between the leaves of this story are two young inquirers sophia you could say was the first to start asking why things are the way they seem but phil was first to really get up close to nature who s moving is a nostalgic narrative about two siblings as they embark on a grand move to a new house phil and sophia along the way practice thinking philosophically questioning everything they encounter from trees to pastries each chapter discusses how reflection relationships reasoning and resistance are meaningful to developing an identity the works of four creative philosophers laid the framework and inspired the characters and situations encountered by phil and sophia dendra is inspired by marya schehtman s narrative account of personal identity streben is inspired by paul katsafanas nietzschean view sunyata is inspired by derek parfit s reductionist account of personal identity and the pastries are inspired by christine korsgaard s work with practical identity phil and sophia are us we all question the world on the road to their new house phil and sophia listen together work together become frustrated together and ultimately question who they are together the story is full of inquiry and deep thinking that inspires engagement with philosophy philosophical exploration involves active participation in a dialogue with the intention of achieving wisdom it is an inherently communal process that values new ideas and new ways of seeing the world this book takes seriously the idea that children can profit greatly from engaging with philosophical ideas and it aims to facilitate and encourage such engagement through discussion questions presented at the end of every chapter this book is designed to spur reflection and conversation it is best read with others

Phil's-Osophy 2013-01-08

lucidly written this extensive and very original introduction to philosophy features over fifty brief jargon free essays arranged in pairs each pair answers one of the principal philosophical questions such as does god exist or are we free with two opposing points of view on the topic of relativism for example one essay argues that morality is created by society and relative to it while the other claims that moral standards are absolute and universal each essay takes a definite stand and promotes it vigorously creating a sharp contrast between the two positions while the essays often employ standard arguments of great philosophers they present the ideas in contemporary language with vivid examples the accessible style and conflicting answers engage students and promote class discussion while other anthologies present a series of excerpts and theories without attempting to coordinate them into a larger picture philosophical dilemmas encourages students to think for themselves and to begin constructing their own worldview it also incorporates numerous pedagogical features including an introduction to each issue key terms critical questions following each essay discussions of thinking skills relevant to the answers and a glossary an annotated bibliography of historical examples for each issue and useful contemporary sources further enhance the utility of the text

the death of peter winch in 1997 sparked a revived interest in his work with this book arguing his work suffered misrepresentation in both recent literature and in contemporary critiques of his writing debates in philosophy and sociology about foundational questions of social ontology and methodology often claim to have adequately incorporated and moved beyond winch s concerns re establishing a winchian voice the authors examine how such contentions involve a failure to understand central themes in winch s writings and that the issues which occupied him in his idea of a social science and its relation to philosophy and later papers remain central to social studies the volume offers a careful reading of the text in alliance with wittgensteinian insights and alongside a focus on the nature and results of social thought and inquiry it draws parallels with other movements in the social studies notably ethnomethodology to demonstrate how winch s central claim is both more significant and more difficult to transcend than sociologists and philosophers have hitherto imagined
