the questions addressed in the book revolve around the public nature of health as an asset and the rights associated with it by drawing attention to sociology's role in shedding light on current dynamics and understanding how they may change in the future in the field of public health significant empirical evidence points not only to the outcomes clinical and otherwise that extensive information can produce but also to the urgent need to rethink the far from straightforward relationship between having this information and the ability to put it to effective use in tackling the problems it relates to the book is intended for a broad audience of university researchers and students particularly those involved in upper level sociology and social policy programs it will also be of interest to healthcare and social work policy makers and practitioners who wish to gain a more detailed grasp of the

dynamics of healthcare in order to approach its processes critically and improve their outcomes

against the background of the creation of an eu wide frame of reference for private law relevant to the common market this study which was requested by the eu commission analyses the dovetailing between contract and tort law on the one hand and between contract and property law on the other the study examines the legal orders of almost all the member states of the eu illustrates the differences between contractual and non contractual liability and evaluates the different systems of the transfer of property of movable and immovable securities as well as trust law the study comes to the conclusion that the intensive considerations on the creation of a model law in the area of european private law do not allow these thoughts to be limited to contract law such a limitation to the scope of the regarding of this area would probably cause more problems than it would solve or at any rate not do justice to the needs of the common market

the story of an innovative program of treatment for aids in africa that succeeded in the face of international development agencies afro pessimism until this century western governments and foundations framing policies for aids relief in africa maintained that prevention alone was a preferable alternative to prevention plus treatment which would be costly and impractical in africa or would benefit only the prosperous and well connected sant egidio s dream argues that this initial failed approach to aids in african countries reflects a global moral blindness to the imperative to save lives which was not lost on the community of sant egidio an italian catholic social movement rooted in the gospel and friendship and present in 70 countries drawing on two decades of peacemaking and humanitarian experience in africa the movement grasped the evidence that hiv if treated does not lead to aids and to death and saw that treatment gives hope in africa just as it does in the developed world by enabling large numbers of people to live with

a chronic disease and involving family and neighbors in free and effective care it offers a dream of a society surviving and even thriving in spite of hiv in 2002 sant egidio established the dream drug resource enhancement against aids and malnutrition project a community based approach to the aids crisis rooted in medicine epidemiology and public health that has proven effective in ten countries where it has been implemented and has emerged as a model for healthcare in the global south
