## **Multitude 2006**

multitude offers an inspiring vision of how people of the world can come together in a globally networked community to create a new kind of democracy hardt and negri explain how empire by colonizing and interconnecting more areas of life ever more deeply has created the possibility for democracy of a sort never seen before

## **Democracy in Chains 2017-06-13**

winner of the lillian smith book award winner of the los angeles times book prize finalist for the national book award the nation's most valuable book a vibrant intellectual history of the radical right the atlantic this sixty year campaign to make libertarianism mainstream and eventually take the government itself is at the heart of democracy in chains if you're worried about what all this means for america's future you should be npr an explosive exposé of the right's relentless campaign to eliminate unions suppress voting privatize public education stop action on climate change and alter the constitution behind today's headlines of billionaires taking over our government is a secretive political establishment with long deep and troubling roots the capitalist radical right has been working not simply to change who rules but to fundamentally alter the rules of democratic governance but billionaires did not launch this movement a white intellectual in the embattled jim crow south did democracy in chains names its true architect the nobel prize winning political economist james mcgill buchanan and dissects the operation he and his colleagues designed over six decades to alter every branch of government to disempower the majority in a brilliant and engrossing narrative nancy maclean shows how buchanan forged his ideas about government in a last gasp attempt to preserve the white elite's power in the wake of brown v board of education in response to the widening of american democracy he developed a brilliant if diabolical plan to undermine the ability of the majority to use its numbers to level the playing field between the rich and powerful and the rest of us corporate donors and their right wing foundations were only too eager to support buchanan's work in teaching others how to divide america into makers and takers and when a multibillionaire on a messianic mission to rewrite the social contract of the modern world charles koch discovered buchanan he created a vast relentless and multi armed machine to carry out buchanan's strategy without buchanan's ideas and koch's money the libertarian right would not have succeeded in its stealth takeover of the republican party as a delivery mechanism now with mike pence as vice president the cause has a longtime loyalist in the white house not to mention a phalanx of republicans in the house the senate a majority of state governments and the courts all carrying out the plan that plan includes harsher laws to undermine unions privatizing everything from schools to health care and social security and keeping as many of us as possible from voting based on ten years of unique research democracy in chains tells a chilling story of right wing academics and big money run amok this revelatory work of scholarship is also a call to arms to protect the achievements of twentieth century american self government

## **Democracy in Decline? 2015-10**

is democracy in decline is a short book that takes up the fascinating question on whether this once revolutionary form of government the bedrock of western liberalism is fast disappearing has the growth of corporate capitalism mass economic inequality and endemic corruption reversed the spread of democracy worldwide in this incisive collection leading thinkers address this disturbing and critically important issue published as part of the national endowment for democracy's 25th anniversary and drawn from articles forthcoming in the journal of democracy this collection includes seven essays from a stellar group of democracy scholars francis fukuyama robert kagan thomas carothers marc plattner larry diamond philippe schmitter steven levitsky ivan krastev and lucan way written in a thought provoking style from seven different perspectives this book provides an eye opening look at how the very foundation of western political culture may be imperiled

## **Democracy In America: Volume I & II 2014-12-16**

over the course of nine months in 1831 alexis de tocqueville a french political thinker accompanied by gustave de beaumont travelled the united states under the pretext of studying the american prison system over the course of his travels tocqueville also studied american society religion politics and economics undertaking what would become one of the most comprehensive studies to that time of the practice of democracy in the united states first published in 1835 democracy in america continues to be considered one of the foundational works of political science democracy in america volumes i and ii includes both volumes of de tocqueville s influential work volume i explores the factors that contributed to the success of democracy in the united states as well as the possible future of democracy in light of the unique religion and socio economic factors that existed in the united states at that time volume ii continues tocqueville s exploration of the nature of democracy in the united states including an analysis of american civil society harper torch brings great works of non fiction and the dramatic arts to life in digital format upholding the highest standards in ebook production and celebrating reading in all its forms look for more titles in the harper torch collection to build your digital library

## **Making Democracy in the French Revolution 2001**

this book reasserts the importance of the french revolution to an understanding of the nature of modern european politics and social life livesey argues that the european model of democracy was created in the revolution a model with very specific commitments that differentiate it from anglo american liberal democracy

