book is rewritten from book 7 of enid blyton s the secret seven collection the secret seven are peter and his sister janet jack barbara pam colin and george they form the secret seven society ready to solve any mystery any time they have a secret password a badge and a secret meeting place in a garden shed when their usual meeting place is being painted the secret seven have to find somewhere else to meet so they choose a cave in the quarry but it s soon clear to the seven that someone else is using the cave when food cushions and books go missing whoever is going there at night it is up to the secret seven to find out enid blyton 1897 1968 is one of the world s best loved children s authors her books have been translated into over 90 languages and are still enjoyed by children and adults all over the world highlighting an important yet often ignored part of toronto s transportation story wheeling through toronto chronicles the history of the bicycle and reveals a way forward for a world in climate crisis throughout its history in toronto the bicycle s place on the roads and in public esteem has fluctuated wildly flaunted as fashionable disparaged and derided rescued from looming obscurity and promoted as a way to respond to the challenges of the day what is it about the simple bicycle that it can be so loved by some yet despised and detested by others wheeling through toronto offers a 130 year ride from the 1890s to the present to help answer this question albert koehl a toronto lawyer and leading cycling advocate chronicles the tumultuous history of this mode of transportation from the bicycle craze at the turn of the century to the rise of the car and the motorway in the 1950s to the intensifying cry for active transportation in the 1990s and into pandemic times in an era of catastrophic climate events wheeling through toronto highlights how the bicycle should be celebrated not only as hope for the future but also for its affordability for its contribution to clean and healthy mobility and because it brings happiness and joy to so many drawing on archival materials newspapers and personal interviews and full of fascinating vignettes this book presents the story of how we got

here and what torontonians need to know as we pedal forward stories and rhymes put maths into context and demonstrate concepts in ways meaningful to children they make maths more relevant fun and accessible to children sparking their imagination while developing their mathematical thinking developing early maths through story is the new guide to help practitioners feel more confident about teaching early mathematics ideal for use with 3 5 years old the book will encourage young learners to exercise mathematical concepts both outdoors and indoors and show practitioners how to help their children and develop their skills creatively the book contains 14 chapters on numbers 0 to 13 each including a brief outline of a traditional story eys learning objectives resources needed suggestions for younger children and babies scope for outdoor activities and for using natural materials further activities games and extension questions suggestions for using ict assessment opportunities ideal for parents and carers who want to explore or extend the learning of maths at home with their children in a very accessible and enjoyable way today rarely is a significant land acquisition accomplished without at least one private and one public sector participant this book provides a detailed inside look at those public private partnerships meeting the challenges of existential threats through educational innovation is the first book of its kind to provide an educational and systematic analysis of problems and solutions regarding the most pressing threats that humankind is facing the book makes a case for the importance of education responding to significant threats including climate change pandemics decline in global biodiversity overpopulation egoism ideologies nuclear biological and chemical warfare inequality artificial intelligence and ignorance and the distortion of truth written by leading experts in their field based on cutting edge research the chapters explore these issues and offer suggestions for how education can address these problems in the future this groundbreaking and highly topical book will be an essential reading for academics researchers and post graduate students in the fields of education research environmental studies educational politics and organizational management this book offers the latest research within the field of hais surveying the broad topics and collecting case studies future directions and cutting edge analyses investigating biologically inspired algorithms such as ant colony optimization and particle swarm optimization there is no better message of wisdom than a lesson that has been tried and tested this is a practical guide to enable all those involved in educational activities to learn through the practices of reflection the book highlights the power that those responsible for teaching and learning have to appraise understand and positively transform their teaching can you imagine going to bed every night knowing you might wake up blind deaf paralyzed or worse not at all ellis michael's doesn't have to imagine it he's been living it for decades and so have thousands of others diagnosed with behcet's disease like crohn's lupus fibromyalgia chronic fatigue syndrome ms and dozens of other illnesses behcet's is an autoimmune disease though each is unique they all cause the body to attack itself and ellis's body has been kicking the crap out of him for decades here are just a few of the horrible symptoms he's experienced massive blood clots dvts in both legs a clot in his inferior vena cava vein going to the heart deep open ulcers in his mouth quarter sized open sores on his on the last place a guy would want them severe eye inflammation leading to blindness that literally happened overnight golf ball sized cysts on his face neck and ears and that

