Urdu/Hindi: An Artificial Divide 2024-08-09 in a blow against the british empire khan suggests that london artificially divided india's hindu and muslim populations by splitting their one language in two then burying the evidence in obscure scholarly works outside the public view all language is political and so is the boundary between one language and another the author analyzes the origins of urdu one of the earliest known languages and propounds the iconoclastic views that hindi came from pre-aryan dravidian and austric munda not from aryan's sanskrit which like the indo-european languages greek and latin etc are rooted in the middle east mesopotamia not in europe hindi's script came from the aramaic system similar to greek and in the 1800s the british initiated the divisive game of splitting one language in two hindi for the hindus and urdu for the muslims these facts he says have been buried and nearly lost in turgid academic works khan bolsters his hypothesis with copious technical linguistic examples this may spark a revolution in linguistic history urdu hindi an artificial divide integrates the out-of-africa linguistic evolution theory with the fossil linguistics of middle east and discards the theory that sanskrit descended from a hypothetical proto-indoeuropean language and by degeneration created dialects urdu hindi and others it shows that several tribes from the middle east created the hybrid by cumulative evolution the oldest groups austric and dravidian starting 8000 b.c provided the grammar syntax plus about 60 of vocabulary s.k.t added 10 after 1500 b.c and arabic/persian 20-30 after a.d. 800 the book reveals mesopotamia as the linguistic melting pot of sumerian/babylonian/elanite/hittite/hurrian/mitanni etc with a common script and vocabularies shared mutually and passed on to i.e.s.k.t.d.r arabic and then to hindi/urdu in fact the author locates oldest evidence of s.k.t in syria the book also exposes the myths of a revealed s.k.t or hebrew and the fiction of linguistic races i.e. aryan/semitic etc the book supports the one world concept and reveals the potential of urdu/hindi to unite all genetic elements races and regions of the indo-pakistan sub-continent this is important reading not only for those interested to understand the divisive exploitation of languages in british led india's partition but for those interested in the science and history of origin of urdu/hindi and other languages the false claims of linguistic races and creation history of languages and scripts language mythology and racism ancient history and fossil languages british rule and india's partition

Nothing But! 2022-01-19 if cinema did not exist i would be non-existent raj Kapoor in this warm thoughtful memoir veteran filmmaker rahul rawail goes back to his days spent in r k studios where he was nurtured and taught to handle the ropes of filmmaking from the master himself raj Kapoor through stories only he can tell rawail delves not only into the techniques of the legendary filmmaker but also into hitherto unknown aspects of raj Kapoor's eccentric personality his quirky sense of humour his insights into life the relationship he shared with his crew and his associations with artists of three generations the book also examines how the lessons he learnt under the tutelage of raj Kapoor carried rahul rawail through directing his own blockbuster films including love story betaab arjun and daccit raj Kapoor the master at work offers unique insights into what it took for raj Kapoor to be an exceptional filmmaker with his understanding of human emotions virtues of music and the art of visual storytelling within these pages one sees behind the enigma who lived and breathed cinema in his before seen role as a teacher mentor parent and guru

Raj Kapoor 2014-02-11 the manuscript starts with a question how does a country with so much diversities like india claim to be a nation what glues it together it then suggests that bollywood has in the last hundred years acted as one of the glues that binds the country together and that it has represented the feelings and aspiration of the country commendably it has also become the inner voice that introspects and questions the society and behaves as a collective moral compass to further this theory the seventy odd years of post independence is divided into four periods films released in each period is shown not just to reflect the period but to comment on the need for change for example the highlighting of problems of dowry in early 1950s to 1980s which evolved from a custom to demand due to greed resulted in legislations to protect women similarly the issue of triple talak highlighted in early 1980s leading to recent legislation on the subject analyzing the evolution of story telling and nature of presentation the book concludes that since late nineties hindi movies have been screaming the failure of the judiciary with initial movies showing system failure then corrupt lawyers to now questionable judges the book thus contrary to recent trends of being critical of the industry highlights the significant role it has played in contemporary times
