preface why must we confine the reading of our children to the older literary classics this is the question asked by an ever increasing number of thoughtful teachers they have no wish to displace or to discredit the classics on the contrary they love and revere them but they do wish to give their pupils something additional something that pulses with present life that is characteristic of to day the children too wonder that with the great literary outpouring going on about them they must always fill their cups from the cisterns of the past the short story is especially adapted to supplement our high school reading it is of a piece with our varied hurried efficient american life wherein figure the business man s lunch the dictagraph the telegraph the telephone the automobile and the railway limited it has achieved high art yet conforms to the modern demand that our literature since it must be read with despatch if read at all be compact and compelling moreover the short story is with us in almost overwhelming numbers and is probably here to stay indeed our boys and girls are somewhat appalled at the quantity of material from which they must select their reading and welcome any instruction that enables them to know the good from the bad it is certain therefore that whatever else they may throw into the educational discard when they leave the high school they will keep and use anything they may have learned about this form of literature which has become so powerful a factor in our daily life reprint

from the introduction i propose in the following pages to discuss the practice of the short story in english the vagueness of the term short story is apparent no less apparent is the existence in every literature and period of groups of narratives which we can call by no other name the literatures of ancient greece of buddhistic india of medieval france and arabia for each of them readers will bring to mind a well marked well recognized genre which to day we should put under the short story classification the fable the milesian story the birth story of the jatakas the fabliau and conte each name suggests a type of literary expression employed for very definite purposes as writers or readers named the sonnet the ballade the chanson so they named these varieties of short narrative and felt with more or less reason that in each case man was endeavoring to express his idea of life in a particular and chosen fashion if we feel the vagueness of short story as used in a historical review of our narrative literature it is not because there are no short stories which in the age of their birth were employed in literary work of a special nature we would scarcely think the words vague if nothing definite were to be named by them nor is it because of the impossibility of marking off from long narrative the short narrative which is to be given a name that difficulty is serious only for the rhetorician the fault is rather in the loose meaning of the phrase where short seems to qualify without defining we cannot escape this inconvenience except by creating a new terminology a task far less profitable than the study of a considerable and much neglected literature indeed just what has constituted the short story in english is a question better answered at the end than at the beginning of such an investigation nevertheless it is evident without further discussion that the writers who in many tongues and times have used a short narrative to convey their ideas are in one respect very often alike no matter what their subject matter may be morality indecency high imagination or human nature they have wished to procure a certain effect which could best be gained by a short story they have wished to turn a moral as in a fable or to bring home in a fabliau an amusing reflection upon life or to depict a situation as in the typical short story of to day and in every case a brief narrative with its one unified impression best served them it is the short narrative used for life units where only brevity and the consequent unified impression would serve that becomes the short story is this definition sufficient only a study of a given literature will show if it will work as the pragmatists say it is sufficient but in so working it is neither requisite nor possible that hard and fast lines of division should result where to place many whitish yellow and yellowish white peoples is a problem for anthropologists yet we call the very black man negro without hesitation certain limitations however must be imposed at the outset plots circulating through every tongue are often independent of strictly literary or cultural movements we however must concern ourselves primarily with written literature it is the

history and development of an art which we follow an art by means of which all manner of familiar experiences can be put into form and made marketable plots circulate in all ways their history is matter for folk lore and psychology it is the short story as it appears in recorded english literature and the growth of its usefulness therein which is the subject of this volume

seminar paper from the year 2007 in the subject american studies literature grade 1 3 university of münster course teaching short stories in the efl classroom 19 entries in the bibliography language english abstract the short story has its origins in traditional oral storytelling many of the world s greatest literary classics such as el cid la chanson de roland beowulf or the odyssey were originally orally transmitted in most cases the story has undergone many modifications in the course of the telling processes still they are today s primary testimonies for language history culture and people of the past they were told in rhyming and therefore functioned as a mnemonic device for easier recall in europe the short story began to evolve from oral storytelling in the early 14th century with chaucer s canterbury tales and boccacio s decamerone books consisting of individual short stories within a larger frame story only in the 19th century modern short stories began to be considered a proper genre print magazines represented a strong market for short fiction theories related to this began to surge as for example edgar allan poe s the philosophy of composition nowadays the number of commercial magazines publishing short stories has decreased but they appear to have found their place in online publications today reading has become a minor activity in people s lives with globalisation technological progress and a fast growing media industry in schools pupil s interest is increasingly difficult to stimulate especially when it comes to literature in the english second language classroom students are used to fast information input without necessarily having to become active themselves they lose concentration easily when the learning process takes too long or they lose patience when they do not understand right away the use of short stories in the english foreign language classroom is one possibility to respond to this problem teachers of foreign languages have to face therefore this paper is going to define the genre of the short story as such to create a basis for the following presentation of the benefits of short stories for the north rhine westphalian english language classroom in the next step the curricula and guidelines are taken into consideration in order to develop some ideas on how to implement the machine that won the war by isaac asimov in class these will be integrated into a lesson plan with several activities around the story there are several theoretical works dealing with the lecture of short stories starting with poe s work mentioned above allen walter s the short story in english charles e may s the short story the reality artifice or frank myszor s the modern short story some articles have been written e g by rüdiger ahrens die bisherige rolle der short story im englischunterricht der sekundarstufe ii dealing with the use of short stories as a way of teaching literature most has certainly been written about didactics of english in german classrooms such as wolfgang gehring s englische fachdidaktik eine einführung englisch lernen und lehren didaktik des englischunterrichts by johannes p timm or egon werlich s praktische methodik des fremsprachenunterrichts mit authentischen texten
