matter the e book version additionally enables users to search the entire document for specific terms sections on earlier bibliographies and general reference works on language gender and sexuality complete the compilation this book makes an innovative contribution to the relatively young field of queer linguistics subscribing to a poststructuralist framework it presents a critical deconstructionist perspective on the discursive construction of heteronormativity and gender binarism from a linguistic point of view on the one hand the book provides an outline of queer approaches to issues of language gender and sexual identity that is of interest to students and scholars new to the field on the other hand the empirical analyses of language data represent material that also appeals to experts in the field the book deals with repercussions of the discursive materialisation of heteronormativity and gender binarism in various kinds of linguistic data these include stereotypical genderlects structural linguistic gender categories especially from a contrastive linguistic point of view the discursive sedimentation of female and feminine generics linguistic constructions of the gendered body in advertising and the usage of personal reference forms to create characters in queer cinema throughout the book readers become aware of the wounding potential that gendered linguistic forms may possess in certain contexts turf wars discourse diversity and the politics of place is the fascinating story of an urban neighborhood undergoing rapid gentrification explores how members of a multi ethnic multi class washington dc community deploy language to legitimize themselves as community members while discrediting others discusses such issues as public toilets and public urination the morality of co ops and condos and characterizations of good girls and bad boys draws on linguistic anthropology and discourse analysis to provide insight into the ways that local activity shapes larger urban social processes draws also on cultural geography and urban anthropology modern social psychology has devoted a significant share of its resources to the study of human prejudice most research to date has focused on those groups that exhibit prejudice however a number of recent studies have begun to investigate prejudice from the perspective of its targets these studies have shown prejudice to be a powerful stressor that places unique and costly demands on its targets they have also identified a number of strategies that targets of prejudice use to cope with their predicaments these findings hold real promise for scholars of early christianity for not only were early christians frequently the targets of religious prejudice they were to become its perpetrators soon enough but much of what they wrote sought either directly or indirectly to address this problem in this study paul a holloway applies the findings of social psychology to the early christian pseudepigraphon known as 1 peter he argues that 1 peter marks one of the earliest attempts by a christian author to craft a more or less comprehensive response to anti christian prejudice and its outcomes unlike later apologists however who also wrote in response to anti christian prejudice the author of 1 peter does not seek to influence directly the thoughts and actions of those hostile to christianity but writes instead for his beleaguered coreligionists consoling them in their suffering and advising them on how to cope with popular prejudice and the persecution it engendered the authors explore a lengthy controversy surrounding fishing hunting and gathering rights of chippewa indians in wisconsin the book uses a carefully designed survey of public opinion to explore the dynamics of prejudice and political contestation and to further our understanding of how and why racial prejudice enters into politics in the u s this book advances the theorization of normativity as a key concept in language and sexuality studies bringing together some of the author s previous work with new material for a comprehensive exploration of the influence of normativity on the relationship between language and sexuality the first section of the book outlines fundamental areas of inquiry in language and sexuality studies today with a focus on queer linguistic inquiry and elucidates the book s theoretical frameworks around normativity chapters in the section reflect on the ways in which normativity shapes sexuality related language how language is employed to convey sexual normativities and queer linguistic challenges for the use of research methods in the discipline through a discussion of their implementation in corpus linguistics the second part of the book builds on these theoretical foundations by featuring seven case studies that illustrate a diverse range of methods and language data with a concluding chapter considering the implications of their findings for furthering theoretical debates and future research on normativity in language and sexuality studies this volume will be of interest to scholars in language and sexuality language and gender sociolinguistics discourse analysis applied linguistics and corpus linguistics this provocative fiction explores the consequences of twins choices it is a riveting tale that follows the lives characters and descendants from the first book it challenges our notions of humanity s place in the cosmic tapestry from america to china and back tamara s odyssey unfolds towards a sinister yet enigmatic climax seemingly guided by higher beings striving to steer humanity away from a precipice of annihilation the uncovering of her genetic lineage unsettles the geopolitical balance igniting a tussle between the forces of darkness and light since the outbreak of the syrian civil war in 2011 over 5 6 million people have fled syria and another 6 6 million remain internally displaced by january 2017 a total of

40 081 syrians had sought refuge across canada in the largest resettlement event the country has experienced since the indochina refugee crisis breaking new ground in an effort to understand and learn from the syrian refugee resettlement initiative that canada launched in 2015 a national project examines the experiences of refugees receiving communities and a range of stakeholders who were involved in their resettlement including sponsors service providers and various local and municipal agencies the contributors who represent a wide spectrum of disciplines include many of canada s leading immigration scholars and others who worked directly with refugees considering the policy behind the program and the geographic and demographic factors affecting it chapters document mobilization efforts ethical concerns integration challenges and varying responses to resettling syrian refugees from coast to coast articulating key lessons to be learned from canada s program this book provides promising strategies for future events of this kind showcasing innovative practices and initiatives a national project captures a diverse range of experiences surrounding syrian refugee resettlement in canada immigration is often discussed in broad statistical terms with a focus on how it affects labor markets schools and social services