Loyalty to Loyalty: Josiah Royce and the Genuine Moral Life 2012-07-02 in 1906 and 1907 i gave as a part of my regular work at the summer school of harvard university an introduction to ethics with special reference to the interests of teachers a few lectures summing up the main principles that lay at the basis of this ethical course as it had been given in the summer of 1906 were delivered in january and february 1907 before a general academic audience during a brief visit of mine at the university of illinois in several other places both in the west and in the east i have also presented portions of my views upon ethics and in the summer of 1907 four general lectures on the topic were repeated before the summer school of theology at harvard in november and december of 1907 the lectures that constitute the present book were delivered for the first time before the lowell institute in boston visiting lecturer to give to undergraduate students at yale university in weekly class meetings the present book although in this way related to present and past academic tasks is nevertheless not a text book and does not mean to be elaborately technical philosophical research it is simply an appeal to any reader who may be fond of ideals and who may also be willing to review his own ideals in a somewhat new light and in a philosophical spirit loyalty is indeed an old word and to my mind a precious one and the general idea of loyalty is still far older than the word and is immeasurably more precious but this idea has nearly always been confused in men s minds by its chance social and traditional associations everybody has heard of loyalty most prize it but few perceive it to be what in its inmost spirit it really is the heart of all the virtues the central duty amongst all duties in order to be able to see that this is the true meaning of the idea of loyalty one has to free this idea from its unessential if somewhat settled associations with this or that special social habit or circumstance and in order to accomplish this latter end one has indeed to give to the term a more exact meaning than popular usage defines it is this freeing of the idea of loyalty from its chance and misleading associations it is this vindication of the spirit of loyalty as the central spirit of the moral and reasonable life of man t is this that i believe to be somewhat new about my philosophy of loyalty the conception of loyalty to loyalty as set forth in my third lecture constitutes the most significant part of this ethical task for the rest if my philosophy is as a theory more or less new i am still only trying to make articulate what i believe to be the true spirit and meaning of all the loyal whoever they may be and however they define their fidelity the result of conceiving duty in terms of the conception of loyalty which is here expounded is indeed if i am right somewhat deep going and transforming not only for ethics but for most men s views of truth and reality and of religion my own general philosophical opinions have been set forth in various works some time since most elaborately in the volumes entitled the world and the individual i have no change to report in my fundamental metaphysical theses but i have not published any formulation of my ethical opinions since the brief review of ethical problems in the first part of my religious aspect of philosophy published in 1885 one learns a good deal about ethics as one matures and i believe that this present statement of mine ought to help at least some readers to see that such philosophical idealism as i have long maintained is not a doctrine remote from life but is in close touch with the most practical issues and that religion as well as daily life has much to gain from the right union of ethics with a philosophical theory of the real world at the moment there is much speech in current philosophical literature regarding the nature of truth and regarding pragmatism an ethical treatise very naturally takes advantage of this situation to discuss the relation between the practical and the eternal i have done so in my closing lectures in order to do so i have had to engage in a certain polemic regarding the problem of truth a polemic directed against certain opinions recently set forth by one of the dearest of my friends and by one of the most loyal of men my teacher for a while in my youth my honoured colleague for many years professor william james such a polemic would be indeed much out of place in a book upon loyalty were it not that my friend and myself fully agree that to both of us truth indeed is the greater friend had i not very early in my work as a student known professor james i doubt whether any poor book of mine would ever have been written least of all the present one what i personally owe him then i most heartily and affectionately acknowledge but if he and i do not see truth in the same light at present we still do well i think as friends each to speak his mind as we walk by the way and then to wait until some other light shines for our eyes i suppose that so to do is loyalty meanwhile i am writing in this book not merely and not mainly for philosophers but for all those who love as i said ideals and also for those who love as i may now add their country a country so ripe at present for idealism and so confused nevertheless by the vastness and the complication of its social and political problems to simplify men s moral issues to clear their vision for the sight of the eternal to win hearts for loyalty this would be in this land a peculiarly precious mission if indeed i could hope that this book could aid however little towards such an end amongst the numerous friends to whom whether or no they agree with all my views i am especially

indebted for direct and indirect aid in preparing this book and for criticisms and other suggestions i must mention first my wife who has constantly helped me with her counsel and in the revision of my text then my sister miss ruth royce of san josé california with whom i discussed the plan of the work in the summer of 1907 then doctor and mrs r c cabot of boston doctor j j putnam of boston and finally my honoured colleague professor george h palmer from the books

The Philosophy of Loyalty 2023-10-19 during the american civil war maryland did not join the confederacy but nonetheless possessed divided loyalties and sentiments these divisions came to a head in the years that followed the war in loyalty on the line david k graham argues that maryland did not adopt a unified postbellum identity and that the state remained divided with some identifying with the state s unionist efforts and others maintaining a connection to the confederacy and its defeated cause depictions of civil war maryland both inside and outside the state hinged on interpretations of the state s loyalty the contested civil war memories of maryland not only mirror a much larger national struggle and debate but also reflect a conflict that is more intense and vitriolic than that in the larger national narrative the close proximity of conflicting civil war memories within the state contributed to a perpetual contestation in addition those outside the state also vigorously argued over the place of maryland in civil war memory in order to establish its place in the divisive legacy of the war by using the dynamics interior to maryland as a lens for viewing the civil war graham shows how divisive the war remained and how central its memory would be to the united states well into the twentieth century
