*Object Oriented Programming Through Java 2007* this book can be used by b e computer science b tech i t m tech m sc and m c a students for their curriculum independent learners will also find the book self explanatory providing a wealth of information and detail supplementary material can be accessed by following the weblinks given in the book

*Fuzzy Data Warehousing for Performance Measurement 2014-07-08* the numeric values retrieved from a data warehouse may be difficult for business users to interpret and may even be interpreted incorrectly therefore in order to better understand numeric values business users may require an interpretation in meaningful non numeric terms however if the transition between non numeric terms is crisp true values cannot be measured and a smooth transition between classes may no longer be possible this book addresses this problem by presenting a fuzzy classification based approach for a data warehouses moreover it introduces a modeling approach for fuzzy data warehouses that makes it possible to integrate fuzzy linguistic variables in a meta table structure the essence of this structure is that fuzzy concepts can be integrated into the dimensions and facts of an existing classical data warehouse without affecting its core this allows a simultaneous analysis both fuzzy and crisp a case study of a movie rental company underlines and exemplifies the proposed approach

**Distributed Computing and Internet Technology 2016-11-23** this book constitutes the proceedings of the 13th international conference on distributed computing and internet technology icdcit 2017 held in bhubaneswar india in january 2017 the 17 full papers and 3 poster papers presented together with 6 abstracts of invited talks were carefully reviewed and selected from 208 submissions 118 abstract and 90 full paper submissions the icdcit conference focusses on mobile computing analytics distributed computing virtual machines access control and security and privacy

**Advances in Databases: Concepts, Systems and Applications 2007-08-02** this book constitutes the refereed proceedings of the 12th international conference on database systems for advanced applications dasfaa 2007 held in bangkok thailand april 2007 coverage includes query language and query optimization data mining and knowledge discovery p2p and grid based data management xml databases database modeling and information retrieval and information retrieval database applications and security

*The Second Supplement, with Index, to the Cyclopaedia of India and of Eastern and Southern Asia: Commercial, Industrial and Scientific 1862* this proceeding contains selected papers of the international seminar on recent language literature and local culture studies kajian mutakhir bahasa sastra dan budaya daerah basa held on 20 21 september 2019 in solo indonesia the conference which was organized by sastra daerah faculty of cultural sciences universitas sebelas maret and culture studies postgraduate program of universitas sebelas maret the conference accommodates topics for linguistics in general including issues in language literature local cultural studies philology folklore oral literature history art education etc selecting and reviewing process for the the international seminar on recent language literature and local culture studies kajian mutakhir bahasa sastra dan budaya daerah was very challenging in that it needs a goodwill of those who were involved in such a process more than ten experts were invited in reviewing giving suggestions for revision and at last selecting the papers on that account we would like to forward our appreciation and our gratefulness to such invited experts for having done the process the committee received more than 180 papers from the participants and based on the results of the review only 141 papers were declared fit to be presented at the seminar and subsequently published in the proceedings of basa 3 2019 papers in the proceeding are expected to give academic benefits especially in broadening the horizon of our understanding in language literature and local culture studies we realize that what we are presenting for the publication is till far for being perfect constructive criticism is very much welcome for improvement finally the committees thank for the participation and congratulate for the publication of the papers in the proceedings of basa 3 2019 the committees also thank all those who have supported and actively participated for the success of this event hopefully these proceedings can be used as references in developing technology and improving learning activities in the fields of education social arts and humanities

National Union Catalog 1978 polymath rabindranath tagore was the first non european to be awarded the nobel prize for literature in 1913 but tagore was much more than a writer through his poems novels short stories poetic songs dance dramas and paintings he transformed bengali literature and indian art he was instrumental in bringing indian culture to the west and vice versa and he strove to create a less divided society through mutual respect and understanding following the example of his great contemporary and close friend mahatma gandhi in this timely reappraisal of tagore s life and work bashabi fraser assesses tagore s many activities and shows how he embodies the modern consciousness of india she examines his upbringing in bengal his role in indian politics and his interests in international relationships taking a holistic perspective she also addresses some of the misreadings of his extraordinary life and work

**BASA 2019** 2020-06-18 zoological record is published annually in separate sections the first of these is comprehensive zoology followed by sections recording a year s literature relating to a phylum or class of the animal kingdom the final section contains the new genera and subgenera indexed in the volume each section of a volume lists the sections of that volume

