you're studying vocabulary and hopefully you'll be trying a few out in conversation very soon. The book is divided into sections of 100 vocabulary words. Each of those sections has then been divided into five groups of twenty words. Whoa, whoa, whoa, that's a lot of numbers, and you're clearly more of a word person. We get it, hang in there, it's really not too complicated. In order to learn each set of twenty words, you'll solve two puzzles. The first word search puzzle has both the words and the definitions given to you. Reading through, searching for, and circling the words will help your brain process the vocabulary list in multiple different ways to help it stick. The second puzzle you'll solve has shuffled the order and only gives you the definitions. You'll have to fill in the blanks with the words yourself. This process of writing out the word when you are given the definition is a proven method to further help these new vocabulary words take root in your brain. If you get stuck, you can simply hunt for words in the search to jog your memory or flip back to the previous puzzle for guidance. No one will judge you. We promise. Through puzzle solving, repetition, the physical act of writing, and engagement, we're confident this book will help you boost your vocabulary and push you down the path of becoming an even bigger nerd.
