United States history: As with most nations, the history of the United States contains a number of twists and turns throughout the centuries, from the time of the English colonization of North America up to the modern-day America that we're familiar with.

5. History of the United States: Henry Hudson, a colour lithograph based on a painting done by American artist Frederic A. Chapman depicting the 1609 voyage of Henry Hudson's ship while Native Americans watch from the nearby shore.

More: A printer challenges a king and so is laid the foundation of the first amendment; a New Jersey miner finds gold in California and sets off a torrent of movement westward; a woman going home from work does not relinquish her seat; and a civil rights movement explodes. These stories all help to ask the question: What is an American?

3. United States Country in North America: A federal republic of 50 states besides the 48 conterminous states that occupy the middle latitudes of the continent. The United States includes the state of Alaska at the northwestern extreme of North America and the island state of Hawaii in the mid-Pacific Ocean.

 When compared to other powerful nations such as France, Spain, and the United Kingdom, the history of the United States, which starts in the 17th century, is relatively short. However, as a nation virtually created out of thin air and as one of the first to be based on republican ideals, U.S. history is rich and eventful.

A brief introduction to U.S. history: The United States of America is a nation with a rich history and a noble goal: government of the people, by the people, for the people. Its citizens struggle to achieve that goal, and that struggle is a dramatic story stretching over hundreds of years.