## ***Re-Imagining Democracy in the Mediterranean, 1780-1860 2018-10-25***

mediterranean states are often thought to have democratised only in the post war era as authoritarian regimes were successively overthrown on its eastern and southern shores the process is still contested re imagining democracy looks back to an earlier era the late eighteenth and early nineteenth centuries and argues it was this era when some modern version of democracy in the region first began by the 1860s representative regimes had been established throughout southern europe and representation was also the subject of experiment and debate in ottoman territories talk of democracy its merits and limitations accompanied much of this experimentation though there was no agreement as to whether or how it could be given stable political form re imagining democracy assembles experts in the history of the mediterranean who have been exploring these themes collaboratively to compare and contrast experiences in this region so that they can be set alongside better known debates and experiments in north atlantic states states in the region all experienced some form of subordination to northern great powers in this context their inhabitants had to grapple with broader changes in ideas about state and society while struggling to achieve and maintain meaningful self rule at the level of the polity and self respect at the level of culture innes and philip highlight new research and ideas about a region whose experiences during the age of revolutions are at best patchily known and understood as well as to expand understanding of the complex and variegated history of democracy as an idea and set of practices

## **The Idea of Democracy in the Modern Era 2021-10-08**

although the last half of the twentieth century has been called the age of democracy the twenty first has already demonstrated the fragility of its apparent triumph as the dominant form of government throughout the world reassessing the fate of democracy for our time distinguished political theorist ralph ketcham traces the evolution of this idea over the course of four hundred years he traces democracy s bumpy ride in a book that is both an exercise in the history of ideas and an explication of democratic theory ketcham examines the rationales for democratic government identifies the fault lines that separate democracy from good government and suggests ways to strengthen it in order to meet future challenges

drawing on an encyclopedic command of history and politics he examines the rationales that have been offered for democratic government over the course of four manifestations of modernity that he identifies in the western and east asian world since 1600 ketcham first considers the fundamental axioms established by theorists of the enlightenment bacon locke jefferson and reflected in america s founding then moves on to the mostly post darwinian critiques by bentham veblen dewey and others that produced theories of the liberal corporate state he explains late nineteenth century asian responses to democracy as the third manifestation grounded in confucian respect for communal and hierarchical norms followed by late twentieth century postmodernist thought that views democratic states as oppressive and seeks to empower marginalized groups ketcham critiques the first second and fourth modernity rationales for democracy and suggests that the asian approach may represent a reconciliation of ancient wisdom and modern science better suited to today s world he advocates a reorientation of democracy that de emphasizes group or identity politics and restores the wholeness of the civic community proposing a return to the jeffersonian universalism that which informed the founding of the united states if democracy is to flourish in a fifth manifestation the idea of democracy in the modern era is an erudite interdisciplinary work of great breadth and complexity that looks to the past in order to reframe the future with its global overview and comparative insights it will stimulate discussion of how democracy can survive and thrive in the coming era

## **Democracy in the Modern World 19??**

this book is a stimulating contribution to the new literature it is not intended as a comprehensive review of the full range of topics nor is it solely a summary of research findings it consists in essence of an open ended debate on a limited series of related issues in which the reader is invited to participate who might profit by an examination of these topics what can a reader expect to learn through perusing this particular account and even vicariously joining in the discussion of the social structure of power the role of bureaucracy in american life today and what is meant by a democratic society in addition the book offers the perceptive reader an illuminating example of a much neglected topic in that segment of the new literature which stems from the social sciences namely the role of the observer in relationship to what is observed the editors should be commended for bringing together not a bland series of polite statements but a stimulating discussion which raises more questions than it answers more important it raises questions that have to be posed in any significant appraisal of america today john useem head sociology and anthropology michigan state university

## **Power and Democracy in America 2018-12-12**

until the late 1980s there were very few democratically elected governments in the developing world these areas were characterized by a range of authoritarian regimes from military administrations to one party dictatorships over the past decade however the situation has altered significantly and an increasing number of developing countries have made the transition to democracy for some this process of building and consolidating democracy has been relatively easy while for others it has proved more complex and harder to sustain in this important new textbook jeff haynes seeks to explain why these differences occur adopting a broadly comparative approach he begins by examining the theories and practice of democratic transition and consolidation in the new democracies of africa asia latin america and the middle east haynes argues persuasively that a country s ability to consolidate democracy depends not only on the interaction of structural and agency factors but also on a variety of specific domestic and international concerns which may help or hinder democratic progress using a wide range of case studies to illustrate his argument haynes provides an accessible and comprehensive analysis of the processes and problems of democratic consolidation in developing nations this is an important textbook that will be invaluable to students in a variety of areas from politics and comparative politics to development studies and history