**Rabindranath Tagore** 2019-09-15 the expansion of the cholas from their base in the kaveri delta saw this growing power subdue the kingdoms of southern india as well as occupy sri lanka and the maldives by the early eleventh century it was also during this period that the cholas initiated links with song china concurrently the southeast asian polity of sriwijaya had through its sumatran and malayan ports come to occupy a key position in east west maritime trade requiring engagement with both song china to the north and the chola kingdom to its west the apparently friendly relations pursued were however to be disrupted in 1025 by chola naval expeditions against fourteen key port cities in southeast asia this volume examines the background course and effects of these expeditions as well as the regional context of the events it brings to light many aspects of this key period in asian history unprecedented in the degree of detail assigned to the story of the chola expeditions this volume is also unique in that it includes translations of the contemporary tamil and sanskrit inscriptions relating to southeast asia and of the song dynasty chinese texts relating to the chola kingdom

*Archiv für Naturgeschichte* 1859 database management system dbms and oracle are essentially a part of the curriculum for undergraduate and postgraduate courses in computer science computer applications computer science and engineering information technology and management the book is organized into three parts to introduce the theoretical and programming concepts of dbms part i basic concepts and oracle sql deals with dbms basic software analysis and design data flow diagram er model relational algebra normal forms sql queries functions subqueries different types of joins dcl ddl dml object constraints and security in oracle part ii application using oracle pl sql explains pl sql basics functions procedures packages exception handling triggers implicit explicit and advanced cursors using suitable examples this part also covers advanced concepts related to pl sql such as collection records objects dynamic sql and performance tuning part iii advanced concepts and technologies elaborates on advanced database concepts such as query processing file organization distributed architecture backup recovery data warehousing online analytical processing and data mining concepts and their techniques all the chapters include a large number of examples to further reinforce the concepts numerous objective type questions and workouts are provided at the end of each chapter key features explains each topic in a step by step detail includes about 300 examples to illustrate the concepts offers about 400 objective type questions to quiz students on key points provides about 100 challenging workouts that invite deeper analysis and interpretation of the subject matter new to the second edition the book reorganized into three parts for better understanding of dbms concepts all the existing chapters thoroughly revised and eight new chapters added new chapters discuss oracle pl sql advanced programming concepts data warehousing oltp olap and data mining concepts additional examples questions and workouts in each chapter teaching aid material teaching aid material for all the chapters is provided on the website of phi learning which can be used by the faculties teachers for delivering lectures

Zoological Record 1963 this book is a collection of chapters written by experts on various aspects of big data the book aims to explain what big data is and how it is stored and used the book starts from the fundamentals and builds up from there it is intended to serve as a review of the state of the practice in the field of big data handling the traditional framework of relational databases can no longer provide appropriate solutions for handling big data and making it available and useful to users scattered around the globe the study of big data covers a wide range of issues including management of heterogeneous data big data frameworks change management finding patterns in data usage and evolution data as a service service generated data service management privacy and security all of these aspects are touched upon in this book it also discusses big data applications in different domains the book will prove useful to students researchers and practicing database and networking engineers

*Nagapattinam to Suvarnadwipa* 2009 when we set about organizing epia 2003 in porto during the appia meeting at the previous edition of the conference epia 2001 it was decided that it would be organized by fernando moura pires fajb e and myself we chose beja as the venue to host the conference as it provided a good support infrastructure and fernando had a good working relationship with several people at the beja polytechnic institute shortly thereafter fernando came to know that he was ailing from a disease that wastotakehislifeinmay2003 aswithmanyotherprojectsinwhichhegot involved fernando clung to the organization of this conference with dedication and perseverance even while knowing that he might not see the results of his work epia 2003 is a tribute to his work taking up on the successful experience gained from epia 2001 we decided to structure epia 2003 as a set of ve distinct workshops roughly re ecting the panorama of ai research in portugal special thanks are due to the organizers of each workshop for the quality and timeliness of the work they carried out the conference was all the more interesting because of the eight invited p sentations and tutorials by alexander bockmayr amp lcar cardoso dario f reano haroldboley pedrodomingos pieteradriaans veronicadahlandvitor santos costa there are short one page abstracts included in these proceedings for some of these presentations

