population replacement since we can't rely on immigration to close the entire gap and the social investments especially in our children required 17 to enable Canadians to participate in the kbe crafted from a research project that lasted for three years this book examines the impacts of China's universal two child policy under the lens of education and focuses specifically on early childhood this book not only provides number projection but also the prediction and judgment of the supply and demand of service resources in early childhood education it attempts to reveal the attitudes and views of families and stakeholders on the universal two child policy and present the public's policy requirements for the quality of early childhood education in addition it analyses possible problems and challenges in current kindergarten layouts and resources allocation lastly it aims to provide references and bases for formulating the plan that adapts to changes of Chinese preschoolers supply guarantee of future early childhood education and the construction of public service system offering rich insights into the current and future status of education in China this text will be of interest to students scholars and researchers of sociology early childhood education contemporary China studies East Asian educational practices and policy this is the first book to examine the high pressure lives of teenagers born under China's one child family policy based on a survey of 2 273 students and 27 months of participant observation in Chinese homes and schools it explores the social economic and psychological consequences of the one child policy amalgamating the research on the relationship between children families and communities this book explores policy and practice implications it includes material for community development workers and is divided in to three parts theory the effect of community on children of journalism as practice core

parents and families interventions and policy implications the goal of this project is to explore possible linkages between social policy mix and outcomes for young children in canada the netherlands norway the united kingdom and the united states since the analysis is quantitative in nature the focus is primarily on the tax and transfer programmes available in the five countries that can more easily be studied using quantitative techniques the research attempts to move us toward an improved understanding of possible links between the mix of programmes available for children in any country and outcomes for children in that country the number of children living in poverty in the united states increased dramatically during the 1980s and remains high why are so many children growing up in poor families what are the effects of poverty on children s physical cognitive social and emotional development what role can public policy and policy research play in preventing or alleviating the damaging effects of poverty on children children in poverty examines these questions focusing on the child rather than on parents income or self sufficiency available open access under cc by nc licence this book is about the opportunities and challenges involved in mainstreaming knowledge about children in international development policy and practice it focuses on the ideas networks and institutions that shape the development of evidence about child poverty and wellbeing and the use of such evidence in development policy debates it also pays particular attention to the importance of power relations in influencing the extent to which children s voices are heard and acted upon by international development actors the book weaves together theory mixed method approaches and case studies spanning a number of policy sectors and diverse developing country contexts in africa asia

and latin america it therefore provides a useful introduction for students and development professionals who are new to debates on children knowledge and development whilst at the same time offering scholars in the field new methodological and empirical insights this chapter provides a brief overview of the book highlighting the modest progress from child welfare to child well being re flected in these chapters and the parallel movement in kahn s career and research as his scholarship developed over the years it then moves to explore the relationship between two overarching themes child and family policy stressing a universal approach to children and social prot tion stressing a more targeted approach to disadvantaged and vulnerable individuals including children and the complementarity of these strategies introduction to a large extent alfred j kahn was at the forefront of the developments in the eld of child welfare services protective services foster care adoption and family preservationandsupport overtimehisscholarshipmovedtoafocusonthebroader policy domain of child and family policy and the outcomes for child wellbeing his work as is true for this volume progressed from a focus on poor disadvantaged and vulnerable children to a focus on all children he was convinced that children by de nition are a vulnerable population group and that targeting all children empl ing a universal policy as a strategy would do more for poor children than a narrowly focused policy targeted on poor children alone as we rst argued more than three decades ago not for the poor alone universalism and income testing in family policy one could target the most disadvantaged within a universal framework and this would lead to more successful results than targeting only the poor this book reports on the findings of a series of studies on the development of zero to three year olds towards a theory of journalism as practice core

old chinese children supported by the fundamental research funds for the central universities the studies were conducted by a research group at the institute of early childhood education beijing normal university in the first part of the book findings concerning the developmental trajectory are presented including physical and motor development cognitive development language development social and emotional development the focus of the second part is on the effect of family environment and practices specifically the authors provide empirical evidence allowing readers to better understand how the home environment and educational practice in the family impact the psychological development of children in their early years in the last part culture specific issues like the new universal two child policy in china are discussed most of the parts are based on large scale investigations and analysis of the status quo complemented by small sample studies and case studies the findings presented here will promote theory building and public understanding of early care and education in china moreover the behavior observation scales and assessment tools developed by the research group are cultural appropriate and may serve as a foundation for further studies on early care and education in the chinese cultural context child poverty and the well being of children is an important policy issue throughout the industrialised world some 47 million children in rich countries live in families so poor that their health and well being are at risk the main themes addressed are the extent and trend of child poverty in industrialised nations outcomes for children for example the relationship between childhood experiences and children s health country studies and emerging issues child and family policies all the contributions underline the urgent need for a comprehensive policy to

