development life cycle from developing software requirements to software maintenance it also discusses project management and explains how to read software engineering literature three appendices describe software patents command line arguments and flowcharts this volume commissioned by the department of foreign affairs and trade in the documents on australian foreign policy series is the first comprehensive survey of australia s approach to the world in the 1920s dfat documents on australian foreign policy australia and papua new guinea 1970 1972 is the second of three volumes on on papua new guinea and its transition to self government this era saw monumental change in the relationship between australia and papua new guinea as png went from a territory firmly controlled by canberra to self government in 1975 documents outline the role of australian prime minister john gorton who quickened the pace of change following a visit to png by gough whitlam at the start of 1970 and the australian ministers and officials who worked constructively with their png counterparts including andrew peacock at territories minister from early 1972 dhs training improved documentation resource tracking and performance measurement could strengthen efforts a blueprint for doing clinical work in field experience field experience transitioning from student to professional aids students in developing their professional identity on their journey toward becoming a counselor authors naijian zhang and richard d parsons help students integrate the knowledge they learn across the curriculum by presenting a roadmap of how to start navigate and finish a practicum or internship throughout the book coverage of cacrep standards case illustrations exercises and real life examples create an accessible overview of the entire transitioning process field experience is part of the sage counseling and professional identity series which targets specific competencies identified by cacrep council for accreditation of counseling and related programs this book is a printed edition of the special issue document image processing that was published in j imaging athletic training students are required to learn practice test and master clinical skill sets throughout their educational career a textbook that can be used from the start of their education up until graduation becomes essential to this learning process answering the call for educators and students is clinical skills documentation guide for athletic training second edition the esteemed practical exam preparation guide of clinical skills for athletic training has been updated revised and renamed to accurately reflect the material presented throughout the text that is necessary for athletic training students to master clinical skill sets as tested on throughout their educational career herb amato christy d hawkins and steven l cole have revised and updated clinical skills documentation guide for athletic training second edition to reflect the standards and specific outcomes of the clinical proficiencies as established by the national athletic trainers association incorporating the learning over time concept this second edition presents a three weighted practical exam format within the evaluation box for each clinical skill set additionally each clinical skill sets follows an easy to use checklist design allowing athletic training students to learn practice test and master clinical skills new features inside the second edition over 110 new clinical skills sets in total throughout the text chapters have been re organized in a more user friendly fashion updated references throughout the text new sections inside the second edition joint mobilization general medical therapeutic exercise re conditioning therapeutic modalities therapeutic measurements athletic training educators will find clinical skills documentation guide for athletic training to be a user friendly text that will easily supplement their curriculum for a way to document when clinical skills have been taught practiced evaluated and mastered by each student with new chapters reflecting the progressing field of athletic training a re organization of the information presented and the addition of 110 new clinical skill sets clinical skills documentation guide for athletic training second edition is the critical first step necessary in developing clinical skill set mastery for athletic training students unstructured text as one of the most important data forms plays a crucial role in data driven decision making in domains ranging

from social networking and information retrieval to scientific research and healthcare informatics in many emerging applications people s information need from text data is becoming multidimensional they demand useful insights along multiple aspects from a text corpus however acquiring such multidimensional knowledge from massive text data remains a challenging task this book presents data mining techniques that turn unstructured text data into multidimensional knowledge we investigate two core questions 1 how does one identify task relevant text data with declarative queries in multiple dimensions 2 how does one distill knowledge from text data in a multidimensional space to address the above questions we develop a text cube framework first we develop a cube construction module that organizes unstructured data into a cube structure by discovering latent multidimensional and multi granular structure from the unstructured text corpus and allocating documents into the structure second we develop a cube exploitation module that models multiple dimensions in the cube space thereby distilling from user selected data multidimensional knowledge together these two modules constitute an integrated pipeline leveraging the cube structure users can perform multidimensional multigranular data selection with declarative queries and with cube exploitation algorithms users can extract multidimensional patterns from the selected data for decision making the proposed framework has two distinctive advantages when turning text data into multidimensional knowledge flexibility and label efficiency first it enables acquiring multidimensional knowledge flexibly as the cube structure allows users to easily identify task relevant data along multiple dimensions at varied granularities and further distill multidimensional knowledge second the algorithms for cube construction and exploitation require little supervision this makes the framework appealing for many applications where labeled data are expensive to obtain