was all before ellis had even turned 18 living with behcet s disease sometimes called behcet s syndrome can be an everyday struggle filled with pain and suffering and while ellis s journey has been a bumpy one to say the least filled with depression anxiety drug addiction and at times utter despair he s managed to live an awesome life in spite of his diagnosis by learning to see the silver linings of his illness by focusing on the positives instead of the negatives ellis transformed his mind his body and his entire life this is the story of how ellis michael managed to find happiness through the pain and embarrassment of living with behcet s disease warning this memoir contains language and subject matter that might not be suitable for sensitive readers there are discussions about drug use mental illness sex suicide and certain below the belt body parts if you find these topics or occasional profanity distasteful this book won t be your cup of tea but behcet s is a distasteful disease and can t be discussed in an open and honest manner without including these things land and environmental management through forestry written and edited by a group of experts in the field this groundbreaking reference work sets the standard for engineers students and professionals working in forestry agriculture ecology and environmental science offering the scientific community a way toward combating climate change and land degradation this outstanding new volume covers the diverse issues of land degradation around the world and its restoration through forestry agroforestry and other practices the editors have integrated many different concepts and applications into a single place from which scientists research scholars academicians and policymakers can benefit new insights in this area are critical as our very existence depends on forest sustainability and land restoration management the work consists of chapters addressing the issues of land degradation deforestation intensive agricultural practices sustainable intensification soil and forest related services land and environmental management and overall sustainability of the ecosystem the contributors address current issues and their management through a holistic and integrated approach presenting the context of land degradation and its problem identifying the potential areas of research in the field of land restoration identifying the land based services and their potential role for ecosystem sustainability creating awareness so that future policies can be framed for the betterment of human civilization and addressing sustainable intensification for land and environmental management and service a standard reference work for the disciplines of forestry agriculture ecology and environmental science it will also be a way forward for combating climate change useful to academics researchers ecologists environmentalists students capacity builders and policymakers it is a must have for any library dr robert ghost wolf is not a singular formulated thought god is the truth in all thought there are those who would challenge your right to live in the freedom of being they would try to pull you back into the murk and mire only to justify their own struggles with owning their self truth and worth daring to have your very own thought makes you different it makes you in many ways the outcast the misfit are you one of god s radical few through the eye of the shaman is a handbook for emerging masters following the path less often traveled this exploration of model storytelling projects shows librarians how to expand their roles as keepers of the stories while strengthening their communities community life is built on its stories our history and culture those of society and of individuals are passed from generation to generation through stories

engaging community through storytelling library and community programming examines a wide variety of model storytelling projects across the country reflecting how storytelling can encourage community attachment identity and expression in libraries community centers and schools the contributed essays written by experts in their fields many of whom served as developer fundraiser director and implementer of their project provide detailed information about the inner workings of a wide variety of model storytelling projects from across the country the authors delineate the need scope and audience for each project and offer riveting anecdotes that evaluate the success of that project many of the articles are accompanied by one or more photographs documenting the work or practical how to do it guides to encourage and enable replication thoughtful commentary on and review of the key concepts in each chapter are provided by the book's editors a decorated british officer's wrenching and inspiring firsthand account of the worst battle of the burma campaign Lt col michael lowry mc mbe was awarded the military cross for his role in the desperate defensive action at kohima considered the worst of the campaign in burma after joining up in 1939 with the queen's royal regiment lowry was posted to the north west frontier of india where he cut his teeth chasing gangs of pathan bandits for two years as the japanese advanced into burma lowry found himself fighting in the arakan region where his battalion was cut off by the japanese for three weeks having survived that next came the action at kohima where in the course of one week lowry's battalion lost 173 members lowry was seriously wounded in the conflict but fortunately lived to tell the tale this is a fascinating and inspiring book one of the most action packed memoirs of the war in burma ever published this liber amicorum is published at the occasion of judge lucius caflisch's retirement from a distinguished teaching career at the graduate institute of international studies of geneva where he served as professor of international law for more than three decades and where he has also held the position of director it was written by his colleagues and friends from the european court of human rights from universities all around the world from the swiss foreign affairs ministry and many other national and international institutions the liber amicorum lucius caflisch covers different fields in which judge caflisch has excelled in his various capacities as scholar representative of switzerland in international conferences legal adviser of the swiss foreign affairs ministry counsel registrar arbitrator and judge this collective work is divided into three main sections the first section examines questions concerning human rights and international humanitarian law the second section is devoted to the international law of spaces including matters regarding the law of the sea international waterways antarctica and boundary and territorial issues the third section addresses issues related to the peaceful settlement of disputes both generally and with regard to any particular means of settlement the contributions are in both english and french whether readers are planning a trip to bali or just fantasizing about one journey through bali lombok makes for an unforgettable bali travel guide containing more than 300 color photographs this breathtaking volume brings you from the trendy beach of seminyak to the monkey forest at sangeh and the hot springs along lake batur to the sunken wrecks off tulamben through stunning photographs readers climb lombok's smoldering mt rinjani volcano and explore the nearby rustic gili islands and nusa lembongan greenway was a longtime resident of bali and still considers it his spiritual home