reduce child poverty rates and to improve the well being of children findings are clearly presented and key focus points identified for policy makers to consider at the forefront of the child development research and social policy movement is edward zigler whose knowledge for action approach has revolutionized the way public policy is enacted to better serve vulnerable youth populations this resource expands on dr zigler s work in integrating the fields of child development and social policy while using scientific knowledge for action as the model hearing the voices of children provides a fresh perspective on social policy at the heart of the book is the emergence of children s voices and the implications of this for social policy the authors argue that children s voices should be heard much more strongly in the process of policy formation at all levels although there is growing support for this idea it is not without opposition and the authors themselves make many critical points about the current attempts to put it into practice the book is divided into four main themes hearing children s voices discourses of childhood children and services and resources for children childhood experts from the uk scandinavia germany and australia examine how assumptions and models about childhood and discuss ways in which children s voices might become more influential in shaping policy there are many obstacles to overcome but the contributors to this volume show that children s participation is possible and needed if services are to be improved this book is essential reading for students and academics in the field of childhood studies sociology social policy and education it will also be of interest to practitioners in the social child and youth services this book is among the first to comprehensively examine the far reaching impact of china s new fertility policies on early education

and development since the beginning of the 21st century china has entered a period of declining fertility rate and aging population which poses a serious threat to its sustainable development to address this crisis china has radically revised its fertility policy through the state s guidance for regulating couples reproductive choices abandoning its iconic one child policy and adopting the selective two child 2013 universal two child 2016 and then the three child 2021 policy drawing on empirical evidence obtained through various research methods this book offers multidisciplinary perspectives on the far reaching impact of these policies part i summarizes the lessons learned from new fertility policies and identifies important directions for future research focusing on two major microsystems part ii presents research assessing families fertility desire for an additional child and projecting the demand for preschool education part iii attends to family dynamics and their relation to early learning and development for both only and non only children part iv addresses the importance of expanding access to affordable and high quality early childhood education and care for children from birth through age 6 the impact of new fertility policies on early education and development in china contributes to policy development and practical improvement and serves as a catalyst to stimulate future studies on the topic it will be a valuable resource for researchers policymakers and practitioners of early childhood education and care as well as for families of young children the chapters in this book were originally published as a special issue of early education and development child well being which covers everything from family relationships to their material well being is now increasingly being talked about in policy and practice nationally and internationally however a

lack of clarity remains about what the idea really means and how it can help children this book brings together contributions from international experts in order to define child well being and to further understand how it can improve children s lives issues covered include how the idea is being used in government policy and practice in the uk and usa how children can contribute to the understanding of child well being recent advances in the exploration of indicators and measures of well being and the importance of context in making comparisons a concluding chapter explores whether child well being is a useful concept in understanding children s lives whether it positively contributes to policy and practice and the value of international comparisons this edited collection is essential reading for all those involved in understanding children s lives and who have responsibility for improving them including practitioners policymakers students and academics this book brings together insights from a range of disciplines including law sociology criminology and history to identify and explain the complex and inter related factors which help or hinder the state to invest in children and young people the first part of the book examines the intangibles the ideologies social constructions and moral precepts which obstruct or encourage the passage and full implementation of legislation policy and practice which hopes to improve the lives and prospects of children and young people notions of family and parental responsibility assumptions about what children and young people are and the extent to which they should be held accountable and ideas around state investment against future risks are the key factors considered the second part of the book focuses on the difficulties in practice of implementing policies aimed at investing in children s lives and futures it reviews the role of science in the identification

of risk factors related to poor outcomes for children and in the selection of target groups or areas for risk based intervention to provide early support and preventative programmes for children and their families it also assesses whether and how law does or could help to deliver an appropriate investment of time and money in children with a focus on the existence and effectiveness of a rights based approach the final chapters examine the results of research so far undertaken done on selected programmes in the every child matters social inclusion and youth justice board policy agendas and they indentify promising developments however they also draw attention to the alternative agendas around children and young people which are competing for government money and the public s support and warn that there are dangers in a child focused policy whose justification relies so heavily on future cost savings stemming from the production of healthier more employable and law abiding adults this volume presents key findings from the eu funded measuring youth well being myweb project which assessed the feasibility of a european longitudinal study for children and young people elscyp it draws on the original empirical data from a panel of experts in the field of child well being as well as field experiences from a number of european countries myweb explored strategies and methodological challenges for involving children and young people in well being research in order to fight poverty and social exclusion it does so by evaluating different options to measure the well being of children and young people across europe using a child centric approach written by experts researching children and young people from a variety of disciplinary backgrounds in the areas of sociology psychology political science education philosophy economics social policy and evaluation adolescent neglect is a significant

problem within child protection but focus on child neglect and other forms of maltreatment means that it can often be overlooked this book outlines how adolescent neglect differs from child neglect the context of why it is overlooked how it is defined the causes and consequences of neglect young people s views and what professionals can do based on original research the book establishes an evidence base and considers the implications for policy and practice the concluding chapter sets out a practice based framework for recognizing and working with adolescent neglect each chapter includes reflection points to stimulate thinking on key issues this will be essential reading for all those who work with young people particularly those in social work health services and education as well as academics policymakers and students in these fields the handbook of family policy examines how state and workplace policies support parents and their children in developing earning and caring with original contributions from 44 leading scholars this handbook provides readers with up to date knowledge on family policies and family policy research taking stock of current literature as well as providing analyses of present day policies and where they should head in the future this book examines china s fertility transition over the past seven decades and explores the socioeconomic impacts of the two child policy the first half of this book highlights the characteristics of china s low fertility and the risk of falling to an ultra low state aiming to answer the question how china s fertility is changing and evolving how low is china s fertility what are the demographic structure driving forces and institutional characteristics of china s low fertility the second half models the impacts of the two child policy on china s population trends and demands for women infant and child health services and

