the dawn awaits the age of party democracy has passed argues peter mair in ruling the void the major parties have become so disconnected from society that they no longer seem capable of sustaining democracy in its present form first published in 2013 ruling the void presciently observed that the widening gap between citizens and their political leaders posed a crisis of legitimacy for the governing class and was fuelling populist mobilizations against it europe s political elites had remodelled themselves as a homogeneous professional class withdrawing into state institutions that offer relative stability in a world of fickle voters meanwhile non democratic agencies and practices proliferated not least among them the european union itself mair weighs the impact of these changes and offers an authoritative assessment of the prospects for popular political representation today not only in the varied democracies of britain and the eu but throughout the developed world with a new introduction by chris bickerton author of the european union a citizen s guide 2403 ad it would be easier to kill him than to trust him transporting a serial killer might seem like a simple job for ccf homicide investigator kyle tanner after spending years apprehending murderers he s ready to hang up his pistol babysitting a prisoner will bring him to alpha centauri where he can search for a way to escape the ccf forever if he makes it when his ship breaks down in deep space and a ccf research vessel comes to his aid tanner realizes he s in terrible danger the scientists on board have blocked his distress call and when tanner s prisoner escapes he begins to suspect that the proximity of the research vessel had nothing to do with luck and everything to do with the ccf s relentless reach facing near certain death by his own organization tanner must unravel a tangled skein of vengeance duplicity and murder in deep space but he s being held at the will of master puppeteers and if he can t cut the strings he ll dance straight to a gruesome excruciating death a tanner sequence novel 106 000 words research notes of a heretic about the delicate mechanics of the universe theories regarding the duality of things principles that govern systems from religion to sacred geometry of symbols to physics observations about how information balances itself and much more one of the three sections of the book is dedicated to experiments and practical use of these original concepts the applications range from subliminal control to prediction of coincidences indirect causing of events and things you won t normally find discussed or commented will their heart s desire doom a civilization the bestselling void trilogy continues in the temporal void an astonishing and vast space opera from peter f hamilton set in the world of the commonwealth the commonwealth is in turmoil as a cult prepares for its pilgrimage into the void breaching its boundaries could cause an irreparable rift in space yet these fanatics are unstoppable convinced by the void s projections of a paradise within an alien invasion fleet is also on the way as the oscien empire attempts to take advantage of humanity s confusion investigator paula myo must hunt the void s latest prophet in an attempt to stop her spreading its enticing visions and at the heart of events is edeard the waterwalker who lived long ago within the void tales of his glorious story inspired the pilgrimage but may yet expose the void s true nature the temporal void is the second book in the void trilogy complete the epic adventure with the evolutionary void i was given an opportunity

to return to earth to complete my unfinished business from god while i was visiting heaven i had re signed a contract with god promising that i would write a book about my experience i always fulfill what i promise i believe it is a beautiful thing to do i have written about my experience in this book retrospective from the void of emptiness to planet earth i have explored what it is like living as a spirit in nothingness before we set foot on earth in my opinion our true nature is an infinite being temporarily accommodated in a physical body that we animate on earth this is part of the spiritual journey we must take i have explained how a person should take care of himself because no one else can provide such personal responsibility for another individual therefore you should love yourself and believe you are significant celebrate your life at every moment in addition in discussing an issue regarding my health i realized that the most valuable thing in life is to have superb health that is how i ended up in heaven but was given a second chance to return to earth to finish what i wanted to complete a lavish coffee table book featuring spectacular images from the chandra x ray observatory the most powerful x ray telescope ever built take a journey through the cosmos with light from the void a stunning collection of photographs from the chandra x ray observatory s two decades of operation the book showcases rarely seen celestial phenomena such as black holes planetary nebulae galaxy clusters gravitational waves stellar birth and death and more accompanying these images of incredible natural phenomena are captions explaining how they occur the images start close to home and move outward beginning with images of the chandra launch then moving into the solar system through the nearby universe and finally to the most distant galaxies chandra has observed the book brings readers on a far out visual voyage in this 21st century pastiche to dante s inferno the author of god s unwanted child puts the reader in the driver s seat of a surreal oneiric vision about the changing nature of american society and those who reject it set on black friday in modern day los angeles the call of the void follows dr samuel killian a young ucla professor of philosophy on the verge of a nervous breakdown who has been recently placed on paid leave after a drunken misanthropic rant goes viral in his classroom given an ultimatum by the school s psychologist to go on a healing journey to reconnect with mankind or lose his job sam is forced to embrace the decaying city he has hermetically sealed himself away from whether traversing la s sordid red light district consorting with a band of virtuous renegade pariahs that follow sam through each chapter committing ritual suicide or fighting off unsavory characters at target on black friday sam killian has 12 hours to reconcile with humanity part philosophical peregrination part jeremiad on the decadence in western civilization the call of the void is a starkly explicit reminder of the seedy world that rests just beneath our own sent to gregoruta 13y to investigate a newly constructed chapel prior to consecration corilian laecudilius a commissar in the kingdom of the divine s military arm and secretly an agent for the inquisitional holy order joins forces with dawn a barbaric bounty hunter and newly recruited agent to solve the case working alongside a former planetary defence force soldier an assassin can the party uncover the foul heresy afoot on gregoruta 13y dancing with the void is the story of an unconventional man whose existence was mind free go free form free

