bringing together scholars from literature and the history of ideas passions and subjectivity in early modern culture explores new ways of negotiating the boundaries between cognitive and bodily models of emotion and between different versions of the will as active or passive in the process it juxtaposes the historical formation of such ideas with contemporary philosophical debates it frames a dialogue between rhetoric and medicine politics and religion in order to examine the relationship between mind and body and between experience and the senses some chapters discuss literature in studies of shakespeare donne and milton other essays concentrate on philosophical arguments both aristotelian and galenic models from antiquity and new mechanistic formations in descartes hobbes and spinoza a powerful sense of paradox emerges in treatments of the passions in the early modern period also reflected in new literary and philosophical forms in which

examines dramatic acts of nostalgia as rhetorical moves designed to precipitate future action diverging from critical paths that have focused on nostalgia as a memorializing practice or on stuart nostalgia for elizabeth this book argues that shakespeare s elizabethan history plays stage nostalgia as a future focused political rhetoric in doing so the book suggests new directions for studying nostalgia case studies including richard ii and julius caesar demonstrate how shakespeare creates a dramatic argument for nostalgia s power and possibility even as he represents the fruitlessness of trying to reclaim the past and the fiction of that past s ideal nature in his dramaturgy nostalgia functions as a persuasive call for short lived political change the book provides new interpretations of shakespeare s contemporaries to illustrate how his use of nostalgia depends on innovates from and influences his fellow playwrights by reading literary religious and political

in 1603 queen elizabeth i died and king james i inherited the english throne during james s reign england continued to hark back to elizabeth comparing him with his predecessor not always in a way that was either flattering or pleasing to james critics have traditionally assumed that shakespeare avoided involving himself in this discourse in this study of shakespeare s jacobean plays however yuichi tsukada demonstrates that far from not involving himself in the phenomenon of nostalgia for elizabeth shakespeare interacted closely with retrospective writings on elizabeth and illuminated the complex politics behind the nostalgia based upon close readings of macbeth antony and cleopatra coriolanus cymbeline and henry viii together with a range of plays by shakespeare s contemporaries including thomas heywood thomas dekker george chapman john marston thomas middleton and ben jonson the book traces the ongoing cultural negotiation of the memory of elizabeth yuichi tsukada offers fresh insights into enigmatic aspects of shakespeare s jacobean drama for instance what was the original significance of the two contentious prophecies none of woman born and the march of birnam wood in macbeth or that of the seemingly out of place triumphal procession of volumnia near the tragic end of coriolanus although her memory recurred in all forms of discourse

in what nostalgia was historian thomas dodman traces the history of clinical nostalgia from when it was first coined in 1688 to describe deadly homesickness until the late nineteenth century when it morphed into the benign yearning for a lost past we are all familiar with today dodman explores how people both doctors and sufferers understood nostalgia in late seventeenth century swiss cantons where the first cases were reported to the napoleonic wars and to the french colonization of north africa in the latter 1800s a work of transnational scope over the longue duree the book is an intellectual biography of a transient mental illness that was successively reframed according to prevailing notions of medicine romanticism and climatic and racial determinism at the same time dodman adopts an ethnographic sensitivity to understand the everyday experience of living with nostalgia in so doing he explains why nostalgia was such a compelling diagnosis for war neuroses and generalized socioemotional disembeddedness at the dawn of the capitalist era and how it can be understood as a powerful bellwether of the psychological effects of living in the modern age