education resources for preschool compulsive education addressing the questions of how the two child policy affects fertility behaviours of chinese women particularly the second child fertility how would the two child policy impact china s future population trends particularly labour supply and population aging what are the consequences for obstetrics and gynaecological services paediatrics and childcare services and for school capacity and demand for teachers over compulsory education the book will be an essential read for students and scholars of chinese studies population and demography studies and those interested in contemporary china population politics are a major issue in china susan greenhaigh explores the origins and development of the one child policy from the late 1970s to the present day showing how sociopolitical life in china has been subject to scientization and statisticalization co published by routledge for the american educational research association aera educational policy continues to be of major concern policy debates about economic growth and national competitiveness for example commonly focus on the importance of human capital and a highly educated workforce defining the theoretical boundaries and methodological approaches of education policy research are the two primary themes of this comprehensive aera sponsored handbook organized into seven sections the handbook focuses on 1 disciplinary foundations of educational policy 2 methodological perspectives 3 the policy process 4 resources management and organization 5 teaching and learning policy 6 actors and institutions and 7 education access and differentiation drawing from multiple disciplines the handbook s over one hundred authors address three central questions what policy issues and questions have oriented current policy research what research strategies and methods have proven

most fruitful and what issues questions and methods will drive future policy research topics such as early childhood education school choice access to higher education teacher accountability and testing and measurement cut across the 63 chapters in the volume the politics surrounding these and other issues are objectively analyzed by authors and commentators each of the seven sections concludes with two commentaries by leading scholars in the field the first considers the current state of policy design and the second addresses the current state of policy research this book is appropriate for scholars and graduate students working in the field of education policy and for the growing number of academic government and think tank researchers engaged in policy research for more information on the american educational research association please visit aera net this nordic child is often considered competent as a family member a pupil a consumer or a citizen looking more in depth one finds that the idea of the competent child is intimately linked to the modern project and to ideas of children as rational beings children in their own right this book is the result of an intense debate within the nordbarn research network funded by the nordic research academy for five years the contributors are researchers from denmark finland iceland norway and sweden representing several discipline such as pedagogics social work ethnology and media studies the book consists of four parts focusing on child policies and child participation school and day care market and consumption and finally an attempt to rethink the concept of becoming child in the new millennium barnett and boocock present a multi disciplinary assessment of the long term outcomes of early care and education in the united states and abroad innovative new research together with up to date comprehensive reviews provide lessons for the design of early childhood programs

policies and research contributors from the fields of education psychology sociology and economics address questions about the causal relationships through which early childhood programs produce their long term effects the characteristics of effective early childhood programs how nations respond to the global social and economic trends that are changing the lives of children and their families everywhere child care s effects on maternal labor force participation the potential and perils of welfare reform and the implications of national economic and political structures for early care and education policies a unique feature of the book is its attention to the practical problems of conducting research to support public policy development translating research results into public policy and improving communication between researchers and policy makers the research presented in this important volume clearly establishes that early care and education can permanently improve the lives of children in poverty provides research based recommendations for achieving that goal through public policy and sets an agenda for future research on early care and education s long term outcomes epub what is the unique mission of developmental psychology how has it evolved historically what are its current challenges the chapters in this collection present the view that research history and policy are essential and interlocking components of a mature developmental psychology patterns of human development differ markedly across historical epochs cultures and social circumstances major societal changes examined by contributing authors the advent of universal compulsory schooling the adoption of a one child policy in china us policy shifts in healthcare welfare and childcare present natural experiments in social design authors challenge the idea of a clear distinction between basic and applied developmental research in sharp

contrast with the view that science is value neutral developmental psychologists have from the outset pursued the betterment of children and families through educational childcare and health initiatives an historical perspective reveals the beneficial if sometimes contentious interplay between empirical research and social programs and policies chinese childhood is undergoing a major transformation this book explores how government policies introduced in china over the last few decades and processes of social and economic change are reshaping the lives of children and the meanings of childhood in complex contradictory ways drawing on a broad range of literature and original ethnographic research naftali explores the rise of new ideas of child care child vulnerability and child agency the impact of the one child policy and the emergence of children as independent consumers in the new market economy she shows that chinese boys and increasingly girls too are enjoying a new empowerment a development that has met with ambiguity and resistance from both caregivers and the state she also demonstrates how economic restructuring and the recent waves of rural urban migration have produced starkly unequal conditions for children s education and development both in the countryside and in the cities children in china is essential reading for students and scholars seeking a deeper understanding of what it means to be a child in contemporary china as well as for those concerned with the changing relationship between children the state and the family in the global era abstract this paper examines the determinants of child nutritional status in seven provinces of china during the 1990s focusing specifically on the role of two areas of public policy namely health system reforms and the one child policy the empirical relationship between income and nutritional status and the extent to which that

