lange s entertaining book makes it clear that no matter how wild and risky his lifestyle may be he takes comedy more seriously than anything else publishers weekly when artie lange s first book the 1 new york times bestseller too fat to fish hit the top of the charts audiences learned what howard stern listeners already knew that artie is one of the funniest people alive he is also an artist haunted by his fair share of demons which overtook him in the years that followed after a suicide attempt a two year struggle with depression and years of chronic opiate addiction artie entered recovery and built himself back up chronicling his struggle in brave detail in his next book and second new york times bestseller crash and burn in his hilarious third book the two time bestselling author comedian actor and radio icon explains the philosophy that has kept his existence boredom free since the age of 13 the love of risk an avid sports better and frequent card player lange believes that the true gambler gets high not from winning but from the chaotic unknown of betting itself he recounts some of his favorite moments many of which haven t involved money at all in this candid and entertaining memoir he looks back at the times he s wagered the intangible and priceless things in life his health his career and his relationships the stories found in wanna bet paint a portrait of a man who would just as quickly bet tens of thousands of dollars on a coin toss as he would a well thought out nba or nfl wager along for the ride are colorful characters from artie s life who live by the same creed from a cast of childhood friends to peers like comedian and known gambler norm mcdonald the book is a tour of a subculture where bookies and mobsters athletes and celebrities ride the gambling roller coaster for the love of the rush through it all somehow artie has come out ahead though he does take a few moments to imagine his life if things hadn t quite gone his way unrepentant and unrestrained the book is lange at his finest in this informative and entertaining book learn from cousin sal how not to gamble your life away along with many other life lessons so you don t have impulse for control that governed the soviet union is present in the american health care and educational systems and that socialism can never work because of human nature the author describes the handicapping of thoroughbred horse races covering such factors as the use of computers what to watch before a race and the best jockeys and horse trainers he also explains 60 ways to build a betting system library of congress description you never go against the family here is the most comprehensive introduction to and explanation of the most infamous crime organization in history completely updated with more than 70 pages of new material and photographs it includes information about the shifts in power and tightening of ranks of different families after convictions of their key members new inside information on the role of the families in chicago boston las vegas rochester and even montreal and updates on the decavalcante family who bragged they were the real sopranos on fbi wiretaps more than 70 pages of new material full of dramatic anecdotes and photos about everything from capone to gotti and beyond written by acclaimed expert author and reporter of all things mafia in his weekly online column gang land ganglandnews.com i originally wrote the music industry self help guide because it seems that regardless of genre or region every musician goes through identical stages of development and needs access to the same tools and information to get ahead in this industry over the last three decades i have continued to see a reoccurring disparity with different musicians that don't know where to look and don't know what to look for which keeps them isolated with no real hope of success i've encountered this not only in local developing music scenes but also while formally mentoring aspiring artists at music conferences across the country in writing the original manuscript my experience and accumulated knowledge base placed me in a unique position to provide you with information from the point of view of an artist a manager and also from that of a record label it was important in the creation of this book that all of these perspectives were taken into consideration as they vary so greatly in how they interpret what is actually required to succeed in today's market i also would like to stress the fact that the views in this book are not merely comprised of one person's observations of the music industry but includes tried and true methods of success that have been implemented by bands that have maintained relevance for more than three decades this resulted in a well rounded all encompassing guide to creating momentum and visibility for emerging artists that covered all of the developmental elements that they would need to lay a solid foundation for themselves in the independent market although multiple books and publications have been written on some of the various subjects contained herein that have a cold encyclopedic reference style of providing information what i did in writing the music industry self help guide was approach as many of these topics as possible link them all together and present them on more of a personal and direct level what resulted was a brutally honest and thought provoking guidebook written in a conversational manner that can give your career a serious head start and help you move forward if you choose to implement its information the first edition provided a very solid framework for this expanded edition which has additional chapters resources lists and a step by step guide on how to fill out an online copyright form this entire book was also retooled from the 1st edition to provide quick and easy reference points for easy navigation what you now have in your hands is a book that was designed with your success in mind and has been refined into a better product for your added benefit although this book encompasses the entire spectrum of the music industry from the earliest stages of a developing artist's career to the corporate wranglings of the music industry giants i chose to focus primarily on the independent market because this is the place that you must pass through while earning your stripes and paying your dues in this industry as the title implies this is a self help guide so what this book also does to prepare you for success is look at one of the largest hurdles that aspiring musicians face as they try to move forward in their career themselves no other key component in this book will surpass the importance of one's ability to master oneself and this book will callously press you to take an unflinching look inside yourself to understand who you really are and attempt to identify what is holding you back how far you get beyond the independent market will not only rely on the quality of the music you release but will also hinge largely on how you utilize the things that you read in this book approx 400 pages 34 chapters 50 color photos and several resources effective personal communication skills for public relations analyses how to transform your communications by managing the way you think act create messages and network covering the soft skills of communications practice it identifies the key elements used by

