The Road to Writing

2012-11-02

in case study 5 a grassroots children s mathematics network group the initiative supported the participants in their professional change by giving them a space for the detailed and joint consideration of children s mathematical thinking another significant feature of this initiative is its focus on careful consideration and analysis of children s mathematics and the ways in which professionals can support and encourage the children s mathematical thinking and reasoning the standard of the mathematical understanding thinking and reasoning that the displays revealed was far higher than the specified curriculum objectives for children of this age researching effective cpd in mathematics education

recme project nctm 2009 the review also plays great score by play based learning of a mathematical nature and makes specific recommendations regarding early mark making as a precursor to abstract mathematical symbolism section 115 features children s mathematical graphics and emphasises the role of mark making in children s cognitive development is set out in the taxonomy carruthers and worthington 2006 the report recommends that local authorities leaders managers and head teachers should provide a culture with a significant focus on mathematical mark making and a learning environment that encourages children to choose to use their own mathematical graphics to support their mathematical thinking and processes the williams maths review dcsf 2008 at the very heart of the success of the book is the authors ability to see mathematics through young children s eyes by listening to and reflecting on the constant efforts made by children to make sense of their world this is a liberating book which proposes that the teaching of mathematics could and should be a highly creative and enjoyable process branwen llewelyn jones early years consultant at pace ltd tactyc ground breaking to single out any one chapter would be unfair because there is something thought provoking and inspirational throughout if you want to expand your understanding upwards and outwards then get a copy soon times educational supplement i first read children s mathematics making marks making meaning a couple of years ago and it had an immediate impact on my own thinking and teaching and the work i do with trainee teachers i m sure you will find it compelling reading too i think it has the potential to change in a fundamental way how we think about early mathematical development lynne mcclure editor math co ordiator s file mathematics association in their exceptionally readable and informative book children s mathematics making marks making meaning carruthers and worthington 2006 draw attention to one of the main goals of early years teaching that is to help children make links between the mathematics they have already encountered and continue to engage with at home and the more abstract mathematics of the school these authors suggest that by encouraging children to represent mathematical ideas in their own ways and crucially by talking to the pupils about the marks they have made we are given a window onto their thinking that may otherwise be inaccessible liz pumphrey nrich this book draws on the authors many years of teaching children aged three to eight years and also on their extensive research with children in the home nursery and school the authors explain the development and range of young children s mathematical marks and visual representations showing how children make mental connections between their own early marks and subsequent abstract mathematical symbolism and go on to develop their own written methods combining theory and practice this acclaimed book demonstrates how children s own mathematical graphics are highly creative and show deep levels of thinking the authors show how this is the key to success in school mathematics and to higher levels of achievement the authors are winners of tactyc s 2003 jenefer joseph award for the creative arts 3 8 awarded for their innovative work with children on mathematical graphics

Children's Mathematics

2006-08-07

through the simple act of drawing whether it s doodling or creating detailed illustrations embrace your inner voice and unlock the power of your intuitive intelligence do you remember being a child and the pure joy brought on by a box of crayons and piece of paper do you still find yourself sketching away every time you pick up a pencil that s because drawing is a natural impulse that stays with us throughout our entire lives whether you are doodling in a notebook or carving your name in the sand this simple stream of consciousness activity is a window into your deepest truest self in making marks you ll learn that every single line smudge or spot you make contains visual imagery with the power

to heal the past develop your sense of empathy and reveal solutions and answers you never realized before you don't need to have any specific experience or skills to benefit from this book through simple steps and interactive exercises people of all ages and artistic abilities can gain insight and learn to reconnect with their creative selves with beautiful black and white and full color illustrations making marks is a powerful guide to self discovery tap into your unconsciousness as artist and spiritual guide elaine clayton takes you on a journey of the soul