## ***Democracy in the Developing World 2013-04-23***

today iran is once again in the headlines reputed to be developing nuclear weapons the future of iraq s next door neighbor is a matter of grave concern both for the stability of the region and for the safety of the global community president george w bush labeled it part of the axis of evil and rails against the country s authoritarian leadership yet as bush trumpets the spread of democracy throughout the middle east few note that iran has one of the longest running experiences with democracy in the region in this book ali gheissari and vali nasr look at the political history of iran in the modern era and offer an in depth analysis of the prospects for democracy to flourish there after having produced the only successful islamist challenge to the state a revolution and an islamic republic iran is now poised to produce a genuine and indigenous democratic movement in the muslim world democracy in iran is neither a sudden development nor a western import gheissari and nasr argue the concept of democracy in iran today may appear to be a reaction to authoritarianism but it is an old idea with a complex history one that is tightly interwoven with the main forces that have shaped iranian society and politics institutions identities and interests indeed the demand for democracy first surfaced in iran a century ago at the end of the qajar period and helped produce iran s surprisingly liberal first constitution in 1906 gheissari and nasr seek to understand why democracy failed to grow roots and lost ground to an autocratic iranian state why was democracy absent from the ideological debates of the 1960s and 1970s most important why has it now become a powerful social political and intellectual force how have modernization social change economic growth and the experience of the revolution converged to make this possible

## **Democracy in Iran 2006-06-15**

de la démocratie en Amérique published in two volumes the first in 1835 and the second in 1840 is a classic french text by alexis de toqueville its title translates as on democracy in america but english translations are usually simply entitled democracy in america in the book toqueville examines the democratic revolution that he believed had been occurring over the previous seven hundred years

## **Democracy in the Mid-twentieth Century 1960**

this book expertly traces the long erratic and incomplete path of latin america s political and socioeconomic democratization from a group of colonies lacking democratic practice and culture up to the present using the lens of democracy defined by the charter of the organization of american states oas it examines the periods of us gunboat diplomacy in the caribbean basin the cold war the state terrorist dictatorships of the 1970s and 1980s the imposition of neoliberalism in the 1990s and the rise of the pink tide in the new millennium the meaning of democracy has changed over time from nineteenth century liberalism in which only a handful of wealthy males voted and individuals were responsible for their economic and social conditions to governments in the late twentieth century that have embraced socioeconomic democracy by assuming responsibility at least formally for citizens welfare latin america s movement toward democracy has not been linear the book follows the appearance and evolution of both proponents and opponents of democracy over the last two centuries the balance of these forces has shifted periodically often in waves that swept across the entire region commitment to democracy does not guarantee implementation but despite many setbacks latin america has made significant progress toward the democratic aspirations set forth in the oas charter thorough and accessibly written democracy in latin america is an essential text for students studying latin american politics and history

## **Democracy in America 2017-03-20**

this book provides a highly original account of the changing meaning of democracy in the contemporary world offering both an historical and philosophical analysis of the nature and prospects of democracy today

## **Democracy in Latin America 2022-12-13**

why do democracies keep lurching from success to failure the current financial crisis is just the latest example of how things continue to go wrong just when it looked like they were going right in this wide ranging original and compelling book david runciman tells the story of modern democracy through the history of moments of crisis from the first world war to the economic crash of 2008 a global history with a special focus on the united states the confidence trap examines how democracy survived threats ranging from the great depression to the cuban missile crisis and from watergate to the collapse of lehman brothers it also looks at the confusion and uncertainty created by unexpected victories from the defeat of german autocracy in 1918 to the defeat of communism in 1989 throughout the book pays close attention to the politicians and thinkers who grappled with these crises from woodrow wilson nehru and adenauer to fukuyama and obama in the confidence trap david runciman shows that democracies are good at recovering from emergencies but bad at avoiding them the lesson democracies tend to learn from their mistakes is that they can survive them and that no crisis is as bad as it seems breeding complacency rather than wisdom crises lead to the dangerous belief that democracies can muddle through anything a confidence trap that may lead to a crisis that is just too big to escape if it hasn't already the most serious challenges confronting democracy today are debt the war on terror the rise of china and climate change if democracy is to survive them it must figure out a way to break the confidence trap

## **Democracy and the Global Order 2013-04-23**

democracy in america examines the democratic revolution tocqueville believed had been occurring over the previous several hundred years the primary focus of the book is an analysis of why republican representative democracy has succeeded in the united states while failing in so many other places tocqueville seeks to apply the functional aspects of democracy in the united states to what he sees as the failings of democracy in his native france democracy in america was published in two volumes the first in 1835 and the other in 1840 it was immediately popular in both europe and the united states while also having a profound impact on the french population by the twentieth century it had become a classic work of political science social science and history it is a commonly assigned reading for students at american universities majoring in the political or social sciences and part of the introductory political theory syllabus at cambridge oxford princeton and other institutions this cloth bound book includes a victorian inspired dust jacket and is limited to 100 copies

## **The Confidence Trap 2015-03-21**

originally published in 2000 the right to vote was widely hailed as a magisterial account of the evolution of suffrage from the american revolution to the end of the twentieth century in this revised and updated edition keyssar carries the story forward from the disputed presidential contest of 2000 through the 2008 campaign and the election of barack obama the right to vote is a sweeping reinterpretation of american political history as well as a meditation on the meaning of democracy in contemporary american life

