the sicilian mafia is a subject of endless fascination but few serious books have been written about it in this provocative work christopher duggan argues that the idea of the mafia is a fiction born of political calculation and genuine misunderstanding of the behaviour of sicilians the first part of the book looks at the development of the idea of the mafia from the 1860s when the term first appeared to the second world war although all serious observers realised that there was no organised criminal society in sicily duggan explains why the idea was perpetuated when the island became part of unified italy in 1860 hostility to the new state was claimed by officials to be criminally inspired and they spoke for the first time of the mafia the distinctive values of the sicilians such as their belief in private justice and unwillingness to cooperate with the police reinforced the idea of a secret criminal society from then on many of sicily s political and social problems were attributed to this mythical organisation in the second part of the book to illustrate the general observations made in the first duggan provides a detailed study of the repressive campaign conducted by the fascist government against the mafia in the 1920s making use of private papers police files and trial proceedings he concludes that the mafia was primarily an idea exploited for political ends and that its use only strengthened many sicilians deep mistrust of the state this lively book is a penetrating account of the origins of the mafia myth and the first study of the impact of fascism on sicily it will be of great interest to historians of modern italy to anthropologists and to criminologists as well as to those who are actively engaged in the fight against organised crime christopher duggan was a fellow of all souls college oxford and lecturer in italian history and director of the centre for the advanced study of italian society at reading university he is co author with denis mack smith and moses finley of a history of sicily 1986

includes pictures includes a bibliography for further reading i saw four knights with lance and buckler black capes around their shoulders they saw me and smiled at that moment i understood that i was given the task of rebuilding the camorra on new and more efficient bases so that the tradition of our fathers would not be lost i am the reincarnation of the most glorious moments of the neapolitan past i am the messiah for the suffering prisoners i dispense justice i am the only real judge who takes from the usurers and gives the poor i am the true law i do not recognize the italian justice don raffaele cutolo the history of naples is long and tortured or at least for centuries that was how its history has been told inhabited almost continuously from the neolithic era to the present naples was founded by the greeks and conquered by the romans after the fall of the roman empire naples passed between various foreign rulers for its entire history prior to italian unification starting in 1040 when the norman french invaders conquered campania naples was ruled in a dizzying succession by germans then french then spanish then austrians then spanish then french and then spanish nonetheless naples does not enjoy an excellent reputation within the context of italy or of europe high rates of petty crime a decaying urban fabric and the infamous presence of the mafia known in naples as the camorra all combine to ensure fewer tourists venture to explore naples and many italians civilians and politicians alike consider it the ultimate problem city nonetheless it bears keeping in mind the words of one of naples foremost historians john marino who noted naples like each of italy s cities is unique but far less different than is generally believed the word mafia sicilian in origin is synonymous with italy but italy is home to several different mafias with three being particularly notorious while the cosa nostra of western sicily is the most infamous other powerful groups include the ferocious ndrangheta of calabria and the camorra the third largest mafia which is active in naples and the campania region a mafia is loosely defined as a criminal organization that is interested in social economic and political power combining elements of a traditional secret society with those of a business but further levels of nuance are necessary in order to understand these groups in a general sense this is because each mafia creates a myth about the development of the organization which becomes like an unquestionable truth in essence part of what makes its members so completely loyal to it is also what makes outsiders so utterly afraid of it in the particular case of the camorra the difficulty of understanding an underground criminal association is made all the more intense because it is so heterogeneous in terms of its development its different functions and the diversity of economic sectors in which it operates to reflect that diversity some scholars like to refer to it as camorre the plural version of camorra this decision is more than just a question of semantics because using the plural form helps emphasize the internal differences and conflicts within the neapolitan mafia which in turn helps explain the very nature of the organization itself the neapolitan mafia is famous for its pervasive nature which is due to the fact that it is organized in a horizontal decentralized way this means there is not one single boss who dictates policy and can be more strategic in how and when violence is deployed unlike other mafias in the camorra there has been no long term reigning family nor extensive coordination between families to form an alliance and function as a unified mafia for their shared benefit

secret society with those of a business but further levels of nuance are necessary in order to understand these groups in a general sense this is because each mafia creates a myth about the development of the organization which becomes like an unquestionable truth in essence part of what makes its members so completely loyal to it is also what makes outsiders so utterly afraid of it over the course of the 19th century the people of sicily found themselves at the center of a struggle for freedom one that ended up being long and often very bloody it was during these crucial years of struggle that the sicilian mafia la cosa nostra our thing started to take shape the original word mafia was a part of palermitan slang and although the origins of the word are not completely certain some linguistic historians believe it originally meant flashy one historian of the mafia salvatore lupu helpfully suggests that it was used in its earliest iterations to vaguely refer to a pathological relationship among politics society and criminality in the particular case of the camorra the difficulty of understanding an underground criminal association is made all the more intense because it is so heterogeneous in terms of its development its different functions and the diversity of economic sectors in which it operates to reflect that diversity some scholars like to refer to it as camorre the plural version of camorra this decision is more than just a question of semantics because using the plural form helps emphasize the internal differences and conflicts within the neapolitan mafia which in turn helps explain the very nature of the organization itself the neapolitan mafia is famous for its pervasive nature which is due to the fact that it is organized in a horizontal decentralized way this means there is not one single boss who dictates policy and can be more strategic in how and when violence is deployed unlike other mafias in the camorra there has been no long term reigning family nor extensive coordination between families to form an alliance and function as a unified mafia for their shared benefit the ndrangheta pronounced an drang et ah is a close neighbor of the cosa nostra and currently considered the most powerful and difficult to spell criminal organization in italy the ndrangheta is centered around calabria the most southwestern region of italy almost touching the sicilian city of messina though it began as far back as the late 19th century it was not until the 1950s that the ndrangheta started to spread its tentacles throughout italy and then across the entire globe forming an empire that now ranges from australia and turkey to chile to canada the fact that the ndrangheta is overshadowed by the sicilian cosa nostra as well as by the neapolitan mafia the camorra allowed it to grow and develop outside of the public eye for years people actually considered the calabrian mafia to be part of the cosa nostra as a mere appendage rather than its own entity this false belief was perpetuated by the high profile sicilian pentito tommaso buscetta and it was not until the beginning of the 21st century that the ndrangheta came into the public eye due to two dramatic killings the assassination of a politician and the duisburg massacre