Making Marks

Exercising Muscles and Minds, Second Edition

2019-11-21

julie cigman uses a vast range of personal vignettes to explain best practice when encouraging boys to write the theory is brought to life with these recollections making this a very informative and enjoyable book to read the ideas for working together with boys are beautifully simple and are tried and tested this book would support both experienced practitioners and those who are just starting out because it is so accessible and uses examples in such a delightful way kathy brodie early years consultant ukearly years consultant uk julie cigman has given us a practical and principled way forward in supporting boys writing this book is shot through with rich examples of effective practice and deserves to be widely used young boys writing is brought alive for us in these pages and the groundedness in practice demonstrates how boys achievement in writing can be appropriately supported from an early age this is a book for everyone interested in promoting early literacy development an excellent read and a practical compendium professor cathy nutbrown school of education the university of sheffield how do we give young children a writer's voice and allow them to become creative and inspired writers supporting boys writing in the early years shows you how you can help boys to become confident and capable writers by supporting them to write in ways that make sense to them on the move outside and inside in dens in bushes in mud or sprawled on the floor dressed as superheroes drawing on four boys writing projects involving over 80 practitioners the book reveals that a playful child centred approach can allow boys and girls to develop a writer's voice and raise attainment in writing as well as enhancing all aspects of young children's development with a strong focus on observation led assessment and planning the book is full of practical ideas to improve the writing environment and provide writing opportunities that will be enjoyable and motivating for children featuring a wide range of case studies it covers the stages that children move through in learning to write how you can change and develop your learning environments to give children inspiring resources and opportunities to write helping children to find a purpose to write through their play practical ways to create a partnership with parents that builds on their strengths as educators at home this book will help you to create a truly enabling environment for writing and is essential reading for all those that want the children in their setting to become confident motivated and creative writers

Supporting Early Literacies through Play

2021-11-24

children are most engaged and therefore learn best when they are following their own interests in this book anna ephgrave shows how her acclaimed planning in the moment approach can be used with two and three year olds with dramatic results for both children and staff it

reveals the impact that free flowing child initiated play has on very young children s wellbeing making them feel safe secure and consequently helping them to be fully engaged in their learning the first part of the book clearly explains the principles of child initiated play and demonstrates how practitioners can create the best possible environment for very young children also looking at the resources and practices that need to be in place for them to flourish there is detailed guidance on the role of the practitioner including how adults should observe children s play before deciding how or if to interact in that moment to ensure that each interaction moves learning forward and supports the child s unique development the second part of the book tracks some of the events from each month in the toddler room of an outstanding preschool following a cohort of children through a year to show how the setting moved from topic based adult led activities to a fully child led way of working key features include over 350 full colour photos to illustrate practice specific guidance on using the in the moment approach with all children including those with additional needs advice on working with parents individual children and groups examples of individual learning journeys photocopyable templates of focus child sheets covering all aspects of practice from the organization of the room and outdoor environment to the routines and boundaries that ensure children are safe and happy this book is essential reading for anyone who works with two and three year olds

Movement, embodiment, kinesemiotics: Interdisciplinary approaches to movement-based communication

2023-06-02

an exquisitely illustrated introduction to the gestural mark in the designed world exploring the tension between marks which are felt and images and words which are conceptual in the hidden factor steven skaggs provides a beautifully illustrated and explained introduction to the mark from those as physical as a scratch made by an animal to those as accidental as a splatter of paint to those as intentional as hand drawn characters skaggs makes the case that in the visual arts gestures and mark making operate on an equal level with image and word while we might think of content as that which is communicated through text and images skaggs shows through visual examples that the gestural mark is often hidden within both images and the typographic forms that convey words by mapping different kinds of marks and showing how marks combine with image and word the hidden factor explains that our desire for conceptual information suppresses our awareness of marking this is especially the case with the tension between word and mark where we desire legibility as a result one of the most conservative of arts calligraphy has the potential of being the most radical since gesturally expressive handwriting is a natural threat to the legibility of a text filled with expressive calligraphic art graffiti and other gorgeous marks the hidden factor is an eye opening read that brings to the fore the importance and indeed the prevalence of the mark in everything we see

Supporting Boys' Writing in the Early Years

2014-05-30

this core text for early childhood studies and early years students focuses on communication language and literacy in the pre school years

the text begins by discussing language acquisition and development covering development theory talking with babies and the factors that affect development it goes on to give guidance on how to support children s language acquisition through rhymes songs story books and storytelling finally it examines the roots of literacy and asks what comes before phonics interactive activities are included throughout to engage the reader and research focus features help students make essential links between theory and practice