outstanding communicators this essential guide offers practical advice and guidance on understanding new trends and challenges facing communicators particularly in the use of word of mouth networking gambling or fortuna her temple and shrine the true philosophy and ethics of gambling by james harold romain digicat publishing considers every written word to be a legacy of humankind every digicat book has been carefully reproduced for republishing in a new modern format the books are available in print as well as ebooks digicat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature some three months before the opening of this story the hale emigrant train had pulled out from border city bound for colorado under the guidance of a noted gambler who had suddenly offered his services to run the settlers to their destination this gambler guide was kent king a man well known as a good prairie scout yet supposed to think too much of his comfort to take to the hardships of an

overland journey again hale was told that kent king was only going in that capacity on account of mary hale the only child of the judge but the warning was unheeded and the train pulled out on its way to the far west as kent king was a thorough plainsman a dead shot and a man of undisputed courage there were many along who congratulated themselves upon their luck in securing as good a guide but from the first it was evident that mary hale was the attraction which drew kent king it was also evident that the judge seemed willing that his daughter should receive the attentions of the guide in fact judge hale encouraged them to such an extent that parson miller an emigrating preacher along with the train was notified to hold himself in readiness to perform a marriage ceremony within a few days that the wedding would have taken place there is no doubt but for the timely arrival in camp of buffalo bill the army scout when buffalo bill heard that the girl with the consent of her father was to be forced into an immediate marriage with the gambler he decided at once that she should not be so sacrificed based on the popular how to talk feature in the alternative travel magazine monk this savvy and often hilarious region by region guide to the way americans talk also provides a dead on and sometimes too strange indication of how we think how we behave and what we hold dear 100 photos drawings maps based on original sources and research not legends and myth this book presents a lively in depth analysis of how the american mafia epitomizes organized crime whether it s supplying illicit drugs alcohol during prohibition gambling prostitution or even loans to those with bad credit the mafia has established itself as a part of the fabric of american society politics and economics for over a century the mafia continues to exist not only because of their immense power that allows their criminal organization to defy law enforcement but because demand remains strong for what they offer this book utilizes verifiable information about the mafia based on newspaper and magazine accounts police and fbi documents court records and the author s own original research to offer a deeper analysis of the mob that provides historical social economic and cultural context fascinating biographical sketches that profile well known mafiosi such as charles lucky luciano and john gotti are also presented a pot roast left unguarded an open bedroom door an ill timed squat dogs seem to have impeccable timing yet how quickly calamity turns to comedy in the company of a dog ### ***The Complete Idiot's Guide to the Mafia, 2nd Edition 2005-01-04***

i originally wrote the music industry self help guide because it seems that regardless of genre or region every musician goes through identical stages of development and needs access to the same tools and information to get ahead in this industry over the last three decades i have continued to see a reoccurring disparity with different musicians that don't know where to look and don't know what to look for which keeps them isolated with no real hope of success i've encountered this not only in local developing music scenes but also while formally mentoring aspiring artists at music conferences across the country in writing the original manuscript my experience and accumulated knowledge base placed me in a unique position to provide you with information from the point of view of an artist a manager and also from that of a record label it was important in the creation of this book that all of these perspectives were taken into consideration as they vary so greatly in how they interpret what is actually required to succeed in today's market i also would like to stress the fact that the views in this book are not merely comprised of one person's observations of the music industry but includes tried and true methods of success that have been implemented by bands that have maintained relevance for more than three decades this resulted in a well rounded all encompassing guide to creating momentum and visibility for emerging artists that covered all of the developmental elements that they would need to lay a solid foundation for themselves in the independent market although multiple books and publications have been written on some of the various subjects contained herein that have a cold encyclopedic reference style of providing information what i did in writing the music industry self help guide was approach as many of these topics as possible link them all together and present them on more of a personal and direct level what resulted was a brutally honest and thought provoking guidebook written in a conversational manner that can give your career a serious head start and help you move forward if you choose to implement its information the first edition provided a very solid framework for this expanded edition which has additional chapters resources lists and a step by step guide on how to fill out an online copyright form this entire book was also retooled from the 1st edition to provide quick and easy reference points for easy navigation what you now have in your hands is a book that was designed with your success in mind and has been refined into a better product for your added benefit although this book encompasses the entire spectrum of the music industry from the earliest stages of a developing artist's career to the corporate wranglings of the music industry giants i chose to focus primarily on the independent market because this is the place that you must pass through while earning your stripes and paying your dues in this industry as the title implies this is a self help guide so what this book also does to prepare you for success is look at one of the largest hurdles that aspiring musicians face as they try to move forward in their career themselves no other key component in this book will surpass the importance of one's ability to master oneself and this book will callously press you to take an unflinching look inside yourself to understand who you really are and attempt to identify what is holding you back how far you get beyond the independent market will not only rely on the quality of the music you release but will also hinge largely on how you utilize the things that you read in this book approx 400 pages 34 chapters 50 color photos and several resources
