# core principles of orchestration open music theory

Apr 12 2023

example 1 chord spacing types context  
determines the best choice among these for a  
blended sound we often use integrated  
interlocking voicing taking care to balance  
the different strengths of each instrument  
according to the register conversely to  
achieve a different color for each note use  
wider spacing

## introducing prefect 3 0

Dec 08 2022

you don t even need to set up a full workflow just decorate the function call it and you ll get the full benefits of orchestration and observability this is our third generation orchestration engine and it is the fastest and most scalable one we ve ever built in many cases reducing overhead by more than 90 compared to prefect 2

## **understanding a stateful orchestration**

Nov 07 2022

understanding a stateful orchestration the lifespan of an orchestration consists of a request a prescribed set of steps and a response however certain business processes must be long lived and allow for intermediate processes that are sometimes dependent on third party services or humans by defining an orchestration as stateful you can

## **prefect 3 0 enhances data**

# workflows with transactional and

Oct 06 2022

transactional orchestration flexible  
orchestration portable orchestration  
transactional orchestration prefect 3 0 brings  
transactional semantics to your python  
workflows allowing you to group tasks into  
atomic units and define failure modes if any  
part of a transaction fails the entire  
transaction can be rolled back to a clean  
state
