citadel of islamic learning and thought and since the signing of the egyptian israeli peace treaty in 1979 it has been of immense strategic importance to american interests in the middle east but egypt is also a country in crisis torn between the old and the new between unsettled religious revival and secular politics president hosni mubarak favors a secular society but mubarak s government faces constant conflict with militant clerics such as sheikh omar abdel rahman in a portrait of egypt mary anne weaver argues that an islamist victory in egypt is almost inevitable and unlike that of shi ite iran its impact on the islamic world will be truly profound based on exclusive interviews with militants and front men generals and presidents a portrait of egypt is essential reading for anyone trying to understand the far reaching consequences of the growing impact of islamist politics and policies on the west this book is a collection of essays discussing the reign and influence of tausret the last pharaoh of the 19th dynasty c twelfth century bce and one of only a few women who ruled ancient egypt as a king during its history the history of egypt now offered to the english reader is distinguished in two respects from the long train of able and interesting works which in opening to the last and the present generations the life and story of the old egyptians as by a new revelation have at the same time thrown a clear and vivid light on many portions of holy scripture the work is as unique in the competence of its author as in the originality of its design after all that has been done since the time when young and champollion discovered the key to the vast treasures of contemporary records which till then were a sealed book it still remained for some competent scholar to undertake the herculean task of weaving the testimony of the egyptian records into a consecutive history of the long line of pharaonic dynasties derived solely from these ancient and authentic sources and free of all colouring and intermixture from the traditions given at second hand by the classic writers which find their proper place elsewhere no second hand knowledge of the monuments and papyri however learned or extensive can be a sufficient qualification for the full and accurate rendering of their testimony nothing can suffice short of that kind of scholarly instinct which is the first of a life long study and comprehensive knowledge of the whole subject matter based on a personal examination of the original records these are the qualifications acquired and matured in the mind of dr henry brugsch bey during his long residence in egypt and his travels through the length and breadth of the land with the express object of studying the

John E. A. Wallis Budge 1857-1934 was keeper of the British Museum's department of Oriental Antiquities from 1894 until his retirement in 1924 carrying out many missions to Egypt in search of ancient objects. Budge was hugely successful in collecting papyrus statues and other artefacts for the trustees of the British Museum numbering into the thousands and of great cultural and historical significance. Budge published well over 100 monographs which shaped the development of future scholarship and are still of great academic value today dealing with subjects such as Egyptian religion, history and literature. This volume first published in 1902 is the fifth of eight volumes by Budge dealing with different periods in the history of Egypt. The narrative begins with the reign of Rameses I the first king of the 19th dynasty and ends with the rule of Rameses XII. It covers the principal events which took place between the years 1400 and 1130 B.C. including the Hebrew Exodus. Budge explores this rich and important period of Egyptian history in a classic work of great value to those interested in Egyptology and archaeology.
