the lamb of god is a book about claiming your own destiny it is about pleasure and peace it is about the ancient prophets including confucius moses abraham isaac jacob jesus and mohammad most of all it is about you the author stresses the words of jesus from the canonical gospels and also from the gospel of thomas that indicates that we are all god incarnate this is not how we see ourselves and it is not what we are taught in churches synagogues and mosques however this concept is inadequate unless we reach a mystical state of awareness and teach it to our young this state is achieved by consideration of who we really are and by giving everything to god through prayer and awareness of and obedience to his rules the argument is made that the quest for mystical awareness is a biological drive in every man and woman regardless of their age station in life or religion jesus is emphasized because of the author s perception of him as the most perfect human being and because he absorbed all of god into his persona no one else can do this but you can try we humans are a reflection of each other and jesus as well as all the prophets let us investigate god

struggle of the earliest church the communities of christ at the margins of power and society to bear witness to the nations that enveloped them as they transformed the dominant narratives of citizenship loyalty freedom power and control although kalantzis examines writings on war and military service in the first three centuries of the christian church in an organized manner the ways earliest christians thought of themselves and the state are not presented here through the lens of antiquarian curiosity with theological sensitivity and historical acumen this companion leads the reader into the world in which christianity arose and asks questions of the past that help us understand the early character of the christian faith with the hope that such an enterprise will also help us evaluate its expression in our own time