effort free time free in his own joyful prose sunyata chronicles his life journey from contemplative farm boy and gardener emmanuel sorensen to humble himalayan cave dweller mr nobody a lover of silence and solitude sunyata remained untouched by the common worldly conditioning that entraps so many his fateful journeys inspiring friendship and the spiritual wisdom shared in these collected writings all reflect the soul of an authentic seer published on the occasion of the expo s 75th anniversary into the void pacific is the first architectural history of the 1939 san francisco world's fair while fairs of the 1930 s turned to the future as a foil to the great depression the golden gate international exposition conjured up geographical conceits to explore the nature of the city s place in what organizers called pacific civilization andrew shanken adopts d h lawrence's suggestive description of california as a way of thinking about the architecture of the golden gate international exposition using the phrase "void pacific" to suggest the isolation and novelty of california and its habit of looking west rather than back over its shoulder to the institutions of the east coast and europe the fair proposed this vision of the pacific as an antidote to the troubled atlantic world then descending into chaos for the second time in a generation architects took up the theme and projected the regionalist sensibilities of northern california onto asian and latin american architecture their eclectic referential buildings drew widely on the cultural traditions of ancient cambodia china and mexico as well as the international style art deco and the bay region tradition the book explores how buildings supported the cultural and political work of the fair and fashioned a second parallel world in a moment of economic depression and international turmoil yet it is also a tale of architectural compromise contingency and symbolism gone awry with chapters organized around the creation of treasure island and the key areas and pavilions of the fair this study takes a cut through the work of william wurster bernard maybeck timothy pflueger and arthur brown jr among others shanken also looks closely at buildings as buildings analyzing them in light of local circumstances regionalist sensibilities and national and international movements at that crucial moment when modernism and the beaux arts intersected dynamically everyone who has a breath has a longing for something to fill the emptiness that dwells in each of us we try to fill this emptiness with anything that will give us temporary relief what causes this emptiness the answer is that we lack a purpose for our life once we find that purpose we are made whole we are children of light living in a world that provides us with temptations that keep us blind and bound in the dark i lived in the darkness until my world was shattered by one phone call and one summer that changed my life forever the quest to fill the void led me from darkness into the marvelous light everyone is given the opportunity to experience a greater purpose than just existence when you come to the end of your life it is not what you leave behind but what you take with you that is important what if you could know for sure what is waiting for you when you step out of this world you can but it involves a quest for the truth the truth will set you free from bondage and the deception that every human falls victim to the void in our lives can be filled with the love that we all spend our lives trying to find there once were two children a girl and a boy one could

Ovoid the Void 2000-09-05 the searing sequel from the author who brought you into the void with ace frehley as featured on the e true hollywood story in 2009

The Void 2011-05-12 in the echo of silence that follows a loss we often find ourselves standing on the precipice of an immense void staring into the depths of grief this void though seemingly desolate and forbidding is the landscape of our healing a silent testament to the resilience of the human spirit verses from the void poetry for the mourning soul is a journey through this terrain an exploration of the multifaceted emotions and experiences we encounter when faced with the profound impact of loss each chapter in this collection is a beacon of light illuminating a specific stage of the grieving process we begin with early grief a poignant exploration of the initial shock and heartbreak that accompanies loss the poems in this section serve as raw candid depictions of the very first steps we take into the labyrinth of grief memories and nostalgia and the void whispers mark the subsequent stages delving into the heartrending pull of the past and the aching loneliness that seeps into the corners of our existence these poems evoke images of cherished moments and the daunting silence that reverberates in their absence respectively moving further into the labyrinth we are met with anger and betrayal and depression and despair where the verses embody the turbulence of rage and the deep pits of sorrow these are the dark valleys of our grief journey where emotions raw and unfiltered rise like tidal waves longing and yearning touches upon the deep rooted desire for what once was the yearning for the presence of the departed each verse echoes with the quiet whispers of longing like a tender heartfelt lament for the familiar now lost as we navigate the complexity of these emotions we slowly tread into the realms of acceptance and peace a stage where the realization of loss transforms into a tranquil understanding the verses here speak of a farewell not a final goodbye but an acceptance of a different form of presence a continuation of love beyond the physical realm the final chapter resilience and healing represents the dawn breaking on the horizon of our journey it is a testament to the indomitable human spirit that even in the face of unimaginable loss finds the strength to heal and grow these poems speak of hope and renewal of finding light in the heart of darkness verses from the void poetry for the mourning soul is more than a collection of poems it

is a compassionate companion for those navigating the winding path of grief it is an acknowledgement of the pain a celebration of the memories and ultimately a beacon of hope towards healing and reconciliation it is my sincere hope that these verses bring solace to your mourning soul reminding you that even in the darkest nights the dawn awaits