relationship is mediated by access to quality healthcare and being an only child is investigated using ordinary least squares random effects fixed effects and instrumental variables models in the preferred model a fixed effects model where income is instrumented the author find that being an only child increases height for age z scores by 0.119 of a standard deviation the magnitude of this effect is found to be largely gender and income neutral by contrast access to quality healthcare and income is not found to be significantly associated with improved nutritional status in the preferred model data are drawn from four waves of the china health and nutrition survey developed for an nih training institute this volume is organized around the most frequently asked questions by researchers starting their careers in applied research in child and adolescent development with contributions from the leading scholars in the field actual research experiences highlight the challenges one faces in conducting such research the techniques and theoretical frameworks most suitable for guiding the applied research process are reviewed along with related ethical and cultural considerations each chapter features the authors introduction to their own careers in applied research also included are practical tips case studies and sidebars featuring frequently asked questions this practical resource provides tips on how to modify the most frequently used methodological techniques while maintaining the integrity of the data manage the unpredictable nature of real world research frame community relevant research questions in an academically acceptable way secure funding to conduct applied research disseminate the research results so as to have the greatest impact on policy and practice the book opens with the most frequently asked questions tips on getting started in an applied research career and an overview of

framework for generating applied developmental research ideas section 2 focuses on research designs including the most frequently used methodological and measurement techniques and tips on how to modify them to applied settings ethical challenges and cultural issues in working with special populations are also addressed section 3 focuses on conducting applied research in school community and clinical settings with an emphasis on the challenges encountered when conducting actual research as opposed to the more controlled settings taught in a classroom guidelines for protecting the populations involved in the study and strategies for recruiting and retaining participants are also addressed the book concludes with strategies for disseminating research findings so as to have the greatest impact on policy and practice for publishing research and for securing funding intended as a practical guide this book is ideal for those just starting their careers in applied research for students preparing their dissertations and for the faculty who prepare these students the book s accessible approach also appeals to researchers in the behavioral social and health sciences education and those in government and industry this practical text equips students researchers and policymakers in the social sciences with the tools they need for applying mixed methods in policy research and program evaluation from design through data collection and dissemination emphasizing the how to the set of conceptual and active tasks carried out by mixed methods researchers the book is illustrated with rich case studies from the authors own research projects in education and public policy these examples help readers identify and explain policy and program impacts and better understand the why and how of observed effects throughout the book the authors describe challenges that both beginners and

advanced scholars are likely to encounter when doing mixed methods research and recommend practical tools available to address them child poverty is currently regarded by many as the number one issue in britain yet it has not always been so high on the policy agenda what were attitudes to poor children 200 years ago how did child poverty emerge as both a quantifiable and urgent issue and how did policy makers respond these are the questions that this book tackles the book presents a broad but sophisticated overview of 200 years of investigation into and responses to the plight of poor children identifies key moments and figures of the period includes chapters on children and work education and child poverty research to provide the essential context for the story of the discovery of child poverty clearly and accessibly written this book provides a concise but richly detailed account of the subject it will appeal to policy makers practitioners researchers and all those with an interest in child poverty wishing to understand the antecedents of current research and policy studies in poverty inequality and social exclusion series series editor david gordon director townsend centre for international poverty research poverty inequality and social exclusion remain the most fundamental problems that humanity faces in the 21st century this exciting series published in association with the townsend centre for international poverty research at the university of bristol aims to make cutting edge poverty related research more widely available for other titles in this series please follow the series link from the main catalogue page as did previous volumes in this series this volume reviews recent developments in population and employment related issues in china special attention is given to the universal two child policy and challenges facing women in the workforce and highly educated single

women published in association with save the children priscilla alderson examines the often overlooked issue of the rights of young children starting with the question of how the 1989 un convention on the rights of the child applies to the youngest children from birth to eight years of age the question of finding a balance between young children s rights to protection to provision resources and services and to participation expressing their views being responsible is discussed the author suggests that in the belief we are looking after their best interests we have become overprotective of children and deny them the freedom to be expressive creative and active and that improving the way adults and children communicate is the best way of redressing that balance this second edition has been updated and expanded to include the relevance of uncr rights of premature babies international examples such as the chinese one child policy children s influence on regional policies and the influence on young children s lives of policies such as every child matters and those of the world bank imf oecd and unicef this readable informative and thought provoking book is a compelling invitation to rethink our attitudes to young children s rights in the light of new theories research and practical evidence about children s daily lives it will be of interest to anyone who works with young children

"No Small Matter" 2022-05-04 we could discuss the various forces which have led to these changes the ideals of second wave feminism launched in the 1960s changes in families including the rise in the rate of separations and divorce and or the fall in average male wages which has been particularly pronounced in Canada and the US what I am trying to get at here is better captured in the CPRN study what is the best policy mix for Canada's young children which uses a nested locales metaphor to reflect on the kind of world children live and develop in children are nested in multiple environments the child within the family the family within the larger communities of neighbourhoods and workplaces the community as define one of the questions I have is will the social union framework agreement and the national children's agenda that it has spawned provide a new basis for sustainable subsidiarity these two dimensions help us to get a handle on Canada's child policies as a response to the challenges posed by the decline of the male breadwinner family norm the population replacement issue and the emergence the optimist in me wants to say that the agenda which is one of the key pieces of the social policy renewal process in which the federal provincial and territorial governments are engaged represents a new opening a new possibility for establishing social democratic style child policies in the context of sustainable subsidiarity my grounds for optimism include the challenges I started out with the care crisis posed by the erosion of the male breadwinner family the need to do a better job of ensuring population replacement since we can't rely on immigration to close the entire gap and the social investments especially in our children required 17 to enable Canadians to participate in the Embracing the New Two-Child Policy Era 2004 crafted from a research project that lasted for

three years this book examines the impacts of china's universal two child policy under the lens of education and focuses specifically on early childhood this book not only provides number projection but also the prediction and judgment of the supply and demand of service resources in early childhood education it attempts to reveal the attitudes and views of families and stakeholders on the universal two child policy and present the public's policy requirements for the quality of early childhood education in addition it analyses possible problems and challenges in current kindergarten layouts and resources allocation lastly it aims to provide references and bases for formulating the plan that adapts to changes of chinese preschoolers supply guarantee of future early childhood education and the construction of public service system offering rich insights into the current and future status of education in china this text will be of interest to students scholars and researchers of sociology early childhood education contemporary china studies east asian educational practices and policy

