**Useful for UPSC IAS PCS Civil Services Related Govt Recruitment Exams** based upon the Handbook of London by the late Peter Cunningham. Reproduction of the original 'Rambles on Railways' by Cusack P. Roney contains its proceedings, reports, list of members, etc. A stunning investigation of the roots of the first moon landing forty years ago. This illuminating story of the dawn of the space age reaches back to the reactionary modernism of the Third Reich, using the life of rocket scientist Wernher von Braun as its narrative path through the crumbling of Weimar Germany and the rise of the Nazi regime. Von Braun, a blinkered opportunist who could apply only tunnel vision to his meteoric career, stands as an archetype of myriad twentieth-century technologists who thrived under regimes of military secrecy and unlimited money. His seamless transformation from developer of the deadly V-2 ballistic missile for Hitler to an American celebrity as the supposed genius behind the golden years of the US space program in the 1950s and 1960s raises haunting questions about the culture of the Cold War, the shared values of technology in totalitarian and democratic societies, and the imperatives of material progress.

**A Fourth Spine-Tingling Visit to the Secret London Borough of Darkside: A Blood Succession, a Mysterious Watch and Chaos in the Streets.** Just another day in Darkside. Jonathan is back home again when he hears that Vendetta has gone missing and that's not even the worst of it. Teaming up with some old friends, Jonathan becomes embroiled in a terrifying Darkside mystery, and he discovers the answer to a question he's been asking for years: could his mother still be alive?

**Reading this book is like taking a ride on a marvellously exhilarating time machine.** Alive with colour, surprise, and sheer merriment, *Jan Morris: Elizabethan London* reveals the practical details of everyday life so often ignored in conventional history books. It begins with the River Thames, the lifeblood of Elizabethan London, before turning to the streets and the traffic in them. Liza Picard surveys building methods and shows us the interior decor of the rich and the not-so-rich, and what they were likely to be growing in their gardens. Then the Londoners of the time take the stage in all their amazing finery. Plague, smallpox, and other diseases afflicted them, but food and drink, sex and marriage, and family life provided comfort. Cares could be forgotten in a playhouse or the bull-baiting of bear-baiting rings, or watching a good cockfight. Liza Picard's wonderfully skilful and vivid evocation of the London of Elizabeth I enables us to share the delights as well as the horrors of the everyday lives of our sixteenth-century ancestors. Whether you want to pose in front of Big Ben's Elizabeth Tower, explore the Tower of London, or visit the Royal Family at Buckingham Palace, the local Fodor's travel experts in London are here to help.
