in this bracing and original book geoffrey galt harpham argues that today s  
humanities are an invention of the american academy in the years following  
world war ii when they were first conceived as an expression of american  
culture and an instrument of american national interests the humanities  
portray a dream of america in two senses they represent an aspiration of  
americans since the first days of the republic for a state so secure and  
prosperous that people could enjoy and appreciate culture for its own sake  
and they embody in academic terms an idealized conception of the american  
national character although they are struggling to retain their status in  
america the concept of the humanities has spread to other parts of the world  
and remains one of america s most distinctive and valuable contributions to  
higher education the humanities and the dream of america explores a number of  
linked problems that have emerged in recent years the role at once inspiring  
and disturbing played by philology in the formation of the humanities the  
reasons for the humanities perpetual state of crisis the shaping role of  
philanthropy in the humanities and the new possibilities for literary study

offered by the subject of pleasure framed by essays that draw on harpham s pedagogical experiences abroad and as a lecturer at the u s air force academy as well as his vantage as director of the national humanities center this book provides an essential perspective on the history ideology and future of this important topic

anthony gottlieb s landmark the dream of reason and its sequel challenge bertrand russell s classic as the definitive history of western philosophy western philosophy is now two and a half millennia old but much of it came in just two staccato bursts each lasting only about 150 years in his landmark survey of western philosophy from the greeks to the renaissance the dream of reason anthony gottlieb documented the first burst which came in the athens of socrates plato and aristotle now in his sequel the dream of enlightenment gottlieb expertly navigates a second great explosion of thought taking us to northern europe in the wake of its wars of religion and the rise of galilean science in a relatively short period from the early 1640s to the eve of the french revolution descartes hobbes spinoza locke leibniz and hume all made their mark the dream of enlightenment tells their story and that of the birth

of modern philosophy as gottlieb explains all these men were amateurs none had much to do with any university they tried to fathom the implications of the new science and of religious upheaval which led them to question traditional teachings and attitudes what does the advance of science entail for our understanding of ourselves and for our ideas of god how should a government deal with religious diversity and what actually is government for such questions remain our questions which is why descartes hobbes and the others are still pondered today yet it is because we still want to hear them that we can easily get these philosophers wrong it is tempting to think they speak our language and live in our world but to understand them properly we must step back into their shoes gottlieb puts readers in the minds of these frequently misinterpreted figures elucidating the history of their times and the development of scientific ideas while engagingly explaining their arguments and assessing their legacy in lively prose with chapters focusing on descartes hobbes spinoza locke pierre bayle leibniz hume rousseau and voltaire and many walk on parts the dream of enlightenment creates a sweeping account of what the enlightenment amounted to and why we are still in its debt

surprisingly little has been written in western languages about the eighteenth century chinese novel dream of the red chamber perhaps the supreme masterpiece of its entire tradition in this study andrew h plaks has used the conceptual tools of comparative literature to focus on the novel's allegorical elements and narrative structure he thereby succeeds in accounting for the work's greatness in terms that do justice to its own narrative tradition and as well to recent advances in general literary theory a close textual reading of the novel leads to discussion of a wide range of topics ancient chinese mythology chinese garden aesthetics and the logic of alternation and recurrence the detailed study of european allegorical texts clarifies the directions taken by comparable works of chinese literature and the critical tool of the literary archetype helps to locate the novel within the chinese narrative tradition from ancient mythology to the more recent novel form professor plaks innovative use of traditional criticism suggests the levels of meaning the eighteenth century author might have expected to convey to his immediate audience this book provides not only an illuminating analysis of this important novel but also a significant demonstration that critical concepts derived primarily from western literary models may be fruitfully applied to chinese narrative works originally published in 1976 the princeton legacy library uses the latest print on demand technology to

again make available previously out of print books from the distinguished backlist of princeton university press these editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions the goal of the princeton legacy library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by princeton university press since its founding in 1905

