The Education of Immigrant Children 2017-07-20 originally published in 1983 this book concentrates on the psychological factors within immigrants and on the importance of these for relations with locals and for education it argues that immigrants experience a state of estrangement from both their own societies and from the receiving society the educational effects of this manifest themselves partly in poor achievement partly in poor behaviour and in dropping out of society these are seen as the results of a diminished self worth a feeling of being pre programmed to failure and of being outsiders this study develops a psychological model of the state of affairs and of the desirable educational measures needed for coping with it in educational planning curriculum development teacher training and so on it presents guidelines or suggestions for areas and kinds of actions not presenting specific materials or programmes this book fosters development of insight and understanding among teachers policy makers teacher trainers and immigrants themselves

Educating Children and Young People in Care 2015-05-21 children and young people in care rarely match the academic achievements of their peers and policy and procedures to address this inequality have not yet remedied the problem drawing on ideas from social pedagogy the authors present a new approach learning placements and caring schools they show that education and care must be considered integral to both out of home placements and schools packed with practice examples it includes chapters on early childhood education and care as well as alternatives to school and higher education covering everything from birth up to the age of 25 it highlights the potential benefits of a range of learning opportunities from drama and outdoor activities to bedtime stories and mentoring as well as providing support for teachers in their role as carer chapters include key points case studies practice points and useful resources this is a unique evidence informed practical guide for students and professionals in the fields of social work social care psychology and education

**The Migrant Farm Worker in America** 1960 originally published in 1989 the extraordinary story of Britain's child migrants is one of 350 years of shaming exploitation around 130 000 children some just 3 or 4 years old were shipped off to distant parts of the empire the last as recently as 1967 for Britain it was a cheap way of emptying children's homes and populating the colonies with good British stock for the colonies it was a source of cheap labour even after the second world war around 10 000 children were transported to Australia where many were subjected to at best uncaring abandonment and at worst a regime of appalling cruelty lost children of the empire tells the remarkable story of the child migrants trust set up in 1987

sentence check 2

perspectives on children's food occasions inside and outside of the home across different geographical locations by unpacking mundane food occasions from school dinners to domestic meals and from breakfast to snacks feeding children inside and outside the home shows the role of food in the everyday lives of children and adults around them investigating food occasions at home schools and in nurseries during weekdays and holidays this book reveals how children mothers fathers teachers and other adults involved in feeding children understand make sense of and navigate ideological discourses of parenting health imperatives and policy interventions revealing the material and symbolic complexity of feeding children and the role that parenting and healthy discourses play in shaping perpetuating and transforming both feeding and eating this volume shows how micro and macro aspects are at play in mundane and everyday practices of family life and education this volume will be of great interest to a wide range of students and researchers interested in the sociology of family life education food studies and everyday consumption

Skills in Counselling and Psychotherapy with Children and Young People 2014-11-10 drawing on current scholarship education and society takes students on a journey through the many roles that education plays in contemporary societies addressing students own experience of education before expanding to larger sociological conversations education and society helps readers understand and engage with such topics as peer groups gender and identity social class the racialization of achievement the treatment of immigrant children special education school choice accountability discipline global perspectives and schooling as a social institution the book prompts students to evaluate how schools organize our society and how society organizes our schools moving from students to schooling to social forces education and society provides a lively and engaging introduction to theory and research and will serve as a cornerstone for courses such as sociology of education foundations of education critical issues in education and school and society

Improving Schooling for Language-Minority Children 1997-04-30 the public outcry for a return to moral education in our schools has raised more dust than it's dispelled building upon his provocative ideas in on becoming responsible michael pritchard clears the air with a sensible plan for promoting our children's moral education through the teaching of reasonableness pritchard contends that children have a definite but frequently untapped capacity for reasonableness and that schools in a democratic society must make the nurturing of that capacity one of their primary aims as fundamental to learning as the development of reading

writing and math skills reasonableness itself he shows can be best cultivated through the practice of philosophical inquiry within a classroom community in such an environment children learn to work together to listen to one another to build on one another's ideas to probe assumptions and different perspectives and ultimately to think for themselves advocating approaches to moral education that avoid mindless indoctrination and timid relativism pritchard neither preaches nor hides behind abstractions he makes liberal use of actual classroom dialogues to illustrate children's remarkable capacity to engage in reasonable conversation about moral concepts involving fairness cheating loyalty truth-telling lying making and keeping promises obedience character and responsibility he also links such discussions to fundamental concerns over law and moral authority the roles of teachers and parents and the relationship between church and state pritchard draws broadly and deeply from the fields of philosophy and psychology as well as from his own extensive personal experience working with children and teachers the result is a rich and insightful work that provides real hope for the future of our children and their moral education

Feeding Children Inside and Outside the Home 2018-10-26 this indispensable resource provides a flexible framework and a wealth of engaging tools for teaching mindfulness to children and adolescents with varying needs in school or clinical settings numerous kid-friendly mindfulness practices are presented complete with step-by-step instructions sample scripts suggested variations and discussion questions the benefits of mindfulness for enhancing children's social-emotional competencies are clearly explained clinicians and teachers are guided to select and sequence activities for groups struggling with specific challenges stress and anxiety depression attention problems behavioral and emotion regulation issues and trauma in a convenient large-size format the book includes 14 reproducible handouts purchasers get access to a page where they can download and print the reproducible materials
