I, Robot 2004-06-01 this classic science fiction masterwork by isaac asimov weaves stories about robots humanity and the deep questions of existence into a novel of shocking intelligence and heart a must read for science fiction buffs and literature enjoyers alike the guardian i robot the first and most widely read book in asimov s robot series forever changed the world s perception of artificial intelligence here are stories of robots gone mad of mind reading robots and robots with a sense of humor of robot politicians and robots who secretly run the world all told with the dramatic blend of science fact and science fiction that has become asimov s trademark the three laws of robotics 1 a robot may not injure a human being or through inaction allow a human being to come to harm 2 a robot must obey orders given to it by human beings except where such orders would conflict with the first law 3 a robot must protect its own existence as long as such protection does not conflict with the first or second law with these three simple directives isaac asimov formulated the laws governing robots behavior in i robot asimov chronicles the development of the robot from its primitive origins in the present to its ultimate perfection in the not so distant future a future in which humanity itself may be rendered obsolete tremendously exciting and entertaining asimov dramatizes an interesting question how can we live with machines that generation by generation grow more intelligent than their creators and not eventually clash with our own invention the chicago tribune

The Complete Robot 1982 a collection of all of isaac asimov s robot stories including some which have never before appeared in a book

I, Robot 1950 for use in schools and libraries only the development of robot technology to a state of perfection by future civilizations is explored in nine science fiction stories

I, Robot 2004 for use in schools and libraries only the development of robot technology to a state of perfection by future civilizations is explored in nine science fiction stories

I, Robot. 1974 una investigación llevada a cabo por un periodista acerca de la trayectoria de la robopsicóloga susan calvin da pie a los nueve relatos que componen esta novela publicada cuando la electrónica digital estaba en su infancia yo robot resultó ciertamente visionaria aquí formuló isaac asimov por primera vez las tres leyes fundamentales de la robótica que rigen el comportamiento en los diferentes conflictos que se presentan entre humanos y robots que se convertirían en una de las piedras angulares de la ciencia ficción la modernidad y éxito de este libro se explica por la audacia en la composición y por la aplastante lógica en sus reflexiones que se adentran en el campo de la ética y de la psicología yo robots uno de los pocos títulos de ciencia ficción que han superado con amplitud el círculo de lectores especialmente aficionados entre los que a menudo se considera una obra cumbre su influencia y la de las tres leyes de la robótica en ella enunciadas es muy notable y ha servido de inspiración para incontables novelas cómics y películas

Yo, Robot 2011-01-01 beyond aurora awaits a brave new world of robots a man without a memory is stranded in a world enveloping city filled with robots gone wild at his side is a mysterious young woman who claims to know who he is but refuses to tell him according to the three laws of robotics a robot may not injure a human being which narrows the suspects dramatically when the robots find a dead human body the man calls himself derec the woman is know as katherine their real identities along with that of the murder victim and the murderer are just a few of the life and death mysteries the unlikely pair are forced to solve to survive on the fantastic streets of isaac asimov s robot city the late isaac asimov challenged a talented group of science fiction writers to resolve the conundrums he set for them in this complex robot mystery set early in the timeline of his robot and foundation universes you can share your thoughts about isaac asimov s robot city in the new ibooks virtual readers group at ibooksinc.com

Isaac Asimov's Robot City 2 2000 inspired by science fiction grand master isaac asimov s i robot stories 2037 robotic technology has evolved into the realm of self aware sentient mechanical entities but despite the safeguards programmed into the very core of a robot s artificial intelligence humanity s most brilliant creation can still fall prey to those who believe the three laws of robotics were made to be broken n8 c better known as nate has been manhattan hasbro hospital s resident robot for more than twenty years a prototype humanoid in appearance he was created to interact with people while some staff accepted working alongside an anthropomorphic robot nate s very existence terrified most people leaving the robot utilized for menial tasks and generally ignored until one of the hospital s physicians is found brutally murdered with nate standing over the corpse a blood smeared utility bar clutched in his hand as designer and programmer of nate s positronic brain lawrence robertson is responsible for his creation s actions and arrested for the crime susan calvin knows the three laws of robotics make it impossible for nate to harm a human being but to prove both nate s and lawrence s innocence she has to

consider the possibility that someone somehow manipulated the laws to commit murder

Isaac Asimov's Robot City 1999 from alexander c irvine the locus award winning author of a scattering of jades comes a thrilling new robot mystery set in the world of the late sf grand master and beloved author isaac asimov exiled to the colony nova levis roboticist derec avery and auroran ambassador ariel burgess have tried to make their best of their situation after exposing an anti robot conspiracy on earth five years before that cost them their jobs and their freedom but all that is about to change a human has been murdered on kopernik a space station orbiting the earth and all the clues point toward a robot as the killer but how can that be when robots are programmed to never bring harm to humans it s a familiar situation for derec and ariel the sort of mystery that led to their current status as political pariahs still not even an exiled robot expert can turn down an opportunity to add his expertise to the investigation and before too long derec is on his way to kopernik ariel meanwhile has a mystery of her own to unravel with the help of old friends and potentially new enemies derec searches for the identity of a killer unaware that ariel is walking directly into the center of the web of intrigue

Isaac Asimov's I, Robot: To Preserve 2016-02-02 an experimental robot and a team of human experts are on the trail of a renegade robot that has broken itself down into six pieces and launched them into the past the team must retrieve all the pieces before the human past and its future is changed original