Only Hope 2006-05-18 this is the first book to examine the high pressure lives of teenagers born under china's one child family policy based on a survey of 2 273 students and 27 months of participant observation in chinese homes and schools it explores the social economic and psychological consequences of the one child policy

Children and Families in Communities 1999 amalgamating the research on the relationship between children families and communities this book explores policy and practice implications it includes material for community development workers and is divided in to three parts theory the effect of community on children parents and families interventions and policy implications

An International Comparison of Policies and

Outcomes for Young Children 2009 the goal of this project is to explore possible linkages between social policy mix and outcomes for young children in Canada the Netherlands Norway the United Kingdom and the United States since the analysis is quantitative in nature the focus is primarily on the tax and transfer programmes available in the five countries that can more easily be studied using quantitative techniques the research attempts to move us toward an improved understanding of possible links between the mix of programmes available for children in any country and outcomes for children in that country

A Comparison of Policies Designed to Enhance Child Well-being 1975 the number of children living in poverty in the United States increased dramatically during the 1980s and remains high why are so many children growing up in poor families what are the effects of poverty on children's physical cognitive social and emotional development what role can public policy and policy research play in preventing or alleviating the damaging effects of poverty on children children in poverty examines these questions focusing on the child rather than on parents income or self sufficiency

Eight City Study of Child Political Socialization 1991 available open access under CC BY-NC licence this book is about the opportunities and challenges involved in mainstreaming knowledge about children in international development policy and practice it focuses on the ideas networks and institutions that shape the development of evidence about child poverty and wellbeing and the use of such evidence in development policy debates it also pays particular attention to the importance of power relations in influencing the extent to which children's voices are heard and acted upon by international development actors the book weaves together theory mixed method

approaches and case studies spanning a number of policy sectors and diverse developing country contexts in africa asia and latin america it therefore provides a useful introduction for students and development professionals who are new to debates on children knowledge and development whilst at the same time offering scholars in the field new methodological and empirical insights

Children in Poverty 2011-02-23 this chapter provides a brief overview of the book highlighting the modest progress from child welfare to child well being re ected in these chapters and the parallel movement in kahn s career and research as his scholarship developed over the years it then moves to explore the relationship between two overarching themes child and family policy stressing a universal approach to children and social prot tion stressing a more targeted approach to disadvantaged and vulnerable individuals including children and the complementarity of these strategies introduction to a large extent alfred j kahn was at the forefront of the developments in the eld of child welfare services protective services foster care adoption and family preservationandsupport overtimehisscholarshipmovedtoaafocusonthebroader policy domain of child and family policy and the outcomes for child wellbeing his work as is true for this volume progressed from a focus on poor disadvantaged and vulnerable children to a focus on all children he was convinced that children by de nition are a vulnerable population group and that targeting all children empl ing a universal policy as a strategy would do more for poor children than a narrowly focused policy targeted on poor children alone as we rst argued more than three decades ago not for the poor alone universalism and income testing in family policy one could target the most disadvantaged within a universal framework and this would lead to more

successful results than targeting only the poor

Child poverty, evidence and policy 2009-10-23 this book reports on the findings of a series of studies on the development of zero to three year old chinese children supported by the fundamental research funds for the central universities the studies were conducted by a research group at the institute of early childhood education beijing normal university in the first part of the book findings concerning the developmental trajectory are presented including physical and motor development cognitive development language development social and emotional development the focus of the second part is on the effect of family environment and practices specifically the authors provide empirical evidence allowing readers to better understand how the home environment and educational practice in the family impact the psychological development of children in their early years in the last part culture specific issues like the new universal two child policy in china are discussed most of the parts are based on large scale investigations and analysis of the status quo complemented by small sample studies and case studies the findings presented here will promote theory building and public understanding of early care and education in china moreover the behavior observation scales and assessment tools developed by the research group are cultural appropriate and may serve as a foundation for further studies on early care and education in the chinese cultural context

From Child Welfare to Child Well-Being 1985-07-22 child poverty and the well being of children is an important policy issue throughout the industrialised world some 47 million children in rich countries live in families so poor that their health and well being are at risk the main themes addressed are the extent and trend of child poverty in industrialised nations outcomes for

children for example the relationship between childhood experiences and children's health country studies and emerging issues child and family policies all the contributions underline the urgent need for a comprehensive policy to reduce child poverty rates and to improve the well-being of children findings are clearly presented and key focus points identified for policy makers to consider

China's One-Child Family Policy 2019-08-28 at the forefront of the child development research and social policy movement is Edward Zigler whose knowledge for action approach has revolutionized the way public policy is enacted to better serve vulnerable youth populations this resource expands on Dr Zigler's work in integrating the fields of child development and social policy while using scientific knowledge for action as the model

