story of a man and a woman coming together at a stage in their lives when all seems hopeless book review by michael radon us review of books you re in love you idiot he said stepping out of the water you can say good bye to rational thought after growing up in port moreton amber powell knew she was destined for greater things after going off to college she finds herself estranged from small town life and the subject of nasty rumors and animosity soon those rumors start to take on an ugly reality and while amber finds opportunities to make use of her business acumen she remains a target among men nearby daniel gilmour is a young man returning to the area where he grew up boarding with amber s parents in their guest house a dark secret from his recent past clings to him though nobody around him seems the wiser these two young adults gravitate towards each other romantically in a world they both feel lost in and amidst a local aboriginal legend and a series of horrific murders that seem to involve them somehow thick with personal drama and tragic backstory this is a book about the kind of melodrama that often accompanies the emotions of young love in the case of this book though the stakes and circumstances surrounding amber and daniel are high enough to match their heightened emotional states the incorporation of a native tale about a young member of a tribe who is destined to be alone forever ties neatly into the storytelling without being oppressively blunt there is a fair amount of suspense that bubbles to the surface as the police primarily a detective work their way into the cast and that rising action working in tandem with a budding romance gives this story great acceleration and intensity readers will find themselves hoping for a happy ending in what seems like a hopeless situation becoming fully invested in this well spun tale

book 2 in the rebels and patriots series it could be worse at least you re an imperial citizen anonit was a common enough phrase in the imperium but it began to ring false for paul grimm and julia urbica after their failed scouting mission at the gray world of sintel captured and carried far beyond the reach of imperial intervention they find a society that while far from perfect may actually be worth fighting for and fight they must the nearly mythical lost worlds of the beyonder colonies are embroiled in a decades old civil war that shows no signs of ending lacking the imperium s crushing taxes the war is prosecuted mainly through the licensing of privateers ships authorized by the various governments to attack and seize enemy shipping and installations as they struggle to find a solid footing in the unfamiliar society of roanoke they learn that old enemies are still out there and they re still pulling strings to keep conflict alive paul and julia must tread carefully to sort out friend from foe knowing that the slightest misstep could bring about the complete destruction of the beyonder worlds lurking just beyond their borders lies a merciless calculating enemy and the lightly armed privateers would be no match for purpose built warships being intentionally forgotten by the imperium can be a double edged sword approx 86 000 words

one hundred years after the birth of karl rahner the contributors to this book ask whether and how rahneros theology can address new religious and cultural realities in the twenty first century particularly those realities found on what has come to be called othe pacific rim o stretching from california and latin america and across the pacific ocean to asia this geographic region manifests an incredible cultural and religious diversity but also many points of intersection and interpenetration resulting in new forms of religion and spirituality the theological categories generated by rahner such as the anonymous christian and

even the notion of a world church meet steep challenges when read in contexts very different from that of germany and the theological currents of the atlantic o at the same time the encounter between rahner and the pacific rim results in fresh readings of rahner not previously imagined not only in places like china and mexico but even los angeles anchored by a seminal essay by francis x clooney s j harvard contributors include thomas sheehan stanford catherine bell santa clara and george griener s j berkeley each essay examines the possibilities and limitations of rahneros theology in this newly configured pacific world

despite the flurry of research on aspects of phoenician culture encompassing their socio economic developments and the mechanics of their settlement of mediterranean coastal lands the fundamental issue of dating phoenician achievements remains quite fluid a range of criteria textual sources artefact analysis stratigraphic data and increasingly radiocarbon readings provide a bewildering and sometimes conflicting picture of phoenician chronology which in many respects remains tenuous and free floating owing to the nature of phoenician colonisation its chronology is often compartmentalised into discrete regional units this volume brings together a number of essays focusing squarely on the chronology of the phoenician punic world ranging from the homeland to the western settlements the essays are written by specialists in their field who have encapsulated the chronological framework and the problems therein for regions touched by phoenicians interests a benchmark study beyond the homeland will be of value not only to phoenician punic scholars but also to those in related fields who need an accessible study in english to navigate the chronological complexities of the field
