**Effective Teaching** 2014-09-19 this book is a practical guide designed for teachers and trainee teachers to help them improve their teaching skills it presents a concise and readable introduction to the basic techniques and procedures required in the classroom together with practical exercises designed to develop skills

A Guide to Teaching in the Active Learning Classroom 2016-06-03 while active learning classrooms or alcs offer rich new environments for learning they present many new challenges to faculty because among other things they eliminate the room's central focal point and disrupt the conventional seating plan to which faculty and students have become accustomed the importance of learning how to use these classrooms well and to capitalize on their special features is paramount the potential they represent can be realized only when they facilitate improved learning outcomes and engage students in the learning process in a manner different from traditional classrooms and lecture halls this book provides an introduction to alcs briefly covering their history and then synthesizing the research on these spaces to provide faculty with empirically based practical guidance on how to use these unfamiliar spaces effectively among the questions this book addresses are how can instructors mitigate the apparent lack of a central focal point in the space what types of learning activities work well in the alcs and take advantage of the affordances of the room how can teachers address familiar classroom management challenges in these unfamiliar spaces if assessment and rapid feedback are critical in active learning how do they work in a room filled with circular tables and no central focus point how do instructors balance group learning with the needs of the larger class how can students be held accountable when many will necessarily have their backs facing the instructor how can instructors evaluate the effectiveness of their teaching in these spaces this book is intended for faculty preparing to teach in or already working in this new classroom environment for administrators planning to create alcs or experimenting with provisionally designed rooms and for faculty developers helping teachers transition to using these new spaces

**A Teacher's Guide to Classroom Research** 2002 this practical guide is for teachers who wish to undertake research in their classrooms with a view to improving their practice it will enable teachers to enhance their own or their colleagues teaching and to test educational theory

A Guide to Teaching Practice 2015-09-03 a guide to teaching practice is the major standard text for all students on initial teacher training courses in the uk authoritative yet accessible it covers the important basic skills and issues that students need to consider during their practice such as planning classroom organization behaviour management and assessment the book's focus on the quality of teaching and learning and consideration of the latest regulations and guidelines ensures that it fits comfortably within tta and ofsted frameworks in addition comprehensively revised and fully updated this fifth edition features brand new chapters on the foundation stage legal issues learning and teaching and using ict in the classroom as well as new material on numeracy literacy children's rights progress files and gifted and talented children this book is the most respected and widely used textbook for initial teacher training courses and will be an essential resource for any student teacher

Road to Teaching 2008 a practical guide to teaching and learning contains a compilation of fifteen main ideas or concepts that will help teachers to become better at what they do to help learners reach their potential each concept is a common sense approach that is backed by research and provides an understanding of what a teacher should know and be able to do as an effective professional in their classroom ultimately it is the teacher behaviors that have an impact on the student behaviors and each chapter provides sound suggestions and tips to set the teaching and learning relationship up for success at the end of the chapters there are reflection scenarios to assist the reader in thinking through possible issues and assist the reader in applying the concept to situations in their own practice there are also guiding questions to stimulate personal reflection and may be helpful if using the book for a book study for professional learning community dialog and discussion

**A Practical Guide to Teaching and Learning** 2011-12-16 the authors of this inspirational new book were on a mission while much has been written about teacher

burnout and the day to day problems teachers face little has been written about how teachers who deal with these problems overcome them and continue to enter the classroom each morning with enthusiasm for their calling to discover such teachers the authors interviewed over 70 teachers in communities across the country to find teachers who in a profession characterized by pressure stress and little reward still find teaching an enjoyable fulfilling career the book includes over 150 teacher narratives of their real life classroom experiences the narratives provide unique insights into creating a teaching mission setting up a community of learners discovering the rewards of diversity balancing personal and professional time turning mistakes into excellence using laughter to create rapport with students and using discipline to create an atmosphere of trust and cooperation in the classroom from these inspirational stories emerges a vision of the joys and rewards of working with children and a portrait of the teachers who have made a difference in the lives of their students and a contribution to their community the quotes stories and advice written in the teachers own words are interwoven with practical suggestions for ideas to make the classroom an inspirational environment for students and teachers alike

Keeping the Light in Your Eyes: A Guide to Helping Teachers Discover, Remember, Relive, and Rediscover the Joy of Teaching 2018-03-29 if you are interested in a career in teaching but not sure where to start this book is the perfect guide written for anybody considering taking an initial teacher training course this down to earth book is a straightforward and very helpful manual which will take you through all the stages of choosing a course preparing for training and completing the course itself it is a comprehensive and supportive guide to help you decide whether teaching is the career for you and to what you can expect in the job chapters include what is a teacher the good news about teaching working with children routes to qualified teacher status and how to choose the right one for you help with study skills including essay writing organisation and record keeping how to survive your teaching placements developing your professionalism coping with the bad news teacher workload bureaucracy and stress how to get your first job written in an engaging and humorous but above all supportive style the book is essential pre course reading for prospective student teachers

So You Want to be a Teacher? 2008-06-24 this guidebook is designed to support new teachers during their first years in the profession by presenting strategies around ten common challenges with contributions from national board certified teachers national teachers of the year and other educators involved in robust induction and mentoring programs this volume provides quick access to timely curated advice from both experienced professionals and early career educators across a range of educational settings meant to be the foundation for a broader digital learning and networking experience the book offers online resources for immediate use in the classroom as well as online support for teachers

The New Teacher's Guide to Overcoming Common Challenges 2020-10 as a teacher have you ever felt like this at times it gets so boring teaching the same stuff over and over when homework papers come in i sometimes wish i hadn t assigned them i feel so washed out by the end of most days the job pressure is killing me i need to figure out ways to turn my lack lustre class environment into an exciting and vibrant one student behaviour is turning out to be a nagging problem if only i could get some co operation from the parents the art of teaching a survival guide for today s teacher offers you workable solutions to these and many other classroom situations you come across daily the book deals directly with problems that teachers identify as their greatest concerns discipline written work pressure effectiveness burnout parent co operation and student motivation it will help sharpen your teaching skills enhance the learning environment and make school more meaningful and fun for everyone the book is essentially written for middle and high school teachers who think of themselves as lifelong learners it will also be helpful for teachers in training teacher leaders school administrators educators who hire teachers supervisors and policy makers the author has put pen to paper in the hope that some of the techniques you pick up from this book will make you loved respected and remembered