but at its most basic level immigration is a process that affects people and their identities in deeply personal ways in to be an immigrant social psychologist kay deaux explores the role of both social conditions and individual capacities in determining how well immigrants adapt to life in their new homelands and makes a strong case for the relevance of social psychology in immigration studies to be an immigrant looks at how immigrants are defined shaped and challenged by the cultural environment they encounter in their new country and offers an integrated psychological framework for studying the immigrant experience deaux argues that in addition to looking at macro level factors like public policies and social conditions and micro level issues like individual choices immigration scholars should also study influences that occur on an intermediate level such as interpersonal encounters each of these three levels of analysis is essential to understanding how immigrants adapt to a new homeland and form distinct identities as a case study for her framework deaux examines west indians exploring their perceptions of the stereotypes they face in the united states and their feelings of connection to their new home though race plays a limited role in the west indies it becomes more relevant to migrants once they arrive in the united states where they are primarily identified by others as black rather than guyanese or jamaican deaux s research adds to a growing literature in social psychology on stereotype threat which suggests that negative stereotypes about one s group can hinder an individual s performance she finds that immigrants who have been in the united states longer and identify themselves as african american suffer from the negative effects of stereotype threat more than recent immigrants more than a discrete event immigration can be understood as a life long process that continues to affect people well after they have migrated to be an immigrant takes a novel approach to the study of immigration looking at how societal influences help shape immigrants and their understanding of who they are while the most important measure of success for many degree seeking students is the timely attainment of a bachelor s degree there remains a host of other indicators of student success that vary by student population and students personal goals many of these smaller successes lead to the ultimate goal of graduation and are significant triumphs throughout the journey through higher education success for all is a strategic guide for administrators and educators that offers methods for advising students through the myriad of challenges they face every bit of success contributes to the accomplishment of a larger goal and this book highlights success at every level it provides a specific roadmap to the research services and programs at the university of nevada reno and truckee meadows community college that support student success in undergraduate and graduate programs regardless of a student s social emotional or prior academic experiences contributors discuss how to make students feel welcome in their social and educational environments and how to directly assist them with the timely completion of their degree administrators and educators demonstrate how these programs help make a positive contribution to the students and the institutions they serve while implementing practical solutions to increase graduation rates privilege and prejudice twenty years with the invisible knapsack explores various areas of contemporary american culture where sexism and racism still leave an indelible print in 1988 peggy mcintosh published her groundbreaking essay white privilege and male privilege an examination of white privilege and its role in perpetuating racism twenty years later these seven essays reveal problems that persist even in systems that are ostensibly trying to address problems of inequality beginning with a foreword by mcintosh on our society s resistance to confronting privilege this text then delves into a variety of fields in the first section on higher education simona hill lucien winegar juanita johnson bailey and ronald cervero contribute two essays examining racism in the academy while donna axel explores the stigma in law school alternative application processes the next section interrogates privilege and its effects on females choices with kyla bender baird questioning global contraception policies and mary carney giving a historical overview to contextualize persistent gender inequities in computer technology media studies and stereotypes are considered in the final section in which janice stapley analyzes children s birthday cards for gender bias and ellen miller critiques male dance films this text would be useful for social science and humanities scholars of all types with its explorations of the continuing ramifications of race gender class and their intersections the routledge handbook of feminist economics presents a immigration is often discussed in broad statistical terms with a focus on how it affects labor markets schools and social services but at its most basic level immigration is a process that affects people and their identities in deeply personal ways in to be an immigrant social psychologist kay deaux explores the role of both social conditions and individual capacities in determining how well immigrants adapt to life in their new homelands and makes a strong case for the relevance of social psychology in immigration studies to be an immigrant looks at how immigrants are defined shaped and challenged by the cultural environment they encounter in their new country and offers an integrated psychological framework for studying the immigrant experience deaux argues that in addition to looking at macro level factors like public policies and social conditions and micro level issues like individual choices immigration scholars should also study influences that occur on an intermediate level such as interpersonal encounters each of these three levels of analysis is essential to understanding how

immigrants adapt to a new homeland and form distinct identities as a case study for her framework deaux examines west indians exploring their perceptions of the stereotypes they face in the united states and their feelings of connection to their new home though race plays a limited role in the west indies it becomes more relevant to migrants once they arrive in the united states where they are primarily identified by others as black rather than guyanese or jamaican deaux s research adds to a growing literature in social psychology on stereotype threat which suggests that negative stereotypes about one s group can hinder an individual s performance she finds that immigrants who have been in the united states longer and identify themselves as african american suffer from the negative effects of stereotype threat more than recent immigrants more than a discrete event immigration can be understood as a life long process that continues to affect people well after they have migrated to be an immigrant takes a novel approach to the study of immigration looking at how societal influences help shape immigrants and their understanding of who they are