Research on the Development and Education of 0-3-Year-Old Children in China 2001-02-23 hearing the voices of children provides a fresh perspective on social policy at the heart of the book is the emergence of children's voices and the implications of this for social policy the authors argue that children's voices should be heard much more strongly in the process of policy formation at all levels although there is growing support for this idea it is not without opposition and the authors themselves make many critical points about the current attempts to put it into practice the book is divided into four main themes hearing children's voices discourses of childhood children and services and resources for children childhood experts from the UK Scandinavia Germany and Australia examine how assumptions and models about childhood and discuss ways in which children's voices might become more influential in shaping policy there are many obstacles to overcome but the contributors to this volume show that children's participation is possible and needed if services

are to be improved this book is essential reading for students and academics in the field of childhood studies sociology social policy and education it will also be of interest to practitioners in the social child and youth services

Child well-being, child poverty and child policy

in modern nations 2000-01-01 this book is among the first to comprehensively examine the far reaching impact of china s new fertility policies on early education and development since the beginning of the 21st century china has entered a period of declining fertility rate and aging population which poses a serious threat to its sustainable development to address this crisis china has radically revised its fertility policy through the state s guidance for regulating couples reproductive choices abandoning its iconic one child policy and adopting the selective two child 2013 universal two child 2016 and then the three child 2021 policy drawing on empirical evidence obtained through various research methods this book offers multidisciplinary perspectives on the far reaching impact of these policies part i summarizes the lessons learned from new fertility policies and identifies important directions for future research focusing on two major microsystems part ii presents research assessing families fertility desire for an additional child and projecting the demand for preschool education part iii attends to family dynamics and their relation to early learning and development for both only and non only children part iv addresses the importance of expanding access to affordable and high quality early childhood education and care for children from birth through age 6 the impact of new fertility policies on early education and development in china contributes to policy development and practical improvement and serves as a catalyst to stimulate future studies on the

topic it will be a valuable resource for researchers policymakers and practitioners of early childhood education and care as well as for families of young children the chapters in this book were originally published as a special issue of early education and development

Children's Voices 2007 child well being which covers everything from family relationships to their material well being is now increasingly being talked about in policy and practice nationally and internationally however a lack of clarity remains about what the idea really means and how it can help children this book brings together contributions from international experts in order to define child well being and to further understand how it can improve children s lives issues covered include how the idea is being used in government policy and practice in the uk and usa how children can contribute to the understanding of child well being recent advances in the exploration of indicators and measures of well being and the importance of context in making comparisons a concluding chapter explores whether child well being is a useful concept in understanding children s lives whether it positively contributes to policy and practice and the value of international comparisons this edited collection is essential reading for all those involved in understanding children s lives and who have responsibility for improving them including practitioners policymakers students and academics

Child Development and Social Policy 2003-12-16 this book brings together insights from a range of disciplines including law sociology criminology and history to identify and explain the complex and inter related factors which help or hinder the state to invest in children and young people the first part of the book examines the intangibles the ideologies social constructions and moral precepts which obstruct or encourage the passage

and full implementation of legislation policy and practice which hopes to improve the lives and prospects of children and young people notions of family and parental responsibility assumptions about what children and young people are and the extent to which they should be held accountable and ideas around state investment against future risks are the key factors considered the second part of the book focuses on the difficulties in practice of implementing policies aimed at investing in children's lives and futures it reviews the role of science in the identification of risk factors related to poor outcomes for children and in the selection of target groups or areas for risk based intervention to provide early support and preventative programmes for children and their families it also assesses whether and how law does or could help to deliver an appropriate investment of time and money in children with a focus on the existence and effectiveness of a rights based approach the final chapters examine the results of research so far undertaken done on selected programmes in the every child matters social inclusion and youth justice board policy agendas and they identify promising developments however they also draw attention to the alternative agendas around children and young people which are competing for government money and the public's support and warn that there are dangers in a child focused policy whose justification relies so heavily on future cost savings stemming from the production of healthier more employable and law abiding adults

Hearing the Voices of Children 2023 this volume presents key findings from the eu funded measuring youth well being myweb project which assessed the feasibility of a european longitudinal study for children and young people elscyp it draws on the original empirical data from a panel of experts in the field of child well being as well as field

experiences from a number of european countries myweb explored strategies and methodological challenges for involving children and young people in well being research in order to fight poverty and social exclusion it does so by evaluating different options to measure the well being of children and young people across europe using a child centric approach written by experts researching children and young people from a variety of disciplinary backgrounds in the areas of sociology psychology political science education philosophy economics social policy and evaluation

The Impact of New Fertility Policies on Early Education and Development in China 2011-02-15

adolescent neglect is a significant problem within child protection but focus on child neglect and other forms of maltreatment means that it can often be overlooked this book outlines how adolescent neglect differs from child neglect the context of why it is overlooked how it is defined the causes and consequences of neglect young people s views and what professionals can do based on original research the book establishes an evidence base and considers the implications for policy and practice the concluding chapter sets out a practice based framework for recognizing and working with adolescent neglect each chapter includes reflectionpoints to stimulate thinking on key issues this will be essential reading for all those who work with young people particularly those in social work health services and education as well as academics policymakers and students in these fields

Child Well-Being 2013-05-13 the handbook of family policy examines how state and workplace policies support parents and their children in developing earning and caring with original contributions from 44 leading scholars this handbook provides readers with up to date knowledge on family

policies and family policy research taking stock of current literature as well as providing analyses of present day policies and where they should head in the future

