a leading uk scaffold supplier lattice spreader beams are ideal for long light loads where a spreader beam is deemed too short for the lift the lattice spreader beam has been designed to be lightweight so as to allow for easy transportation and storage as well as being a cost effective piece of lifting equipment compression shear and bending performance of x type lattice truss panel structure the omnia slab is a reinforced precast concrete slab which incorporates a lattice girder to provide stiffness and facilitate the placement of the top mesh the lattice girder provides rigidity to the slab when in situ concrete is poured on site by a local provider a lattice girder like any girder primarily resists bending the component sections may typically include metal beams channel and angle sections with the lacing elements either metal plate strips or angle sections a lattice tower or truss tower is a freestanding vertical framework tower this construction is widely used in transmission towers carrying high voltage electric power lines in radio masts and towers a self radiating tower or as a support for aerials and in observation towers

lattice beams dessa

May 25 2024

this document relates to dessa aluminium lattice beams joined using tubular spigots and bolts or quick release pins this document provides best practice and outlines technical practical and safety

metsec lattice beams changes name to mlb steel to reflect

Apr 24 2024

the uk s leading fabricator of premium light weight lattice beams has announced that it has changed its name from metsec lattice beams ltd to mlb steel ltd the name change reflects the company s growing portfolio of structural steel and its expertise in design fabrication and installation

lattice beams gorge fabrications structural steel contractor

Mar 23 2024

lattice beams provide greater flexibility to designers to enhance internal space due to the long spans up to 40 meters that can be accomplished without the need for intermediate column supports

home dessa

Feb 22 2024

aluminium lattice beams a huge range of general purpose scaffolding beams available in 40cm 70cm 78cm 133cm depths and from 0.5m to 8m in length lightweight and economical these beams are manufactured to the stringent requirements of EN1990 ensuring every beam can be traced individually

mlb steel ltd strumis

Jan 21 2024

mlb steel is the UK's largest specialist supplier of bespoke structural steel components including lattice beams and steel trusses for the UK construction and manufacturing industries based in the West Midlands. MLB Ltd has a history that spans over 75 years during which time they have supplied most of the UK's leading brands.

steel lattice beam stronger than a traditional dibsa structures

Dec 20 2023

a lattice beam does exactly the same thing really but can be much cheaper and easier to install due to the lattice beam weighing up to 50 less than its i beam counterpart the deeper the lattice beam within reason the stronger it is due to the depth increasing the area moment of inertia

growing steel group acquires anglian metal deck cobi global

Nov 19 2023

in september 2020 chad ward ceo of cobo solutions ltd and mlb steel ltd acquired anglian metal deck the acquisition complements the portfolio of mlb steel ltd formerly metsec lattice beams a rapidly growing designer and manufacturer of structural steel

aluminium lattice beams apollo scaffold services

Oct 18 2023

spigot connection to lattice beams designed and manufactured in britain using only british sourced aluminium apollo scaffold services can supply lattice beams nationwide please contact us for further information prices and availability

layher aluminium lattice beams information and user guide

Sep 17 2023

this guide is for original layher aluminium lattice beams only separate information on layher s steel lattice beams is available from your local layher representative

steel lattice beams the construction centre

Aug 16 2023

uk steel lattice beams manufacturers and suppliers featuring ideal building systems and metek building systems

lattice beam made in britain

Jul 15 2023

lattice beams manufactured and supplied by apollo scaffold services are available in a range of lengths from 1000mm to 8000 mm we can also supply non standard lengths made to order e g 19ft 6ins for shipping containers please contact us for more information

apollo scaffold services scaffolding component manufacturer

Jun 14 2023

apollo scaffold services manufacture and supply x beams ladder beams lattice beams safety gates and stair treads for construction and maintenance

ladder beams lattice beams suppliers arabian spar

May 13 2023

all ladder beams rungs are saddle cut to get the maximum welding length and thereby increasing the over all strength in bending and shear the ladder beams are fully compatible with the standard scaffolding coupler available in

lengths up to 6m and can produce longer length on demand from customer

lattice beams steeledale mesh

Apr 12 2023

lattice beams are a highly versatile cost effective reinforcing alternative to traditional rib and block suspended flooring systems features offers numerous design configurations and benefits minimal temporary support requirements reduces conventional reinforcing

750mm lattice beams gilray plant

Mar 11 2023

our 750mm lattice beams are available in the following industry standard lengths 2m 3m 4m 5m and 6m call 01322 442006 or email sales gilray co uk to order today or discuss delivery options high quality alloy 750mm lattice beams from a leading uk scaffold supplier

lattice spreader beams for lifting long light loads

modulift

Feb 10 2023

lattice spreader beams are ideal for long light loads where a spreader beam is deemed too short for the lift the lattice spreader beam has been designed to be lightweight so as to allow for easy transportation and storage as well as being a cost effective piece of lifting equipment

australian steel institute lattice beams technical manual

Jan 09 2023

compression shear and bending performance of x type lattice truss panel structure

omnia floor slab keegan precast

Dec 08 2022

the omnia slab is a reinforced precast concrete slab which incorporates a lattice girder to provide stiffness and facilitate the placement of the top mesh the lattice girder provides rigidity to the slab when in situ concrete

is poured on site by a local provider

lattice girder wikipedia

Nov 07 2022

a lattice girder like any girder primarily resists bending the component sections may typically include metal beams channel and angle sections with the lacing elements either metal plate strips or angle sections

lattice tower wikipedia

Oct 06 2022

a lattice tower or truss tower is a freestanding vertical framework tower this construction is widely used in transmission towers carrying high voltage electric power lines in radio masts and towers a self radiating tower or as a support for aerials and in observation towers