synopsis of myself gordon cotter male dob 11 05 1934 in birmingham england in september 1939 i and thousands of children was evacuated from inner cities to rural britain this was to escape the onset of heavy bombing by german luftwaffe planes as war had been declared on germany i was sent to a small community in northern scotland there was no communication in those days only things we heard was from the radio it was put on twice a day the local community was made up of farmers and some of the wives went to the local landowner as maids and cleaning staff i was 5 years old and it took time for me to be accepted i went to the local schoolhouse three times a week for lessons the rest of the time i was expected to help around the farmyard i

began to notice that a lot of women often came to the house and was taken into the parlour sometimes i would sneak into here and watch and listen to the women talking after a while i got braver and just sat in a corner whilst the women were there it began to come to me that these women were telling my grandma about their dreams when they were finished they gave my granda some eggs or butter now i understand it was payment as time went on i began to understand more of what granda was saying to these women i became interested in it i still did not know what it was about years past and when i was about eleven or twelve the was came to an end i had settled into life in scotland and quite enjoyed the life it was then that i was told about me being an evacuee and i could return to my original home if i wanted to i did not remember any of it so i said that i wanted to stay years later i regretted this action i had become very close to my grandmother during this time and she and i often talked about the dreams and she said that i did seem to have the gift i had by this time began to understand just what she meant by the various talks with these women i was eventually allowed to sit in on the talks and sometimes i was asked for my opinion in later life my granda became poorly and she showed me a lot of her private books that she had written down her musings on all of the subjects within dreams i was asked to take over from her for the readings when she died i was asked if i wanted anything of hers i asked for the books that she had written down her thoughts on the subject i moved back to birmingham and the books lay in my attic for years in

1972 i came across them and again began to get an interest in the interpretation of dreams i got out grandma s books and decided to bring them up to date it has taken my since then to complete them

this fascinating and highly original book presents a longitudinal systematic study of the earliest form of human dreaming in a child from ages four through ten claudio colace draws upon his extensive children s dreams research his expertise in brain science and an intimate knowledge of a single subject his son marco to demonstrate the validity of an ontogenetic approach to the understanding of dream processes the availability of first hand information about the daytime experiences of the author s son in relation to dream contents as well as the longitudinal approach of the study prove to be useful for a qualitative in depth analysis of the nature and function of infantile dreams and of the changes that occur in the dreaming process as the child grows from the early forms to more complex ones affirming the

significance of freud s explorations of infantile dreaming this book attests to the nature of dreaming as a meaningful psychic act rather than the result of random processes expanding beyond a purely psychotherapeutic context the book analyzes the development of dreams systematically and in relation to freud s theories on the human mind making it an important read for clinicians scholars and researchers interested in dream functions child development and psychodynamic theory

one of few truly gifted essayists who have turned their talents to science  
wyn wachhorst here fashions a luminous meditation on the meaning of space  
exploration from a montage of images and reflections on humanity's dream of  
spaceflight in a survey of major figures from johannes kepler to wernher von  
braun he sees in the rise of spaceflight a metaphor of modern history as a  
recurrent story of transformation and rebirth other essays offer new  
perspectives on the nature of wonder recall the romantic vision of the  
decades prior to sputnik nostalgia for a bygone future and look at the larger  
meaning of the moon landing seeing in spaceflight not only a spiritual quest  
in the broadest sense of the word but a cure for the withered capacity for  
wonder that afflicts the postmodern mind

an acclaimed economist reveals that school integration efforts in the 1970s and 1980s were overwhelmingly successful and argues that we must renew our commitment to integration for the sake of all americans we are frequently told that school integration was a social experiment doomed from the start but as rucker c johnson demonstrates in children of the dream it was in fact a spectacular achievement drawing on longitudinal studies going back to the 1960s he shows that students who attended integrated and well funded schools were more successful in life than those who did not and this held true for children of all races yet as a society we have given up on integration since the high point of integration in 1988 we have regressed and segregation again prevails contending that integrated well funded schools are the primary engine of social mobility children of the dream offers a radical new take on social policy it is essential reading in our divided times