Investing in Children 2018-05-15 this book examines china s fertility transition over the past seven decades and explores the socioeconomic impacts of the two child policy the first half of this book highlights the characteristics of china s low fertility and the risk of falling to an ultra low state aiming to answer the question how china s fertility is changing and evolving how low is china s fertility what are the demographic structure driving forces and institutional characteristics of china s low fertility the second half models the impacts of the two child policy on china s population trends and demands for women infant and child health services and education resources for preschool compulsive education addressing the questions of how the two child policy affects fertility behaviours of chinese women particularly the second child fertility how would the two child policy impact china s future population trends particularly labour supply and population aging what are the consequences for obstetrics and gynaecological services paediatrics and childcare services and for school capacity and demand for teachers over compulsory education the book will be an essential read for students and scholars of chinese studies population and demography studies and those interested in contemporary china

Measuring Youth Well-being 2011-08-15 population politics are a major issue in china susan greenhaigh explores the origins and development of the one child policy from the late 1970s to the present day showing how sociopolitical life in china has been subject to scientization and statisticalization

Adolescent Neglect 2002 co published by routledge

for the american educational research association
aera educational policy continues to be of major
concern policy debates about economic growth and
national competitiveness for example commonly
focus on the importance of human capital and a
highly educated workforce defining the theoretical
boundaries and methodological approaches of
education policy research are the two primary
themes of this comprehensive aera sponsored
handbook organized into seven sections the
handbook focuses on 1 disciplinary foundations of
educational policy 2 methodological perspectives 3
the policy process 4 resources management and
organization 5 teaching and learning policy 6
actors and institutions and 7 education access and
differentiation drawing from multiple disciplines
the handbook s over one hundred authors address
three central questions what policy issues and
questions have oriented current policy research
what research strategies and methods have proven
most fruitful and what issues questions and
methods will drive future policy research topics
such as early childhood education school choice
access to higher education teacher accountability
and testing and measurement cut across the 63
chapters in the volume the politics surrounding
these and other issues are objectively analyzed by
authors and commentators each of the seven
sections concludes with two commentaries by
leading scholars in the field the first considers
the current state of policy design and the second
addresses the current state of policy research
this book is appropriate for scholars and graduate
students working in the field of education policy
and for the growing number of academic government
and think tank researchers engaged in policy
research for more information on the american

The Child Care Policy that Wasn't 2018-11-30 this

nordic child is often considered competent as a family member a pupil a consumer or a citizen looking more in depth one finds that the idea of the competent child is intimately linked to the modern project and to ideas of children as rational beings children in their own right this book is the result of an intense debate within the nordbarn research network funded by the nordic research academy for five years the contributors are researchers from denmark finland iceland norway and sweden representing several discipline such as pedagogics social work ethnology and media studies the book consists of four parts focusing on child policies and child participation school and day care market and consumption and finally an attempt to rethink the concept of becoming child in the new millennium

Handbook of Family Policy 2002 barnett and boocock present a multi disciplinary assessment of the long term outcomes of early care and education in the united states and abroad innovative new research together with up to date comprehensive reviews provide lessons for the design of early childhood programs policies and research contributors from the fields of education psychology sociology and economics address questions about the causal relationships through which early childhood programs produce their long term effects the characteristics of effective early childhood programs how nations respond to the global social and economic trends that are changing the lives of children and their families everywhere child care s effects on maternal labor force participation the potential and perils of welfare reform and the implications of national economic and political structures for early care and education policies a unique feature of the book is its attention to the practical problems of conducting research to support public policy development translating research results into

public policy and improving communication between researchers and policy makers the research presented in this important volume clearly establishes that early care and education can permanently improve the lives of children in poverty provides research based recommendations for achieving that goal through public policy and sets an agenda for future research on early care and education s long term outcomes

Making a Difference in the Lives of Infants and Toddlers and Their Families: Local contributions to understanding the programs and their impacts
2023-08-25 epub

China's Low Fertility and the Impacts of the Two-Child Policy 2008 what is the unique mission of developmental psychology how has it evolved historically what are its current challenges the chapters in this collection present the view that research history and policy are essential and interlocking components of a mature developmental psychology patterns of human development differ markedly across historical epochs cultures and social circumstances major societal changes examined by contributing authors the advent of universal compulsory schooling the adoption of a one child policy in china us policy shifts in healthcare welfare and childcare present natural experiments in social design authors challenge the idea of a clear distinction between basic and applied developmental research in sharp contrast with the view that science is value neutral developmental psychologists have from the outset pursued the betterment of children and families through educational childcare and health initiatives an historical perspective reveals the beneficial if sometimes contentious interplay between empirical research and social programs and policies

Just One Child 2012-09-10 chinese childhood is undergoing a major transformation this book

explores how government policies introduced in china over the last few decades and processes of social and economic change are reshaping the lives of children and the meanings of childhood in complex contradictory ways drawing on a broad range of literature and original ethnographic research naftali explores the rise of new ideas of child care child vulnerability and child agency the impact of the one child policy and the emergence of children as independent consumers in the new market economy she shows that chinese boys and increasingly girls too are enjoying a new empowerment a development that has met with ambiguity and resistance from both caregivers and the state she also demonstrates how economic restructuring and the recent waves of rural urban migration have produced starkly unequal conditions for children s education and development both in the countryside and in the cities children in china is essential reading for students and scholars seeking a deeper understanding of what it means to be a child in contemporary china as well as for those concerned with the changing relationship between children the state and the family in the global era