journey through bali lombok capture the region s stunning natural landscapes and the lives and experiences of the balinese people including their renowned religious festivals gamelan music and painting and craft traditions for example an image of the cliff top temple of pura luhur ulu watu during a sunset dance performance complete with hypnotic chanting and fire walking reveals intriguing aspects of ancient balinese culture this fascinating selection of photographs traces some of the many ways in which york s industries have changed and developed over the last century dr kaplan identifies common symptoms such as hand flapping poor eye contact and tantrums as typical responses to the confusion caused by vision disorder he also explains the effects of difficulties that people with autism experience with ambient vision including a lack of spatial awareness and trouble with coordination this book deconstructs isis s narrative in order to demonstrate how isis appropriates the past interprets the present and visualises the future for arab muslims this project depends on the rhetorical analysis by taking all speeches written and delivered by abu muhammad al adnani isis s media spokesman from 2011 until 2016 as a case study isis s rhetoric shows that the group has been frozen in time and space it relies on opposite dualities in managing the affairs of life and puts the laws of god against the laws of man as a belief to establish the caliphate to do that it borrows heavily but selectively from the islāmic laws based on the teachings of the qur ān and sunnah and imposes the past on the present to reach the utopia it promises to establish the analysis aims to highlight the congruences if any between the view of some people and the vision of isis in terms of the audience s interpretations of such extremist ideology regarding the other sharī'a caliphate and jihad the analysis acknowledges the intricate and complex network that connects extremist ideas and ideologies with existing mainstream ideas such as the anti shi'ite sentiment the analysis demonstrates the need for developing a participatory communicative space for dialogue among people and between people and other actors be it state international organisations or civil society forbidden knowledge has kept us subservient to flawed human perceptions for centuries but the original creators are returning now to set the record straight once and for all ever wonder what good isn t or how a single all knowing omnipotent being could possibly exist in a universe as large as ours or maybe even how something as small as you could ever come to mean anything to it even after you die well come join mr buronkers on the journey of a lifetime for some answers after he chooses to take a ride with a group of rather different visitors to his ranch it ain t going to be a bible thumper trip mind you but it still just might change everything you presently perceive of as real life no matter how edgy cated you think you are jim buronkers glassblower emmeline dowell has made a home for herself among the artists of tucson s warehouse district between teaching her craft and selling her wares she has plenty to do not to mention the occasional murder to put a crack in her routine with a weakness for taking in strays from homeless dogs to extra students emmeline can t help befriending the troubled newcomer allison mcbride but their friendship takes a dangerous turn when allison s husband turns up dead in em s studio now emmeline is involved in a murder investigation that reaches beyond the sunny southwest and when the killer acts again it s up to her to pick up the shards of allison s life before it s too late

Breaking Through the Clouds 2004 inspired by his ranger days in rocky mountain national park over forty years ago and by his recent pilgrimage to hareny peak in the black hills of south dakota richard fleck has created these descriptive essays the mountains are a constant source of spiritual renewal enabling him to become more aware and whole