**DATABASE MANAGEMENT SYSTEM ORACLE SQL AND PL/SQL** 2013-10-18 this book constitutes the refereed proceedings of the 16th international conference on artificial intelligence methodology systems and applications aimsa 2014 held in varna bulgaria in september 2014 the 14 revised full papers and 9 short papers presented were carefully reviewed and selected from 53 submissions the range of topics is almost equally broad from traditional areas such as computer vision and natural language processing to emerging areas such as mining the behavior of based communities Big Data 2015-06-29 major characteristics and causes of landlessness economic and social condition of the landless and other groups measures to tackle the problem of landlessness research priorities and action programmes

*Progress in Artificial Intelligence* 2003-11-06 as information technology continues to advance in massive increments the bank of information available from personal financial and business electronic transactions and all other electronic documentation and data storage is growing at an exponential rate with this wealth of information comes the opportunity and necessity to utilize this information to maintain competitive advantage and process information effectively in real world situations data mining and knowledge discovery technologies presents researchers and practitioners in fields such as knowledge management information science engineering and medical informatics with comprehensive innovative research on data mining methods structures tools and methods the knowledge discovery process and data marts among many other cutting edge topics

Artificial Intelligence: Methodology, Systems, and Applications 2014-09-04 this book is a great contribution to peace research it places india in the world as a worthy player in international relations from ancient times the selection of four of the most significant historical peaks over two millennia the ashoka era the pala era the orientalist era and the gandhi era shows the uniqueness of india s peaceful history relevant not only for herself but for the whole of humankind to the point that in present times her engagement is destined to contribute to the urgent long awaited transformation of the

united nations organization j s

*A Synonymic Catalogue of Diurnal Lepidoptera* 1871 this book constitutes the refereed joint proceedings of seven international workshops held in conjunction with the 25th international conference on conceptual modeling er 2006 in tucson az usa in november 2006 the 39 revised full papers presented together with the outlines of three tutorials were carefully reviewed and selected from 95 submissions

**Landlessness** 1984 this book contains a large number of words not found in the present government dictionary and therefore will lead to a better knowledge and use of the thai language

Data Mining and Knowledge Discovery Technologies 2008-01-31 this book constitutes the thoroughly refereed post conference proceedings of the international workshop on service oriented computing agents semantics and engineering socase 2009 held in budapest hungary as an associated event of aamas 2009 the main international conference on autonomous agents and multi agent systems the 10 revised full papers presented were carefully reviewed and selected for inclusion in the book the papers address a range of topics at the intersection of service oriented computing semantic technology and intelligent multiagent systems such as service description and discovery planning composition and negotiation semantic processes and service agents as well as applications

Bhārata-kaumudī; Studies in Indology in Honour of Dr. Radha Kumud Mookerji 1945 akashvani english is a programme journal of all india radio it was formerly known as the indian listener it used to serve the listener as a bradshaw of broadcasting and give listener the useful information in an interesting manner about programmes who writes them take part in them and produce them along with photographs of performing artists it also contains the information of major changes in the policy and service of the organisation the indian listener fortnightly programme journal of air in english published by the indian state broadcasting service bombay started on 22 december 1935 and was the successor to the indian radio times in english which was published beginning in july 16 of 1927 from 22 august 1937 onwards it used to published by all india radio new delhi from 1950 it was turned into a weekly journal later the indian listener became akashvani english w e f january 5 1958 it was made fortnightly journal again w e f july 1 1983 name of the journal akashvani language of the journal english date month year of publication 16 10 1960 periodicity of the journal weekly number of pages 48 volume number vol xxv no 42 broadcast programme schedule published page nos 07 48 article 1 industrial housing in india 2 the kritis of karnataka music 3 the olympic torch 4 dhruvapada author 1 m r kothandaraman 2 n s ramachandran 3 col a sharma 4 narendra rai keywords urbanisation great congestion new scheme sri jayadeva the trinity regional development olympia the relationship thirteen characteristics document id ape 1960 j d vol ii 16 prasar bharati archives has the copyright in all matters published in this and other air journals for reproduction previous permission is essential

*A Peace History of India* 2016-09-01 charged with analysing and criticising the way economies develop and grow development economists play a vital role in attempting to reduce inequality across the world the fourth edition of this classic textbook introduces students to this vital field all of the popular aspects of earlier editions are retained with new additions such as the introduction of endogenous growth theory the book also includes the very latest world bank development data with vastly improved and updated pedagogical features such as new topical case studies and questions for discussion subrata ghatak introduces what can be a difficult topic with a welcome clarity

Advances in Conceptual Modeling - Theory and Practice 2006-11-21 comprehensive coverage of critical issues related to information science and technology
