rock music of all varieties has been influenced by classical music and vice versa both in the form of direct quotes and in the form of borrowings of style composition and instrumentation the average listener may be unaware of the many links between rock music and the

classics one might remember a few examples such as walter murphy s chart topping a fifth of beethoven or eric carmen s all by myself but pass them off as interesting anomalies however the influence of the classics on rock music is pervasive and grows from a long line of precedents this second supplement to janell r duxbury s original 1985 discography rockin the classics and classicizin the rock brings the earlier work and first supplement up to date with hundreds of new entries documenting recently released or newly discovered examples of the interconnection between these musical genres duxbury details nearly 700 new examples of recorded rock instrumentals and songs that borrow musical themes from the classics variations range from contemporary renditions of complete classical works to brief classical quotes or phrases subtly incorporated into rock compositions duxbury also gives additional examples of recorded orchestral versions of songs originally composed and or written by rock artists in these examples the musical style varies from strict classical interpretations to pop style orchestral renditions the second supplement then expands duxbury s original compilation of sound recordings and live performances of rock groups performing with established orchestras and choruses selected samples of recorded rock

music that simulate baroque or classical sound structure examples of the manifest influence of rock on classical music and instances of rock artists and classical artists switching roles lastly this discography updates the 1985 version and the first supplement with new information expanded details and minor corrections to the earlier works an extended list of selected non rock background examples is included in several new appendixes the preface is updated a general index includes the names of classical composers rock artists and groups orchestras choruses orchestra conductors sound recording producers and song or instrumental titles with its incomparable scope and content this supplement together with duxbury s previous discography and its first supplement will be appreciated by students researchers record collectors trivia buffs music industry employees and fans of rock music and the classics

war wounds the soul it is not only the violence that warfighters suffer against them that harms but also the violence that they do these soul wounds have come to be known as moral injuries psychic traumas that occur from having done or condoned that which goes against deeply held moral principles it is not surprising that the committing of atrocities or the accidental killing of the innocent would hurt the soul of warfighters the problem is that many warfighters at least tacitly follow the commonplace belief that killing another human being is always wrong it is just that sometimes as in war it is necessary this paradoxical commitment makes the very business of warfighting morally injurious this problem is also a crisis clinical research among combat veterans has established a link between killing in combat and moral injury and between moral injury and suicide our warfighters even those who have served honorably and with the right intentions are dying by their own hands at devastating rates casualties not of the physical threats of war but of the moral ones it does not have to be this way the just war tradition a moral framework for thinking about war that flows out of our greco roman and hebraic intellectual traditions is grounded in the basic truth that killing comes in different kinds while some kinds of killing like

murder are always wrong there are other kinds of killing that are morally neutral such as unavoidable accidents and still other kinds that are morally permitted even sometimes obligatory the good kill embraces this tradition to argue for the morality of killing in justified wars marc livecche does not deny the morally bruising realities of combat but offers potential remedies to help our warfighters manage the bruising without becoming irreparably morally injured
