the united nations arms trade treaty became binding international law in late 2014 and although the text of the treaty is a relatively concise framework for assessing whether to authorize or deny proposed conventional weapons transfers by states parties there exists controversy as to the meaning of certain key provisions furthermore the treaty requires a national regulatory body to authorize proposed transfers of conventional weapons covered by the treaty but does not detail how such a body should be established and how it should effectively function the arms trade treaty a commentary explains in detail each of the treaty provisions the parameters for prohibitions or the denial of transfers international cooperation and assistance and implementation obligations and mechanisms as states ratify and implement the treaty over the next few years the commentary provides invaluable guidance to government officials commentators and scholars on the meaning of its contentious provisions this volume describes in detail which weapons are covered by the treaty and explains the different forms of transfer that the arms trade treaty regulates it covers international human rights trade disarmament humanitarian law criminal law and state to state use of force as well as the application of the treaty to non state actors
