regarded as the primary means of communication between a company s management and its shareholders the reports also address all other kinds of stakeholders like employees suppliers customers competitors governments potential investors bond holders and in a broad sense the entire society still it is questionable whether managers really deliver true information in their reports one possible way of obscuring corporate information when results are negative or of being forthcoming in disclosing information when results are good is to adjust the reports readability which can influence understandability as a consequence the concrete aim of this study is to focus on the readability of letters to the shareholders of bilingual german and english quarterly reports of listed companies at frankfurt stock exchange it is examined how various factors influence the readability of company reports corporate scandals and lack of confidence in our largest institutions mean that corporate social responsibility csr now matters more than ever encroaching on csr are concepts such as corporate sustainability and corporate citizenship and older concerns with business ethics business in society and the ethical corporation this significantly revised and updated version of the planetary bargain explains the relations among these concepts and reflects the author s new ideas and their new context enterprises across the world are waking up to the need for social responsibility towards shareholders and potential investors managers and other employees customers business partners and contractors or suppliers the natural environment and the communities within which they operate including national governments and non governmental organizations drawing on case studies of international companies and analysis of research from the past two decades the planetary bargain shows how corporations can preserve their profitability while treating all stakeholders ethically and responsibly it suggests a cooperative csr strategy which creates prosperity for corporations and for the people they serve it presents the case for a worldwide agreement or planetary bargain between private and public sectors arguing that it is good for business and essential for future prosperity and stability corporate financial accounting and reporting is a comprehensive accounting textbook directed at those using financial reports its aim is to help current and future managers gain a thorough understanding of companies published reports and is unique in the fact that it covers all three years of a traditional financial accounting course the text is divided into 3 parts the first covers the foundations of accounting the second part considers the components of financial statements in more depth and the third part explores how investors analyse financial statements recognising the increasingly international nature of accounting this book provides full coverage of international accounting standards with the european union s company law directives providing its legal framework corporate financial accounting and reporting is designed for international mba programmes and
