimilars section ii regulatory aspects of development and approval for biosimilars section iii biopharmaceutical development and manufacturing of biosimilars section iv analytical similarity considerations for biosimilars section v clinical aspects of biosimilar development section vi biosimilars global development and clinical experience chapters have been written by one or more experts from academia industry or regulatory agencies who have been involved with one or more aspects of biosimilar product development the authors and editors have an expertise in commercialization and pricing of biosimilars intellectual property considerations for biosimilars chemistry manufacturing controls cmc and analytical development for biosimilars regulatory and clinical aspects of biosimilar development besides the industry practitioners the book includes several contributions from regulators across the globe how does the council of europe put into practice its commitment to the promotion of a culture of democracy through education over the past decade or so our societies have been facing increasing difficulties in reconciling acceptance of diversity and social inclusion with the need for community the search for simple solutions to complex problems the fact that fake news and alternative facts are no longer seen as nonsensical expressions our responses to migration and the refugee crisis and the growth of populism in many parts of europe present challenges to our societies and not least to education authors from europe north america and south africa outline how higher education could respond to these challenges the first section makes a strong case for the continuing importance of higher education and research to modern society the second focuses on higher education institutions and the need for inclusive and diverse campuses the third section considers opportunities to improve the inclusion of refugees and immigrants in higher education whereas the focus in europe is mostly on refugees in the united states it is largely on immigrants further accentuated by the debate on the dreamers the international symposium on dynamics of vehicles on roads and tracks is the leading international gathering of scientists and engineers from academia and industry in the field of ground vehicle dynamics to present and exchange their latest innovations and breakthroughs established in vienna in 1977 the international association of vehicle system dynamics iavsd has since held its biennial symposia throughout europe and in the usa canada japan south africa and china the main objectives of iavsd are to promote the development of the science of vehicle dynamics and to encourage engineering applications of this field of science to inform scientists and engineers on the current state of the art in the field of vehicle dynamics and to broaden contacts among persons and organisations of the various countries engaged in scientific research and development in the field of vehicle dynamics and related areas iavsd 2017 the 25th symposium of the international association of vehicle system dynamics was hosted by the centre for railway engineering at central queensland university rockhampton australia in august 2017 the symposium focused on the following topics related to road and rail vehicles and trains dynamics and stability vibration and comfort suspension steering traction and braking active safety systems advanced driver assistance systems autonomous road and rail vehicles adhesion and friction wheel rail contact tyre road interaction aerodynamics and crosswind pantograph catenary dynamics

modelling and simulation driver vehicle interaction field and laboratory testing vehicle control and mechatronics performance and optimization instrumentation and condition monitoring and environmental considerations providing a comprehensive review of the latest innovative developments and practical applications in road and rail vehicle dynamics the 213 papers now published in these proceedings will contribute greatly to a better understanding of related problems and will serve as a reference for researchers and engineers active in this specialised field volume 2 contains 135 papers under the subject heading rail with the advent of the internet and handheld or wearable media systems that plunge the user into 360o video augmented or virtual reality technology is changing how stories are told and created in this book john v pavlik argues that a new form of mediated communication has emerged experiential news experiential media delivers not just news stories but also news experiences in which the consumer engages news as a participant or virtual eyewitness in immersive multisensory and interactive narratives pavlik describes and analyzes new tools and approaches that allow journalists to tell stories that go beyond text and image he delves into developing forms such as virtual reality haptic technologies interactive documentaries and drone media presenting the principles of how to design and frame a story using these techniques pavlik warns that although experiential news can heighten user engagement and increase understanding it may also fuel the transformation of fake news into artificial realities and he discusses the standards of ethics and accuracy needed to build public trust in journalism in the age of virtual reality journalism in the age of virtual reality offers important lessons for practitioners seeking to produce quality experiential news and those interested in the ethical considerations that experiential media raise for journalism and the public yy security and risk assessment for facility and event managers introduces a risk assessment framework that helps readers identify and plan for potential security threats welfare work onto spiritual concerns on both sides of the pacific their goal to forge links between whites and asians that countered anti asian discrimination in the united states their test uprooting racial hatreds that despite their efforts led to the shameful incarceration of japanese americans in world war ii sarah m griffith draws on the experiences of liberal protestants and the young men s christian association in particular to reveal the intellectual social and political forces that powered this movement engaging a wealth of unexplored primary and secondary sources griffith explores how ymca leaders and their partners in the academy and distinct asian american communities labored to mitigate racism the alliance s early work based in mainstream ideas of assimilation and integration ran aground on the japanese exclusion law of 1924 yet their vision of christian internationalism and interracial cooperation maintained

through the world war ii internment trauma as griffith shows liberal protestants emerged from that dark time with a reenergized campaign to reshape asian white relations in the postwar era the war in syria has put russia at the centre of middle eastern politics moscow s return to the region following a prolonged period of absence has enhanced its geopolitical status at a time it has emerged as a rival to the west yet contrary to the media hype vladimir putin is not set to become the new power broker in this strategically important part of the world co authored by a team of prominent scholars and analysts from the eu us russia and the middle east this book explores russia s role in the middle east and north africa the diverse drivers shaping its policy and the response from local players chapters map out the history of russian involvement before and after the collapse of the soviet union the impact on key issues such as security and defence regional conflicts arms trade and energy as well as relations influential states and country clusters such as iran the gulf turkey israel egypt and the maghreb it also looks at how the middle east impacts on russia s relations with the west the book offers a balanced assessment of russian influence highlighting both the political diplomatic and commercial gains made thanks to putin s decision in september 2015 to intervene militarily in syria and the constraints preventing moscow from replacing the united states as a regional hegemon small and medium sized enterprises smes are increasingly viewed as valuable contributors to the global economy which translates into their importance in business literature and academic research recent studies suggest that there exists a substantial variety of international activities pursued by smes expanding abroad with a prominent presence of early internationalised enterprises including born global despite the acknowledgement of the importance of human capital for sme internationalisation there is a persistent knowledge gap concerning hr practices in this context until now researchers investigating the accelerated internationalisation of smes have focused either on the human capital of decision makers or selected attributes of employees although these have only been at the pre entry or entry stages thus activities performed after entering foreign markets remain this book attempts to reduce this gap and contribute to the body of knowledge concerning hr practices in early internationalised smes with an emphasis on the post entry phase by taking such an approach this volume integrates two streams of research hrm in the smes and international business it provides managers of smes with useful information on dealing with internationalisation related challenges by means of various practices including work structuring recruitment and selection training and development employee appraisal and remuneration and performance management the discussion of these issues is based upon data from a survey conducted in 200 smes and case studies exemplifying hr practices in early internationalised small and medium enterprises it offers academic researchers postgraduate students and reflective practitioners a state of the art overview of managing human resources in small and medium enterprises expanding internationally including both accelerated and incremental paths