Handbook of Education Policy Research 1999

abstract this paper examines the determinants of child nutritional status in seven provinces of china during the 1990s focusing specifically on the role of two areas of public policy namely health system reforms and the one child policy the empirical relationship between income and nutritional status and the extent to which that relationship is mediated by access to quality healthcare and being an only child is investigated using ordinary least squares random effects fixed effects and instrumental variables models in the preferred model a fixed effects model where income is instrumented the author find that being an only child increases height for age z scores by 0.119

of a standard deviation the magnitude of this effect is found to be largely gender and income neutral by contrast access to quality healthcare and income is not found to be significantly associated with improved nutritional status in the preferred model data are drawn from four waves of the china health and nutrition survey

What is the Best Policy Mix for Canada's Young Children? [computer File] 2004 developed for an nih training institute this volume is organized around the most frequently asked questions by researchers starting their careers in applied research in child and adolescent development with contributions from the leading scholars in the field actual research experiences highlight the challenges one faces in conducting such research the techniques and theoretical frameworks most suitable for guiding the applied research process are reviewed along with related ethical and cultural considerations each chapter features the authors introduction to their own careers in applied research also included are practical tips case studies and sidebars featuring frequently asked questions this practical resource provides tips on how to modify the most frequently used methodological techniques while maintaining the integrity of the data manage the unpredictable nature of real world research frame community relevant research questions in an academically acceptable way secure funding to conduct applied research disseminate the research results so as to have the greatest impact on policy and practice the book opens with the most frequently asked questions tips on getting started in an applied research career and an overview of and theoretical framework for generating applied developmental research ideas section 2 focuses on research designs including the most frequently used methodological and measurement techniques and tips on how to modify them to applied settings ethical

challenges and cultural issues in working with special populations are also addressed section 3 focuses on conducting applied research in school community and clinical settings with an emphasis on the challenges encountered when conducting actual research as opposed to the more controlled settings taught in a classroom guidelines for protecting the populations involved in the study and strategies for recruiting and retaining participants are also addressed the book concludes with strategies for disseminating research findings so as to have the greatest impact on policy and practice for publishing research and for securing funding intended as a practical guide this book is ideal for those just starting their careers in applied research for students preparing their dissertations and for the faculty who prepare these students the book s accessible approach also appeals to researchers in the behavioral social and health sciences education and those in government and industry

Beyond the Competent Child 1998-03-19 this practical text equips students researchers and policymakers in the social sciences with the tools they need for applying mixed methods in policy research and program evaluation from design through data collection and dissemination emphasizing the how to the set of conceptual and active tasks carried out by mixed methods researchers the book is illustrated with rich case studies from the authors own research projects in education and public policy these examples help readers identify and explain policy and program impacts and better understand the why and how of observed effects throughout the book the authors describe challenges that both beginners and advanced scholars are likely to encounter when doing mixed methods research and recommend practical tools available to address them
Early Care and Education for Children in Poverty

2011-12-13 child poverty is currently regarded by many as the number one issue in Britain yet it has not always been so high on the policy agenda what were attitudes to poor children 200 years ago how did child poverty emerge as both a quantifiable and urgent issue and how did policy makers respond these are the questions that this book tackles the book presents a broad but sophisticated overview of 200 years of investigation into and responses to the plight of poor children identifies key moments and figures of the period includes chapters on children and work education and child poverty research to provide the essential context for the story of the discovery of child poverty clearly and accessibly written this book provides a concise but richly detailed account of the subject it will appeal to policy makers practitioners researchers and all those with an interest in child poverty wishing to understand the antecedents of current research and policy studies in poverty inequality and social exclusion series series editor David Gordon director Townsend Centre for International Poverty Research poverty inequality and social exclusion remain the most fundamental problems that humanity faces in the 21st century this exciting series published in association with the Townsend Centre for International Poverty Research at the University of Bristol aims to make cutting edge poverty related research more widely available for other titles in this series please follow the series link from the main catalogue page *Childhood Poverty* 1997 as did previous volumes in this series this volume reviews recent developments in population and employment related issues in China special attention is given to the universal two child policy and challenges facing women in the workforce and highly educated single women

Using Research to Improve Child Care for Low-

income Families 2005-03-14 published in association with save the children priscilla alderson examines the often overlooked issue of the rights of young children starting with the question of how the 1989 un convention on the rights of the child applies to the youngest children from birth to eight years of age the question of finding a balance between young children s rights to protection to provision resources and services and to participation expressing their views being responsible is discussed the author suggests that in the belief we are looking after their best interests we have become overprotective of children and deny them the freedom to be expressive creative and active and that improving the way adults and children communicate is the best way of redressing that balance this second edition has been updated and expanded to include the relevance of unrcr rights of premature babies international examples such as the chinese one child policy children s influence on regional policies and the influence on young children s lives of policies such as every child matters and those of the world bank imf oecd and unicef this readable informative and thought provoking book is a compelling invitation to rethink our attitudes to young children s rights in the light of new theories research and practical evidence about children s daily lives it will be of interest to anyone who works with young children