## **Democracy in America (100 Copy Collector's Edition) 2020-08-17**

democracy in america de la democratie en amerique published in two volumes the first in 1835 and the second in 1840 is a classic french text by alexis de tocqueville its title translates as of democracy in america but english translations are usually entitled simply democracy in america in the book tocqueville examines the democratic revolution that he believed had been occurring over the past seven hundred years in 1831 alexis de tocqueville and gustave de beaumont were sent by the french government to study the american prison system in his later letters tocqueville indicates that he and beaumont used their official business as a pretext to study american society instead they arrived in new york city in may of that year and spent nine months traveling the united states studying the prisons and collecting information on american society including its religious political and economic character the two also briefly visited canada spending a few days in the summer of 1831 in what was then lower canada modern day quebec and upper canada modern day ontario after they returned to france in february 1832 tocqueville and beaumont submitted their report du systeme penitentiaire aux etats unis et de son application en france in 1833 when the first edition was published beaumont sympathetic to social justice was working on another book marie ou l esclavage aux etats unis two volumes 1835 a social critique and novel describing the separation of races in a moral society and the conditions of slaves in the united states before finishing democracy in america tocqueville believed that beaumont s study of the united states would prove more comprehensive and penetrating

## **How Europeans View and Evaluate Democracy 2016**

with democratic capitalism appearing to sweep the world this timely collection addresses theoretical and practical aspects of building democracy in one party systems contributions examine the progress and condition of democracy in central and eastern europe africa and the two chinas the fall of gorbachev and the serbian drive for hegemony in the balkans focusing upon four main areas the volume analyzes 1 the theoretical challenge of creating and sustaining democracy 2 the experience of operating democracy in the absence of two party competition as found in the southern united states 3 building democracy in the place of communism and 4 building democracy in less developed countries

## **Democracy in the Caribbean 1993**

the questions and issues raised by toqueville in his monumental studies of france and america are just as crucial for understanding the evolution of democracy in the west and the development of democracy in the non western world they clearly show the breadth of toqueville s contributions to the development of modern social sciences among the questions addressed by toqueville were how does the weight of the past affect the evolution of political institutions and political behavior what impact do differences in physical environment have on the organization of society what are the relationships between social equality freedom and democracy to what extent does centralization destroy the capacity for local initiative and self governance what conditions are needed to nurture the flourishing of self governing communities what safeguards are needed to preserve freedom and to prevent incipient democracies from becoming dictatorships why has democracy had such a problem taking hold in many parts of the non western world how should one study democracy in non western settings toquevillian analytics can help us provide answers addressed to a wider audience than toqueville scholars the book argues that toquevillian analytics can be used to understand developments in non western as well as western societies and be updated to address such issues as globalization ethnicity new world old world comparisons and east west dynamics the first part of the book examines the basic components of toquevillian analytics outlining its stepwise interdisciplinary approach to understanding societies and nations the second part applies the toquevillian conceptual framework to the contemporary world and contains individual chapters on various regions of the world north america russia western europe asia africa and latin america unlike previous collective works on toqueville conversations with toqueville does not offer a survey of the authors views but instead focuses on presenting a cohesive theoretical framework of analysis that can then be applied and adjusted to fit a multitude of settings

## ***Building Democracy in One-Party Systems 1993-04-28***

in recent years social movements on the left have increasingly begun to make themselves felt in referendums this has been seen throughout europe in votes regarding independence in scotland and catalonia on water rights in italy on debt repayment in iceland and on the financial proposals of the troika in greece this book presents case studies of those referendums and more to analyze the ways that social movements formed in the wake of the 2008 crash have affected referendums development and outcomes looking at general issues of democracy as well as the political effects of neoliberalism this book is ideally suited to help us understand some of the issues around brexit and will be read by a wide audience interested in social movements referendums and democratic innovation

## **Democracy 2004**

is democracy in crisis on the one hand it seems to be decaying under the leadership of political elites who make decisions behind closed doors on the other hand citizens are taking to the streets to firmly assert their political participation across the globe drawing on a range of theoretical and empirical perspectives this collection examines the multiple transformations which both the practice and the idea of democracy are undergoing today it starts by questioning whether there is a crisis of democracy or if part of this crisis lies in the inadequacy of social and political theory to describe current challenges exploring a range of violent and non violent forms of resistance the book goes on to ask how these are related to the arts what form of civility they require and whether they undermine the functioning of institutions in the final section of the book the contributors examine the normative foundations of democratic practices and institutions especially with regard to the tension between human rights and democracy and the special character of democratic authority
