*Historical Dictionary of Italian Cinema* 2008-09-29 the refreshed insights into early imperial roman historiography this book offers are linked to a recent discovery in the spring of 2014 the binders of the archive of robert marichal were dusted off by the ERC funded project platinum ERC STG 2014 N 636983 in response to tiziano dorandi's recollections of a series of unpublished notes on latin texts on papyrus among these was an in progress edition of the latin rolls from herculaneum together with marichal's intuition that one of them had to be ascribed to a certain annaeus seneca platinum followed the unpublished intuition by robert marichal as one path of investigation in its own research and work working on the latin p herc 1067 led to confirm marichal's intuitions and to go beyond it p herc 1067 is the only extant direct witness to seneca the elder's *historiae* bringing a new and important chapter of latin literature arise out of a charred papyrus is significant the present volume is made up of two complementary sections each of which contains seven contributions they are in close dialogue with each other as looking at the same literary matter from several points of view yields undeniable advantages and represents an innovative and fruitful step in latin literary criticism these two sections express

the two different but interlinked axes along which the contributions were developed on one side the focus is on the starting point of the debate namely the discovery of the papyrus roll transmitting the *historiae* of Seneca the Elder and how such a discovery can be integrated with prior knowledge about this historiographical work on the other side there is a broader view on early imperial Roman historiography to which the new perspectives opened by the rediscovery of Seneca the Elder's *historiae* greatly contribute

Cultural and Linguistic Policy Abroad 2005-01-01 nelson fausto the greek myth of prometheus with its picture of a vulture feasting on its chained victim has traditionally provided a visual image of liver regeneration it is a powerful and frightening representation but if one were to substitute the vulture by a surgeon and prometheus by a patient laying on a properly prepared operating table the outcome of the procedure would not differ significantly from that described by greek poets yet few of us who work in the field have stopped long enough to ask where this myth originated did the poet observe a case of liver regeneration in a human being was it brilliant intuition or perhaps literally just a gut feeling of a poet looking for good rhymes that led to the prediction that livers grow when part of the tissue is removed this book does not attempt to solve these historical issues it does instead cover in detail some of the major modern themes of research on liver regeneration injury and repair as indicated in dr n bucher's chapter the modern phase of experimental studies on liver regeneration started in 1931 with the publication by higgins and anderson of a method to perform a two thirds resection of the liver of a rat the technique described has 3 remarkable features 1 it is highly reproducible resulting in the removal of 68 of the liver 2 it has minimal if any mortality and 3 it consists only of blood vessel ligation and does not involve cutting through or wounding hepatic tissue

**Fascist Ideology** 2000 the oxford handbook of italian politics provides a comprehensive look at the political life of one of europe's most exciting and turbulent democracies under the hegemonic influence of christian democracy in the early post world war ii decades italy went through a period of rapid growth and political transformation in part this resulted in tumult and a crisis of governability however it also gave rise to innovation in the form of eurocommunism and new forms of political accommodation the great strength of italy lay in its constitution its great weakness lay in certain legacies of the past organized crime popularly but not exclusively associated with the mafia is one example a self contained and well entrenched caste of political and economic elites is another these weaknesses became apparent in the breakdown of political order in the late 1980s and early 1990s this ushered in a combination of populist political mobilization and experimentation with electoral systems design and the result has been more evolutionary than transformative italian politics today is different from what it was during the immediate post world war ii period but it still shows many of the influences of the past
