what makes methodist worship methodist or wesleyan how do methodists evaluate emerging forms of worship in light of their own liturgical heritage this book considers these questions by bringing to light the work and significance of three methodist liturgists who have until now received precious little scholarly focus thomas o summers 1812 1882 nolan b harmon 1892 1993 and james f white 1932 2004 exploring each one s contribution to the methodist movement it evaluates their continuing legacies as scholars and practitioners of methodist worship importantly the work of all these men occurred during times of cultural change which gave rise to new ways of worship within the landscape of american methodism addressing them in chronological order this study shows how each figure enacted liturgical reform and renewal by drawing from the liturgical textual tradition inherited directly from john wesley s sunday service of the methodist in north america as well as the hymnody of charles wesley it also demonstrates how they sought to inculturate the wesleyan liturgical tradition in the midst of these significant changes evaluating historic and emerging trends in methodist liturgical praxis this is a book that will be of great interest to scholars of methodism the history of religion liturgical studies and theology

the historical course of christianity in the twentieth century has been strongly marked by the ecumenical movement and the liturgical movement and often these currents for the recovery of the church's unity and the renewal of its worship have flowed together in this new book author geoffrey wainwright draws on his three decades of active participation in both movements to offer a theologically informed account of what has been at stake in them what their achievements have been and what tasks remain for them to accomplish he shows how the two movements have engaged such issues as the authority and function of scripture and tradition as well as the nature of the church and sacraments in this last connection wainwright illuminates the convergence represented by the widely received lima text on baptism eucharist and ministry in the writing of which he played a prominent part the linguistic and anthropological turns that characterize twentieth century thought are reflected in the attention given to the language and ritual of worship the social location of the church is addressed in chapters that look to liturgical practices for common christian perspectives on ethics politics and culture so that discords and conflicts may be resolved and reconciled the book makes its own contribution to the symphony of praise to which the apostle paul summons christians and the churches when they will with one mind and one voice glorify the god and father of our lord jesus christ

most histories of christian worship are written as if nothing significant in liturgical history ever happened in north america as if cultural diversities were insignificant in the development of worship and as if most of what mattered were words the priest or minister addressed to god this book is a revisionist work attempting to give new direction to liturgical history by treating the experience of worship of the people in the pews as the primary liturgical document it means liturgical history written facing the other way that is looking into the chancel rather than out of it relishing the liturgical diversity of recent centuries as firm evidence of christianity s ability to adapt to a wide variety of peoples and places professor white shows that this tendency has been apparent in christian worship since its inception in the new testament churches instead of imposing one tradition s criteria on worship he tries to give a balanced and comprehensive approach to the development of the dozen or more traditions surviving in the modern world
