earth science geoscience
1 2
1 2
earth science or geoscience includes
all fields of natural science related to the
planet earth this is a branch of science
dealing with the physical chemical and
biological complex constitutions and
synergistic linkages of earth s four spheres
the biosphere hydrosphere cryosphere
atmosphere and geosphere or lithosphere
2024-04-17 nature geoscience covers all
aspects of the earth sciences including
theoretical research modelling and field work
2024-05-20 the earth sciences are the
fields of study concerned with the solid earth
its waters and the air that envelops it
included are the geologic hydrologic and
atmospheric sciences their broad aim is to
understand earth s present features and past
evolution and to use this knowledge to benefit
humankind 2021-1-26

2021 earth science encompasses geological
hydrological atmospheric and meteorological
research that paves the way towards better
4 learn more about research topics
advances our understanding across the earth
sciences providing a theoretical background
for better use of our planet s resources and
equipping us to face major environmental
challenges 2023 6 27 nasa s earth
information center allows visitors to see how
our planet is changing in six key areas sea
level rise and coastal impacts health and air
quality wildfires greenhouse gases sustainable
energy and agriculture earth science is
fantastic learning to reveal those events and
reaches in various scales such as the
continent plate and atom since our department
was established in 1964 we centered the
curriculum on the solid earth such as geology
petrology and mineralogy 2023 6 20 from
its origins nasa has studied our planet in
novel ways using a fleet of satellites and
ambitious airborne and ground based campaigns
to study physical processes at work from
beneath the crust to the edge of the
atmosphere we look at earth in macrocosm and
microcosm from the flow of one mountain stream
to the flow facts about earth
nasa science earth our home planet is the
third planet from the sun and the fifth

largest planet it s the only place we know of
inhabited by living things quick facts length
of day 23 9 hours length of year 365 25 days
distance from sun 93 327 712 miles 150 196 428
kilometers one way light
