Antarctic Expedition

1954

in the archive of verrazzano castle in greve in chianti professor stefaan missinne discoverer of the da vinci globe dating from 1504 stumbled upon the 500 year old travel report by the italian explorer giovanni da verrazzano this led to windsor castle where the only world map dating from c 1515 portraying an open seaway between florida as an island and newfoundland was found among the papers of leonardo da vinci verrazzano did meet with magellan in seville in 1517 prior to his historical departure but did leonardo

while living in france between 1516 and 1519 influence his young royal employer and his tuscan compatriot in any way astonishingly the families of verrazzano and da vinci had been neighbors in florence in this reassessment of verrazzano s travel report the author offers new evidence on leonardo and verrazzano the codex cèllere at the pierpont morgan library now takes its rightful place as new york s literary birth certificate

gonzalo fernández de oviedo y valdés 1478 1557 warden of the fortress and port of santo domingo of the island of hispaniola also served his emperor charles v as the official chronicler of the first half century of the spanish presence in the new world his monumental general y natural historia de las indias consisting of three parts with fifty books hundreds of chapters and thousands of pages is still a major primary source for researchers of the period 1492 1548 part one consisting of 19 books was first published in 1535 then reprinted and augmented in 1547 with a third edition including book xx the first book of part ii appearing in valladolid in 1557 book xx which was printed separately in valladolid in 1557 the year of oviedo s death concerns the first three spanish voyages to the east indies while it might be expected

that the narrative of magellan s voyage would predominate in book xx oviedo devoted only the first four chapters to this monumental voyage the remaining thirty one concern the two subsequent and little known spanish follow up expeditions to the moluccas 1525 35 the first initially led by garcía jofre de loaysa set out from coruña to follow magellan s route through the strait and across the pacific a second relief expedition under alvaro saavedra was sent out in search of loaysa s company from the pacific coast of new spain in 1527 in each venture only one vessel reached the spice islands oviedo s narrative offers many details of the 10 years of hardships and conflict with the portuguese endured by the stoic spanish and of the growing unrest it provoked among their indigenous hosts the news that charles v had pawned his claim to the king joão iii of portugal allowed a very few of the spaniards to negotiate a passage back to spain via lisbon while others remained in portuguese settlements in the east indies the reports made by the returnees to the consejo de indias were integrated by oviedo into his narrative expanded and enriched by personal interviews his chronicle includes much information about the indigenous culture commerce geography and of the exotic fauna and flora of the spice islands
